No. 13

URBAN AND RURAL PLANNING ACT

NOTICE OF REGISTRATION

TOWN OF WABANA MUNICIPAL PLAN AMENDMENT NO. 1, 2002 AND DEVELOPMENT REGULATIONS AMENDMENT NO. 1, 2002

TAKE NOTICE that the Town of Wabana Municipal Plan Amendment No. 1, 2002 and Development Regulations Amendment No. 1, 2002, adopted on the 12th day of February 2002, (as amended) and approved on the 7th day of March, 2002, has been registered by the Minister of Municipal and Provincial Affairs.

In general terms, the purpose of Municipal Plan Amendment No. 1, 2002 is to change a section in the West Mines area of town from a Residential Services area to a Commercial area.

In general terms, the purpose of Development Regulations Amendment No. 1, 2002 is to change a section in the West Mines area of town from a Residential Low Density (RLD) area to Commercial General (CG). Council has received an application for a pub from this area, as well there is already a convenience store in the area and vacant land, which can be commercially developed in the future.

The Wabana Municipal Plan Amendment No. 1, 2002, and Development Regulations Amendment No. 1, 2002 come into effect on the day that this notice is published in *The Newfoundland and Labrador Gazette*. Anyone who

wishes to inspect a copy of the Wabana Municipal Plan Amendment No. 1, 2002 and Development Regulations Amendment No. 1, 2002 may do so at the Town Office, Wabana during normal working hours.

- 7A.01 Interpretation
7A.02 Commencement of proceedings
7A.03 File administration
7A.04 Certification application
7A.05 Application for certification by defendant

1. The Rule of the Supreme Court, 1986 are amended by inserting immediately after Rule 7 the following:

**RULE 7A
CLASS ACTIONS**

Interpretation

7A.01. (1) In this rule,

- (a) "Act" means the *Class Actions Act*;
- (b) "case management judge" means the judge or his or her alternate designated by the Chief Justice to case manage a class proceeding and to consider the application for certification;
- (c) "class proceeding" includes
 - (i) a class action as defined in the Act,
 - (ii) a proceeding that is commenced on behalf of members of a class and is described in a pleading or application as having been brought pursuant to the provisions of the Act, even though it may not then have been certified as a class action,
 - (iii) a proceeding that is commenced on behalf of members of a class and is otherwise identified as a proceeding to which the Act may apply, and
 - (iv) a proceeding that is certified as a class action on the application of a defendant pursuant to section 4 of the Act, or in respect of which an application for such certification is pending; and
- (d) "class proceedings co-ordinator" means the court clerk or other official designated by the Registrar from time to time as the person having responsibility for administrative co-ordination and management of class proceedings in the Court.

(2) Expressions used in this rule shall have the meaning assigned to them in the Act unless the context requires otherwise.

(3) The rules of court and the general practice and procedure of the Trial Division shall apply to class proceedings unless they are inconsistent with the Act or this rule.

(4) The rules of court, including Rule 7A, and the procedures to be followed with respect to class proceedings shall be interpreted and applied to achieve the objects of the Act, and in particular

- (a) to promote the effective and economical use of the judicial system;
- (b) to make the court system more accessible to the public; and
- (c) to ensure that parties responding to a class proceeding are able to present their case fairly to the court.

Commencement of proceedings

7A.02.(1) Where the plaintiff intends, at the commencement of the proceeding, that a certification order under the Act will be sought in respect of the proceeding, or where an application is made to certify a class action under the Act,

- (a) the style of cause shall include, or be amended to include, the words "Brought under the *Class Actions Act*" immediately below the listed parties; and
- (b) the file number assigned to the proceeding shall have appended at the end of the file number the letters "CP" indicating that it is intended as a class proceeding.

(2) Where a certification order is granted in respect of a proceeding the file number assigned to the proceeding shall have appended at the end of the file number the letters "CCP" in place of the letters "CP", indicating that it is a certified class proceeding.

(3) Where a certification order is refused in respect of a proceeding or the proceeding is decertified, the words "Brought under the *Class Actions Act*" shall be removed from the style of cause and the

letters "CP" or "CCP" appended at the end of the file number shall be removed.

