

The Standing Fish Price-Setting Panel (Snow Crab Fishery – 2010)

The Panel issued its decision, setting the minimum prices for the species snow crab for 2010 on the 18th day of March, 2010. That decision misstated the price for snow crab with less than 4 inch carapace as \$1.00 lb., when in fact it should have been \$1.05 lb. The minimum prices for snow crab in 2010 are:

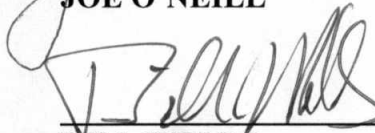

The minimum price for snow crab for the 2010 collective agreement shall be \$1.35 lb. for crab with 4 inch carapace and over, and \$1.05 lb. for crab with less than 4 inch carapace.

The Panel confirms its decision of March 18, 2010 in every other respect.

Dated the 24th day of March, 2010.
