SALARY REPORT

NOTES:

This report includes data as of April 1, 2021 and does not reflect the implementation of recent restructurings that were announced later in April 2021.

This report includes active employees from the following four types of positions: Permanent (P), Seasonal (S), Temporary (T), and Contractual (C). Casual employees are not included in this Report (i.e. Ushers or Lifeguards).

The annual salary reported for each position is based on the current salary of the employee in the position.

Seasonal Salaries are based on the annualized amount of the position. Seasonal employees usually work 6 months of the year.

Duplicate PCN numbers indicate that there are more than one active incumbent in the position. (i.e.: employees on extended sick leave whose position is being back-filled by another employee).

This Report provides current annual salaries for all Active Employees as of April 1, 2021. The Budget Estimates costs are the projected salary costs for permanent positions. The salaries for seasonal, temporary and contractual employees, as well "other earnings" are included in "Other Salary Costs".

This report is separate from the disclosure of total compensation paid to employees that will be reported under the Public Sector Compensation Transparency Act.