(4) Where a plaintiff intends at the commencement of a proceeding that a certification order will be sought under the Act, the originating document shall contain a paragraph describing the essential characteristics of the class on whose behalf the proceeding has been commenced.

File administration

7A.03. (1) The Registrar shall designate an official in the registry of the Judicial Centre of St. John's to act as the class proceedings co-ordinator.

(2) The class proceedings co-ordinator shall maintain a list of all active class proceedings commenced in all judicial centres.

(3) On the commencement of a class proceeding or on the filing of an application to certify a class action in a judicial centre other than in the Judicial Centre of St. John's, the Deputy Registrar or Assistant Deputy Registrar in that judicial centre shall notify the class proceedings co-ordinator of the particulars of the proceeding.

(4) On being made aware of the existence of a class proceeding, the class proceedings co-ordinator shall notify the Chief Justice and the Chief Justice or a judge designated by him shall designate a judge to act as the case management judge with respect to the proceeding. An alternate case management judge may also be designated, at the time of designation of the case management judge or subsequently, to act in the place of the case management judge in the event of his or her inability to act in respect of an application or meeting.

(5) The case management judge shall, once all counsel are identified

(a) convene a meeting with all counsel to discuss

(i) the timing of the certification application,

(ii) the steps to be taken with reference to the making of the certification application and the setting of milestones in relation thereto,

- (iii) the appropriateness of making pre-certification motions,
 - (iv) the extent of examination for discovery, if any, that may be appropriate prior to the hearing of the certification application,
 - (v) the appropriateness of restructuring the proceeding as a proceeding not governed by the Act, and
 - (vi) other matters pertinent to or affecting the proper conduct of the proceeding as a class proceeding;
- (b) hear and decide all pre-certification applications;
 - (c) hear and decide the certification application; and
 - (d) in accordance with section 15 of the Act, hear and decide all applications in any class action so certified.

(6) The case management judge may at the request of a party or on his or her own motion at a convenient time on notice to all parties convene and hold case management meetings where in the opinion of the judge they will assist in the conduct of the class proceeding.

(7) The case management judge may incorporate a decision made by consent in a case management meeting in an order, or in the event of disagreement of the parties on a particular matter, adjourn the matter into chambers or Court for full argument and decision.

(8) Where a case management judge has been assigned in accordance with this rule, all subsequent applications in the proceeding shall be made to that judge and the party filing an application in the registry shall endorse on the application the name of the case management judge.

(9) The class proceedings co-ordinator shall bring to the attention of the case management judge an application submitted for filing in accordance with rule 7A.03(8), obtain an appropriate date from that judge for the hearing of that application and notify the parties of that date.

Certification application

7A.04. (1) An application for certification shall contain:

- (a) a description of the class to be certified, including the method of determining whether a person is a member of the class for the purposes of
 - (i) identifying whether any individual may be entitled to the relief sought in the proceeding,
 - (ii) identifying all those persons who will be bound by the result of the proceeding, and
 - (iii) describing those persons who will be entitled to notice pursuant to the Act;
- (b) a description of the person or persons proposed as the representative plaintiff or plaintiffs and their suitability in terms of
 - (i) ability to fairly and adequately represent the interests of the class or sub-class,
 - (ii) the preparation of a plan setting out a workable method of advancing the proceeding on behalf of the class and of notifying class members of the proceeding, and
 - (iii) the absence of any conflict with the interests of other class members on any of the common issues;
- (c) a description of the nature of the claims asserted on behalf of and the relief sought by the class or sub-class, including a description of those questions of law or fact, if any, that are particular to each member individually;
- (d) a statement of the common issues for the class or sub-class;
- (e) the form of the notice of certification that is proposed to be given by the representative plaintiff to the class members in accordance with section 19 of the Act; and
- (f) other information as may be necessary or desirable to enable the court to comply with Part I of the Act.

(2) An application for certification shall be supported by an affidavit of the applicant and be served on all other parties at least 20 days before the day set for the hearing.

(3) Unless otherwise ordered, a person upon whom an application and affidavit is served shall, not less than 10 days or such other period as the court may order, before the date of the hearing of the application, file an affidavit and deliver a copy thereof to all other parties.

