Introduction

This Study Guide has been developed by the Newfoundland and Labrador Department of Education and Early Childhood Development, Apprenticeship and Trades Certification Division, to assist apprentices and trade qualifiers as they prepare to write the Red Seal Exam. Red Seal Exams are available for all Red Seal trades. For a list of Red Seal trades please refer to the Department of Education and Early Childhood Development website: <https://www.gov.nl.ca/atcd/designated-trades/list-of-designated-trades/>

Some of the specific goals of this guide are:

- ⇒ to help you understand the skills and knowledge that might be covered on the exam
- ⇒ to help you identify your strengths and weaknesses
- ⇒ to provide organization and structure for a course of study
- ⇒ to provide a list of resources to help you with your study plan
- ⇒ to support and supplement the teaching and learning process

This study guide outlines the theoretical portion of the program. The intent is not to replace technical training provided under the guidance of instructors. Rather, it is a tool to be used in conjunction with formal training.

Exam Process

Before the Exam

You must contact the nearest Apprenticeship and Trades Certification Divisional office to make request to write the Red Seal exam (*See Appendix A for a list of regional offices*). Upon approval, the Apprenticeship Program Officer (APO) will notify you of your eligibility to write the exam, and provide you with scheduling information. If you require special accommodations due to a disability or language barrier, please contact your regional office for information on applying for this service.

During the Exam

You must bring:

- personal identification such as a photo or signature ID or valid Newfoundland and Labrador driver's license
- your notification letter

The following will be provided:

- a calculator (*see Appendix B for calculator information*)
- all other items required such as pencils, scrap paper, etc.

Important Note:

Personal cell phones, calculators, or other electronic equipment are NOT allowed into the exam room. If you do bring them, they will be stored away and returned to you when you have completed the exam.

After the Exam

Results will be mailed to you approximately seven to ten days after completion of the exam. All necessary instructions and information will be provided in the results letter.

The percentage mark you obtained will be provided. You will also be given a section by section breakdown, showing how many questions were in each section, as well as the number of questions in each section you completed successfully.

If you are successful in obtaining a 70% or more on your exam, you will be issued a Newfoundland and Labrador Certificate of Qualification with a Red Seal endorsement.

Exam Format

All Red Seal exams are written in multiple-choice format. Each exam has between 100 and 150 questions. A multiple choice question consists of a stem (a complete question) followed by four options (A, B, C, D). The stem contains all the information necessary to answer the question. The options consist of the one correct answer and three “distracters.” Distracters are incorrect. (See Appendix C for a sample answer sheet).

Red Seal exams contain three types of questions:

Level 1 Knowledge and Recall

Questions at this level test your ability to recall and understand definitions, facts, and principles.

Level 2 Procedural and Application

Questions at this level test your ability to apply your knowledge of procedures to a new situation.

Level 3 Critical Thinking

Questions at this level test your ability to interpret data, solve problems and arrive at valid conclusions.

On the following pages, examples of each of the three types of questions are provided.

Level 1 Examples:

1. When constructing a walk-in freezer box, where is the installation of the vapor barrier present?
 - A. Inside on the coldest side.
 - B. Outside on the warmest side.
 - C. Around door sill only.
 - D. Only required in floor and ceiling construction.

2. What is an indication of a plugged metering device?

- A. High suction pressure.
- B. High suction gas superheat.
- C. No condenser subcooling.
- D. High discharge gas temperature.

3. What is the principal function of the expansion tank in a hot water system?

- A. It allows the volume of the water in the system to change to maintain working pressure.
- B. It collects the air in the system, thus preventing air lock of the system while in operation.
- C. It provides the necessary space for the air required in the system.
- D. It acts as a safety chamber in case of over firing of the boiler.

Level 2 Examples:

1. What amperage capacity should the supply wiring be rated for a refrigerated fixture which has a 208V power supply and the following loads?

- 4 Evaporator fan motors rated at 9 W each
- 2 Defrost heaters rated at 6 A each
- 6 Fluorescent lights rated at 40 W each
- 1 strip mullion heater rated at 3 A

- A. 15 A.
- B. 20 A.
- C. 30 A.
- D. 40 A.

2. When testing a compressor motor winding with a megger, what reading would indicate a good clean system?
- A. 2000 megaohms.
 - B. 0.0002 megaohms.
 - C. Zero megaohms.
 - D. Infinity.

