

### **4.3 Adult Basic Education (ABE) Program**

In Newfoundland and Labrador, you can achieve high school equivalency by completing the Adult Basic Education (ABE) program. The ABE program consists of three levels: Level I refers to basic literacy and numeracy skills; Level II provides transitional skills similar to public school grades 7-9; and Level III corresponds to grades 10-12 and requires the completion of a minimum of 36 credits in order to graduate. ABE is delivered using provincially-developed curriculum and is a predominantly individualized, classroom-based program. ABE is offered in a variety of formats including full-time, part-time and online (Level I only). The ABE program is delivered by community-based organizations and private institutions. For a complete listing of locations offering the ABE program, go to the Department of Advanced Education, Skills and Labour website at: <http://www.gov.nl.ca/aesl>.

#### **Guidelines to Transfer Credits from the ABE Program to High School**

Adults are able to complete a public high school education by transferring no more than six ABE credits back to their high school transcript. To be eligible to transfer credits from the ABE program back to high school, individuals must be a minimum of 19 years of age and require six or fewer credits to graduate from the public high school system.

Additionally, to be considered for a transfer of credits back into the high school system, an individual must have obtained a minimum of five Level III credits in the Newfoundland and Labrador high school system.

**Note: Special admissions to the ABE program do not override Section 4.3.**

Within the high school program there are regulations which apply to awarding of credit. These regulations would also apply for transferring of credit back to the high school system.

For example:

- 1) Credit will NOT be awarded for a course the student already has the equivalent high school course completed (e.g., a student who already has credit for Consumer Studies 1202 on their transcript, cannot transfer back credit received for IE 3211 Consumer Studies).
- 2) Credit will NOT be awarded for conflicting courses (e.g., a high school student with credit for English 2201 cannot receive credit for English 2202, therefore a student with credit for English 2201 will not be eligible to transfer English 2102A/B/C from the ABE system back to high school).

- 3) Credits that are transferred back into the high school system are given a fifth digit '9' designation (09 3294) which indicates the course is a transfer credit and equivalent to 093204. Transfer credits are not given a numerical grade when transferred back and hence cannot be used to calculate academic/honours graduation status.
- 4) Courses completed through ABE for transfer back will only be applied to a student's high school transcript if it graduates the student.

Regulations such as the above can be found in the High School Certification Handbook at: [http://www.ed.gov.nl.ca/edu/k12/high\\_school\\_cert.html](http://www.ed.gov.nl.ca/edu/k12/high_school_cert.html). To ensure each student is working on a program that will be eligible for transfer back into high school and to secure high school graduation, a request for prior approval should be obtained from the Manager of High School Certification:

**Phone:** (709) 729-6261

**Fax:** (709) 729-0611

**Email:** ralphpercey@gov.nl.ca

Once all courses are complete, they must be entered into the online Adult Basic Education database and the Manager of High School Certification notified. Please include the student's name and date of birth. As courses that currently have equivalencies in the ABE system are de-listed from the high school curriculum, a transfer of credit from the ABE system to the high school system will no longer be possible. Listed below are the courses that currently have a transfer equivalency from ABE to the high school system. When these are transferred, a student receives credit for the course but no mark. Below is a course equivalency matrix that is effective as of September, 2009.