(4) A person filing an affidavit under rule 7A.04(2) shall

(a) set out the material on which that person intends to rely at the hearing of the application, including the basis of the proposed representative plaintiff's personal claim and the reason that similar circumstances exist for the rest of the class members;

(b) set out sufficient information to establish that the proposed representative plaintiff is aware of the responsibilities to be undertaken and willing to undertake the role;

(c) depose that the person knows of no fact material to the application that has not been disclosed;

(d) depose that he or she knows of no other class or representative proceeding in this or another jurisdiction relating to all or part of the action proposed to be certified, or if he or she is aware of another such class or representative proceeding, state the particulars thereof; and

(e) provide the person's best information on the number of members in the proposed class, including references to any expert reports dealing with statistical data on the size of the class and the size of the losses incurred by the class.

(5) Where under subsection 7(2) of the Act a class is divided into resident and non-resident sub-classes, a separate representative plaintiff shall be designated for each sub-class.

(6) Where it appears that a class or representative proceeding covering all or a part of the matters to be dealt with in a class proceeding in this province has been certified in another jurisdiction in Canada,

the court in considering whether and to what extent to grant the certification application

- (a) may consider whether it would be appropriate to define the class as excluding the class certified in the other jurisdiction or as excluding persons who do not opt out of the other proceeding;
- (b) may consider whether the other jurisdiction is a more convenient forum for the matter, and where the interests of the class resident in this province can be adequately represented in the other proceeding by the resident class members opting into that proceeding, stay the application;
- (c) may grant the application without reference to the other proceeding; or
- (d) make such other disposition as may be desirable.

(7) In accordance with subsection 3(4) of the Act, a person who is not a member of the class may be certified as the representative plaintiff where it is necessary to avoid a substantial injustice to the class, including:

- (a) a parent, guardian or the Registrar, where the members of the class are persons under disability and one of their number is unable to adequately represent the class; and
- (b) a public agency or incorporated advocacy group whose mandate or primary interest is the protection of the rights of that class, where one of their number is unable to adequately represent the class.

(8) A certification application may be heard in stages and the court may make separate determinations at different times with respect to the requirements for certification in section 5 of the Act.

Application for certification by defendant

7A.05. (1) Where a defendant applies for certification under section 4 of the Act, the defendant shall notify the class proceedings co-ordinator of his or her intention to apply for certification.

(2) If the court certifies two or more proceedings as a class action under section 4 of the Act, the court may

- (a) order the addition, deletion or substitution of parties;
- (b) order the amendment and consolidation of the pleadings;
- (c) order that the style of cause be changed; and
- (d) make an order that it considers appropriate.

Subclass certification

7A.06. Where a subclass has been certified under section 7 of the Act, the court may

- (a) order the addition, deletion or substitution of parties;
- (b) order the amendment of the pleadings; and
- (c) order that the style of cause be changed,

to facilitate the certification of the subclass and the appointment of a representative plaintiff for each subclass.

Class action plan

7A.07. The plan required by subparagraph 5(1)(e)(ii) of the Act shall contain:

- (a) a statement of the issues of fact and law involved in the proceeding;
- (b) a statement of any legal difficulties or complications the proceeding may encounter;
- (c) a statement of the methods of discovery and of obtaining other information relevant to the proceeding;
- (d) a statement of the potential difficulties and complications in resolving individual claims once common issues have been decided;

- (e) the method of notifying members of the class or sub-class of the proceeding;
- (f) how funds that may result from the proceeding will be able to be distributed;
- (g) a statement of the proposed timing of the various stages of the proceeding;
- (h) a proposal as to how any counterclaims and third party proceedings are to be dealt with; and
- (i) any other relevant matter affecting the management of the proceeding.

Amendment to pleadings

7A.08. After a certification order has been granted, a party may only amend a pleading filed by that party with leave of the court.

Pre-trial conference

7A.09. Notwithstanding Rule 39, a case management judge appointed under this rule shall conduct the pre-trial conference contemplated by Rule 39, whether or not he or she may be the trial judge.