3. Which three instruments are required to check the calibration of an enthalpy control on the economizer of a rooftop air conditioning unit?
- A. Voltmeter, ammeter and ohmmeter.
 - B. Manometer, Pitot tube and thermometer.
 - C. Draft gauge, manometer and thermometer.
 - D. Thermometer, sling psychrometer and ultrameter.

Level 3 Examples:

1. What is the minimum required sleeve size when installing a 50 mm (2 in.) nominal pipe with 38 mm (1 ½ in.) insulation through a 200 mm (8 in.) concrete block exterior wall?
- A. 50 mm/2 in.
 - B. 100 mm/4 in.
 - C. 150 mm/6 in.
 - D. 200 mm/8 in.

2. What is the cooling capacity of a water chiller operating with a 4.4°C (40°F) evaporating temperature, return water temperature of 10°C (50°F) and a 7.2°C (45°F) supply water temperature if the water flow rate is measured at 682.5 L/min (150 gal./min)?

- A. 87 000 W/ 300 000 Btu/h.
- B. 109 875 W/ 375 000 Btu/h.
- C. 131 850 W/ 450 000 Btu/h.
- D. 153 825 W/ 525 000 Btu/h.

3. When diagnosing the motor windings of a hermetic compressor, the following values are noted:

Common-to-start: 18Ω

Start-to-run 21Ω

What should the common-to-run value be?

- A. 3Ω.
- B. 18Ω.
- C. 21Ω.
- D. 39Ω.

Exam Content

Understanding the *Red Seal Occupational Standard (RSOS)*

The Red Seal model has historically been based on the development of the National Occupational Analysis (NOA) which supports the development of multiple-choice format examinations.

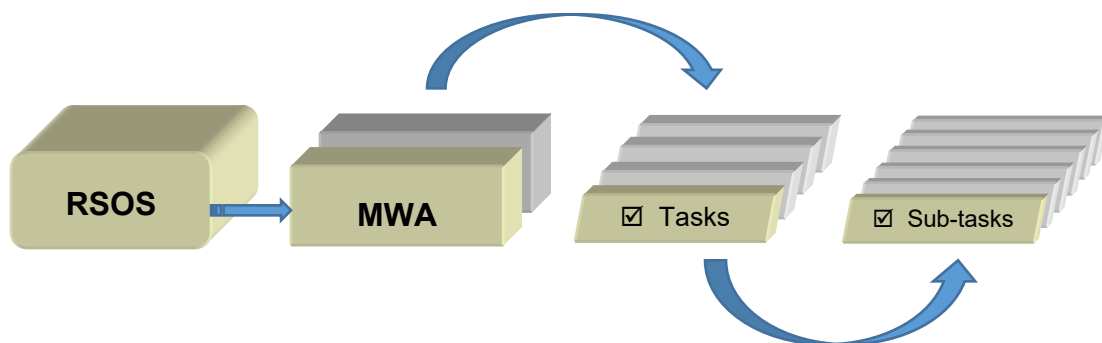

The RSOS was introduced in 2015 and is now taking the place of the NOA. Each RSOS or NOA sets the standard for a Red Seal trade. The Red Seal examination is based on the Red Seal Standard.

The new standards provide greater consistency in learning resources and allow for increased industry involvement in the development of these standards. This new model places increases emphasis on apprenticeship training and assessing skills with industry learning objectives, outcomes and performance criteria.

The RSOS for each trade describes the tasks and sub-tasks; skills and knowledge requirements; summary of essential skills; safety information; trends affecting the trade; technical terms; names of tools and equipment; acronyms; learning objectives and outcomes; industry expected performance and essential skills related to each sub-task.

The RSOS is an excellent tool to use as you study for the Red Seal exam. RSOSs can be found at <http://www.red-seal.ca/resources/n.4.1-eng.html>

RSOS material is organized into the following categories: **MWA** (*Major Working Activity*). The MWAs are further broken down into **TASKS** (*describes activities within an MWA*) and **SUB-TASKS** (*describe activities within a task – This is what the exam is based on*).

The NOA will continue to be used as the occupational standard for trades that do not yet have an RSOS developed.

RSOS Pie Chart

The RSOS Pie Chart presents the MWA percentages in the form of a pie chart which tells you the approximate number of questions from each MWA. For example, 8% of the questions on the **Refrigeration and Air Conditioning Mechanic** Exam will be based on **MWA A**.