Settlement, discontinuance and abandonment

7A.10. (1) Notwithstanding Rules 8, 19, 39 and 40, where it is proposed to settle, discontinue or abandon a class action, court approval shall be obtained in accordance with section 35 of the Act.

(2) An application to court for approval of a settlement of a class action shall include:

- (a) a brief history of the proceeding;
- (b) a brief statement of the facts that form the basis of the settlement;
- (c) a discussion of the relevant issues of law;
- (d) the terms of the settlement and its amount;

- (e) a statement of the form of payment of the settlement;
 - (f) the method of quantifying individual claims and the distribution of the settlement funds to class members;
 - (g) the total amount of legal fees and disbursements and their impact on the settlement;
 - (h) details of unresolved claims, if any, including their number and how they are to be resolved;
 - (i) a plan of action for resolving individual claims;
 - (j) a statement of any differences in the manner of treatment of class members;
 - (k) the procedure for disbursing unclaimed funds;
 - (l) information of related class or representative proceedings in other jurisdictions; and
 - (m) the form of a notice proposed to be sent to class members.
- (3) In considering whether to approve a settlement of a class action, the court
- (a) shall consider whether the settlement is fair, reasonable and made in good faith; and
 - (b) shall not grant its approval merely because the plaintiff representative is unwilling to continue with the action as a result of financial obligations, time restraints or an individual settlement.
- (4) Before approving a settlement of a class action, the court may direct that a notice be given to class members, together with information about the proposed settlement as it considers appropriate, and allow them to be heard either orally or in writing.

Representative proceedings

7A.11. This Rule does not apply to a proceeding brought in a representative capacity under rule 7.11, 7.12 or 7.13, unless the court orders that this Rule shall apply on the terms that the court may order.

Commencement

2. These rules come into effect on the day the *Class Actions Act* comes into force.

--	---

Short title **1.** These regulations may be cited as the *Heating Oil Storage Tank System Regulations*.

Definitions **2.** In these regulations

(a) "aboveground" means on or above the adjacent surface and includes basements or other indoor locations;

(b) "Act" means the *Environment Act*;

(c) "administrator" means a person designated as the administrator by the minister;

(d) "alter" means to

(i) enlarge, reduce, upgrade, repair, replace, add, or remove any part of a system, or

(ii) change the configuration of the piping, filter, tank, physical protection or secondary containment of a system;

(e) "certificate of registration" means a document which confirms to an owner that the system information has been, or will be, registered with the department by a licensed inspector;

(f) "department" means the department presided over by the minister;

(g) "effective date" means

- (i) for a new system, the date of installation, or
- (ii) for an existing system, the date determined under subsection 6(3);
- (h) "existing" means in use before the date these regulations come into force;
- (i) "heating appliance" means an appliance intended for the supply of heat directly to a room or space or to rooms or spaces through a heat distribution system;
- (j) "heating oil" means a hydrocarbon oil, as classified under CAN/CGSB-3.2-99, used as a fuel for a heating appliance and includes Type I, commonly known as stove oil and Type 2, commonly known as furnace oil, and any other oil which may be designated as heating oil by the administrator;
- (k) "licensed inspector" means a person licensed under these regulations to inspect a system;
- (l) "minister" means the minister appointed under the *Executive Council Act* to administer the Act;
- (m) "owner" means the person having possessory rights to and care, control or management of the system and includes that person's agent;
- (n) "system" means a heating oil storage tank system which includes one or more interconnected tanks and all associated vent, fill and withdrawal piping and filters, up to where the product lines connect to the heating appliance itself, installed in a fixed location and includes a temporary system, and, where appropriate, includes an existing system;
- (o) "System Installation and Inspection Manual" means a manual approved by the department containing additional specific instructions as to the installation, operation, maintenance and inspection requirements for systems; and
- (p) "underground" means below adjacent ground level.

Application **3.** These regulations apply to all systems with a capacity of 2500 litres or less that are or were connected to a heating appliance and are or were being used for the storage of heating oil and the delivery of heating oil to a connected heating appliance.

Prohibition **4.** (1) A person shall not operate or otherwise use a system for the storage of heating oil that does not comply with the technical requirements prescribed in section 15.

(2) This section shall come into force on April 1, 2007.

**PART I
NEW OR ALTERED SYSTEMS**

New or altered systems **5.** (1) Upon the coming into force of these regulations, the owner of a new or altered system shall register the system.

(2) A system shall comply with these regulations and the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual.

(3) A person shall not own, use, operate or fill, or cause to be used, operated or filled a system which has been constructed, installed or altered after the coming into force of these regulations unless the system is registered in accordance with section 8.

**PART II
EXISTING SYSTEMS**

Registration required **6.** (1) On or before March 31, 2007, the owner of an existing system shall register the system.

(2) A system shall comply with these regulations and the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual.

(3) In determining the age of an existing system for the purpose of these regulations, the administrator shall consider

(a) proof of the date of installation; or

(b) where the date of installation of the tank cannot be determined, the date of manufacture of the tank,

but where the date of installation or manufacture of the tank cannot be determined under paragraph (a) or (b), the system shall be considered to be of unknown age and shall not be registered.

Inspection required

7. (1) An existing system shall be inspected by a licensed inspector.

(2) A licensed inspector shall give written notice to the owner of

(a) the results of the inspection of the system carried out under subsection (1); and

(b) a description of measures required to ensure compliance with subsection 6(2).

(3) Any deficiencies discovered by the inspection shall be corrected by the owner.

(4) Where a system has passed the inspection conducted in accordance with subsection (1) or has identified deficiencies corrected in accordance with subsection (3), a licensed inspector may issue a certificate of registration for and apply a registration label to that system in accordance with section 8.

**PART III
REGISTRATION AND INSPECTION OF
SYSTEMS**

Registration

8. (1) The administrator may issue or cause to be issued to an owner

(a) a certificate of registration, which shall include a registration number for each heating oil storage tank used in the system; and

(b) a registration label, or other means of identification which shall be affixed to the system in a manner acceptable to the administrator.

(2) The certificate of registration and the registration label may be provided to the owner by a licensed inspector.

Continued compli-
ance

9. (1) A registered system shall be inspected by a licensed inspector

(a) during or before the fifth year of operation of the system;
and

(b) every five years after that

to ensure continued compliance with these regulations, the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual.

(2) An inspection under section 7 satisfies the requirement of paragraph (1)(a).

(3) Deficiencies identified during an inspection conducted according to this section shall be corrected within 30 days or the registration of the system shall be revoked by the administrator.

Registration records

10. (1) A licensed inspector shall maintain an electronic record, in the manner and form prescribed by the administrator, of all registration and inspection information of a system.

(2) The electronic record referred to in subsection (1) shall

(a) contain

(i) a description of the location of each system,

(ii) the system's registration information,

(iii) the licensed inspector's confirmation that the system complies with these regulations and the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual, and

(iv) any other information that may be required by the administrator; and

(b) be made available to the administrator upon request.

Construction and installation

11. (1) A system shall be constructed and installed according to the requirements prescribed in these regulations and in accordance with the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual.

(2) A licensed inspector shall inspect the installed system.

(3) The licensed inspector shall give written notice to the owner of

(a) the results of the inspection of the system carried out under subsection (2); and

(b) a description of measures required to ensure compliance with subsection (1).

(4) Any deficiencies discovered by the inspection shall be corrected by the owner.

(5) Where a system has passed the inspection conducted in accordance with subsection (2) or has had identified deficiencies corrected in accordance with subsection (4), a licensed inspector may issue a certificate of registration for, and apply a registration label to the system in accordance with section 8.

Alteration of system

12. (1) Any alterations to a system shall be in accordance with the requirements prescribed in these regulations and in keeping with the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual.

(2) Reasonable precautions shall be taken to prevent and contain spillage of heating oil during alterations.

(3) A licensed inspector shall inspect the altered system.

(4) A licensed inspector shall give written notice to the owner of

(a) the results of the inspection of the altered system carried out under subsection (3); and

(b) a description of measures required to ensure compliance with subsection (1).

(5) Any deficiencies discovered by the inspection shall be corrected by the owner.

(6) Where a system has passed the inspection conducted in accordance with subsection (3) or has had identified deficiencies corrected in accordance with subsection (5), a licensed inspector may issue a certificate of registration for, and apply a registration label to, the system in accordance with section 8.