Refrigeration and Air Conditioning Mechanic

MWA TITLES			
MWA A	Performs Common Occupational Skills	MWA D	Performs Installation
MWA B	Performs Routine Trade Activities	MWA E	Performs Commissioning
MWA C	Plans Installation	MWA F	Performs Maintenance and Services

Exam Breakdown

The **Refrigeration and Air Conditioning Mechanic** Red Seal exam has 125 questions. The following table shows a breakdown of the approximate number of questions that come from each RSOS MWA. It is important to note that the number of questions can change at any time. When you are ready to write your exam you may contact your regional office to verify the number of questions (See Appendix A).

		# of Questions
MWA A	Performs Common Occupational Skills	10
Task 1	Maintains safe and healthy workplace	
Task 2	Maintains continuous learning	
Task 3	Uses communication and mentoring techniques	
MWA B	Performs Routine Trade Activities	20
Task 4	Uses tools and equipment	
Task 5	Organizes work	
Task 6	Performs work site preparation	
Task 7	Performs trade-specific activities	
MWA C	Plans Installation	16
Task 8	Plans installation of standard and high efficiency HVAC/R systems	
Task 9	Plans installation of control systems	
Task 10	Plans retrofits	
MWA D	Performs Installation	26
Task 11	Installs HVAC/R systems	
Task 12	Installs control systems	
MWA E	Performs Commissioning	22
Task 13	Commissions new and retrofitted HVAC/R and control system components	
Task 14	Verifies system performance	
MWA F	Performs Maintenance and Service	31
Task 15	Maintains HVAC/R systems	
Task 16	Services HVAC/R systems	
Task 17	Maintains and services control systems	
	Total	125

RSOS Sub-tasks

The following *RSOS Task Profile Checklist* outlines the MWAs, tasks and sub-tasks for your trade. The Red Seal exam is written to test your knowledge and abilities regarding the sub-tasks in the RSOS. This chart can be used to review your current knowledge. You can review by placing a check mark (✓) next to those you understand fully.

Place your focus on those you do not understand and study them until you are comfortable with the material. Think of possible questions in that particular content area.

The RSOS also contains a list of “supporting knowledge and abilities” for each sub-task. They are the skills and knowledge you must have to perform a sub-task. The supporting knowledge and abilities identified under each sub-task will be very helpful as you review. The list can be found in the RSOS for your trade.

Task Profile Checklist Based on 2024 RSOS Refrigeration & Air Conditioning Mechanic

MWA A: Performs Common Occupational Skills

Task 1: Performs Safety Related Functions

Sub-Tasks

- Maintains safe work environment
- Performs lock-out, tag-out and isolation procedures
- Uses personal protection equipment (PPE) and safety equipment
- Participates in healthy and respectful work environment

Task 2: Maintains Continuous Learning

Sub-Tasks

- Up skills in new trade practices and procedures
- Up skills in emerging technologies

Task 3: Uses Communication and Mentoring Techniques

Sub-Tasks

- Uses communication techniques
- Uses mentoring techniques

MWA B: Performs Routine Trade Activities

Task 4: Uses Tools and Equipment

Sub-Tasks

- Uses hand tools
- Uses portable and stationary power tools
- Uses piping and tubing connecting tools and equipment
- Uses recovery, recycling and charging tools and equipment
- Uses evacuation tools and equipment
- Uses diagnostic and measuring tools and equipment
- Uses electrical tools and equipment
- Uses access equipment
- Uses rigging, hoisting and lifting equipment
- Uses digital technology

Task 5: Organizes Work

- Interprets drawings and specifications
- Uses reference material and documentation
- Plans job tasks and procedures

Task 6: Performs Work site Preparation

Sub-Tasks

- Prepares work site
- Handles materials and supplies

Task 7: Performs Trade Specific Activities

Sub-Tasks

- Connects piping and tubing
- Performs leak and pressure tests on systems
- Evacuates systems
- Uses refrigerants, gases, and oils
- performs field wiring of systems
- Applies sealants, adhesives, and insulation

MWA C: Plans Installation

Task 8: Plans Installation of Standard and High Efficiency HVAC/R Systems

Sub-Tasks

- Performs HVAC/R system design
- Selects HVAC/R equipment, components and accessories
- D Determines placement of HVAC/R equipment, components and accessories
- Performs HVAC/R material take-off

Task 9: Plans Installation of Control Systems

Sub-Tasks

- Performs control system design
- Selects control system components and accessories
- Determines placement of control system components and accessories
- Performs control system material take-off

Task 10: Plans Retrofits

Sub-Tasks

- Analyzes energy efficiency of current system
- Determines requirements for retrofits
- Analyzes distribution requirements for retrofits
- Performs design and sizing of retrofit equipment and components
- Plans retrofit of control systems

MWA D: Performs Installation

Task 11: Installs HVAC/R Systems

- Confirms system layout
- Assembles HVAC/R equipment, components and accessories
- Places HVAC/R equipment, components and accessories
- Retrofits HVAC/R equipment refrigerants and refrigerant oils
- Retrofits HVAC/R equipment, components and accessories
- Installs fastener, brackets and hangers
- Installs HVAC/R piping and tubing
- Applies HVAC/R holding charge

Sub-Tasks

Task 12: Installs Control Systems

- Places control system components
- Connects control systems
- Retrofits control systems

Sub-Tasks

MWA E: Performs Commissioning

Task 13: Commissions New and Retrofitted HVAC/R and Control System Components

- Performs pre start-up checks HVAC/R systems
- Performs start-up of HVAC/R systems
- Performs start-up checks for control systems
- Completes HVAC/R system charge
- Sets up primary and secondary HVAC/R system components

Sub-Tasks

Task 14: Verifies System Performance

- Verifies/sets operating parameters
- Verifies system integration
- Performs system optimization
- Completes commissioning documentation

Sub-Tasks

MWA F: Performs Maintenance and Service

Task 15: Maintains HVAC/R Systems

Sub-Tasks

- Inspects HVAC/R systems
- Performs predictive and scheduled maintenance on HVAC/R systems
- Tests HVAC/R system components and accessories
- Optimizes integrated system performance

Task 16: Services HVAC/R Systems

Sub-Tasks

- Troubleshoots HVAC/R systems
- Repairs HVAC/R systems

Task 17: Maintains and Services Control Systems

Sub-Tasks

- Performs maintenance and inspection on control systems
- Troubleshoots control systems
- Calibrates operating and safety controls
- Repairs control systems

Create a Study Plan

As you prepare for your exam, it is important to plan a schedule. The following two tables will help you stay on track.

The first table is a **“Weekly Study Plan.”** In this table list the areas you will focus your study for each day. You should include items you need to review as well as items you need to study. Remember, more time will be needed for study in areas you find difficult, whereas you may only require review in areas you are more familiar with. As you work through the RSOS sub-task list you can start to fill in this table.

The second table is a **“Study Time Table.”** It is important to create a study schedule where you determine the best days of the week and times of day for you to study.

Print several copies of these tables and fill out for each week of study. It is important to stick to your study schedule.

Weekly Study Plan for Week of: _____

	Area of Study 1	Area of Study 2	Area of Study 3	Area of Study 4	Area of Study 5	Area of Study 6
Mon.						
Tues.						
Wed.						
Thu.						
Fri.						
Sat.						
Sun.						

Study Time Table for Week of: _____

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
8:00 AM - 9:00 AM							
9:00 AM - 10:00 AM							
10:00 AM - 11:00 AM							
11:00 AM - 12:00 Noon							
12:00 Noon - 1:00 PM							
1:00 PM - 2:00 PM							
2:00 PM - 3:00 PM							
3:00 PM - 4:00 PM							
4:00 PM - 5:00 PM							
5:00 PM - 6:00 PM							
6:00 PM - 7:00 PM							
7:00 PM - 8:00 PM							

Resources - Websites

Study information can be drawn from a variety of sources. A sample list of study materials (websites and books) is provided below. These and other helpful resources may be found in a local college bookstore, on the Internet, or at your place of employment. You may also be able to borrow them from an apprentice or journey person in your trade.

Study Strategies and Exam Preparation Guide

The *Study Strategies & Exam Preparation Guide* is meant to be used in conjunction with this study guide. It provides direction and information on such areas as study habits, test preparation and test taking techniques.

<https://www.gov.nl.ca/atcd/files/Study-Strategies-and-Exam-Prep-Guide-November-2025.pdf>

Plan of Training (POT)

A *Provincial Plan of Training* details the full scope of learning for a particular occupation, including both technical training competencies and industry experiences necessary to write a Red Seal exam (and complete the requirements for Red Seal Certification), or to write a provincial examination. The Plan of Training is based on the RSOS.

<https://www.gov.nl.ca/atcd/designated-trades/pots-aacs/>

Red Seal Website

Red Seal is a program that sets common standards to evaluate the skills of tradespeople across Canada. It is a partnership between the Federal Government and the provinces/territories.

The Red Seal model has been based on the National Occupational Analyses (NOA) which supports the development of multiple-choice examinations. A new Red Seal Occupational Standard (RSOS) was introduced in 2019 and is taking the place of the NOA.

<http://www.red-seal.ca/>

Refrigeration and Air Conditioning Mechanic PRACTICE Exam

This is **NOT** a Red exam. This is a practice exam provided by the Red Seal Standards Program. It was developed using similar question types to that of a Red Seal exam. The exam is intended to be used for self-assessment in preparation for writing a Red Sea exam.

<http://www.red-seal.ca/s.1mpl.2.2x.1mQ.5.2st.3.4ns-eng.html?tid=202>

Red Seal Exam Self-Assessment Guide

Use this self-assessment tool to rate your own understanding and experience with the tasks of the trade that are on the Red Seal examination:

https://www.red-seal.ca/_conf/assets/custom/docms/refridgacmech/self-assessment.pdf

Acronyms

The Red Seal website lists Acronyms which can be helpful in preparing for your Red Seal exam:

<https://red-seal.ca/eng/trades/refridgacmech/app-a.shtml>

Tools and Equipment

The Red Seal website lists Tools and Equipment which will be helpful in preparing for your Red Seal exam:

<https://red-seal.ca/eng/trades/refridgacmech/app-b.shtml>

Glossary

The Red Seal website shows a list of Terms which will be helpful in preparing for your Red Seal exam:

<https://red-seal.ca/eng/trades/refridgacmech/app-c.shtml>

Resources – Book List

The books listed below can be used to help you obtain information on specific topics. It is not necessary to use these books specifically, as you may find others that will be equally beneficial.

If you wish to obtain any of the resources listed above, here is the reference information:

- Modern Refrigeration and Air Conditioning*, 18th edition, Althouse, A.D., Bracciano, A.F., and Turnquist, C.H., ISBN
- Modern Refrigeration and Air Conditioning*, 1st edition, McGraw-Hill Professional, 1988, Althouse, A.D., ISBN 978-0830628810
- Refrigeration & Air Conditioning Technology*, 4th edition, Delmar Cengage Learning, 1999, Johnson, B., ISBN 978-0766806672
- Heating and Cooling Essentials*, Goodheart Wilcox, Killinger, J. and Killinger, L., ISBN 978-1566374330
- Ozone Depleting Substance Regulations*, Environmental Act (O.C. 97-635), Newfoundland Regulations 120/97, www.assembly.nl.ca/legislation/sr/annualregs/1997/Nr970120.htm
- Electricity and Controls for HVAC/R*, 4th edition, Delmar Cengage Learning, 2000, Herman, S., and Sparkman, B., ISBN 978-0766817388
- Practical Problems in Mathematics for Heating and Cooling Technicians*, 4th edition, Delmar Cengage Learning, 2004, Devore, R. B., ISBN 978-1401841775
- Mechanical Refrigeration Code B52-05*, Canadian Standards Association, 2005, Product ID 2018325
- Canadian Electrical Code Part I 2009 W/Pocket guide*, Canadian Standards Association, 21st edition
- Blueprints and Plans for HVAC*, 3rd edition, Moeavek, ISBN 978-1428335202

Disclaimer

Various external resources (websites, textbooks) have been listed in this study guide to assist an individual in preparing to write a Red Seal Exam. This does not mean the Department of Education and Early Childhood Development, Newfoundland and Labrador endorses the material or that these are recommended as the best resources. There may be other resources of equal or greater value to an individual preparing for a Red Seal exam.

The Department of Education and Early Childhood Development has no control over the content of external textbooks and websites listed, and no responsibility is assumed for the accuracy of the material.

Conclusion

We hope this guide has provided you with some useful tools as you prepare for your Red Seal exam. If you have any questions regarding your Red Seal exam please contact your regional office (*see Appendix A for a list of regional offices*).

We appreciate your comments and feedback regarding the usefulness of this study guide. If you have any comments or suggestions, we welcome your feedback. The feedback form at the end of this guide can be used for this purpose.