Delivery prohibited

13. (1) A person shall not deliver or otherwise place heating oil into a system

(a) where there is reason to believe that the registration label

(i) has been altered,

(ii) does not belong to that system, or

(iii) has not been issued in accordance with these regulations; and

(b) after April 1, 2007

(i) which does not comply with these regulations and the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual, and

(ii) where a valid registration label is not permanently affixed to that system indicating that the registration of the system is current and has not expired.

(2) A heating oil delivery person, or any other person who identifies registration label deficiencies under subsection (1) shall report those deficiencies immediately to the owner and to the administrator.

Revocation of registration

14. (1) Where, in the opinion of the administrator, a new, altered or existing system does not comply with these regulations, the requirements of CSA-B139, the tank manufacturer's instructions and the System Installation and Inspection Manual, the administrator may

(a) revoke the certificate of registration; and

(b) direct the removal of the registration label.

(2) A revocation under subsection (1) is effective upon written notice being given to the owner by

(a) personal service; or

(b) registered or certified mail to the last known address of the owner.

(3) A notice mailed under subsection (2) shall be considered to be served on the owner

(a) on the date the owner actually receives the notice; or

(b) 5 days after the date of mailing

whichever is earlier.

PART IV TECHNICAL REQUIREMENTS

Technical require-
ments

15. (1) An aboveground mild steel tank shall only be used for the following maximum periods, which shall commence at the effective date determined under paragraph 2(g) or subsection 6(3), before being removed:

(a) for single wall tanks located outside

(i) end or top outlet, 14 gauge – 10 years,

(ii) end or top outlet, 12 gauge – 15 years,

(iii) bottom outlet, 14 gauge – 15 years, or

(iv) bottom outlet, 12 gauge – 20 years; or

(b) for single wall tanks located inside a structure or building which includes a foundation and protects the tank from the elements to the satisfaction of the administrator,

(i) end or top outlet, 14 gauge - 15 years,

- (ii) end or top outlet, 12 gauge – 20 years,
- (iii) bottom outlet, 14 gauge- 20 years, or
- (iv) bottom outlet, 12 gauge – 25 years.

(2) Notwithstanding subsection (1), an aboveground tank that is constructed with secondary containment that provides an interstice that is monitored and

- (a) where the tank is located outside and the secondary containment precludes the ingress of precipitation; or
- (b) where the tank is located inside a structure or building which includes a foundation and protects the tank from the elements to the satisfaction of the administrator,

that tank is not subject to the maximum periods prescribed in that subsection.

(3) Where an aboveground tank is constructed of materials other than mild steel it shall be used only for the maximum period set by the administrator.

(4) The maximum period referred to in subsection (3) shall not exceed 50 years.

(5) Underground heating oil storage tank systems shall be

- (a) constructed with secondary containment of both the tank and all piping or tubing that provides an interstice that is monitored; and
- (b) installed and maintained in a manner so that the system may be readily removed if necessary according to subsection 18(5).

(6) A system shall have physical protection for the tank and associated appurtenances including valves, gauges, piping or tubing.

(7) A system may be subject to other requirements that the administrator may consider necessary.

Removal required

16. (1) An existing system may remain in service if it has been registered.

(2) An existing system which has not been registered shall be removed from service in accordance with subsection (3) on or before March 31, 2007.

(3) The owner of a system which has been disconnected from its associated heating appliance shall, within 30 days

(a) empty the system of all liquid;

(b) where the system is

(i) underground, the tank top shall be accessed and opened, any sludge and heating oil remaining in the tank shall be removed and the system shall then be dismantled, removed from the ground and disposed of, or

(ii) aboveground, the tank shall be opened, any sludge and heating oil remaining in the tank shall be removed and the system shall then be dismantled and disposed of;

(c) where underground piping is involved, the piping shall be removed from the ground, or emptied of heating oil and the ends shall be permanently sealed by capping; and

(d) clean the affected area and restore the environment to the satisfaction of the department.

Variance

17. (1) The administrator may, subject to the terms and conditions he or she considers appropriate, vary the requirements of section 15 where new technology, materials, systems, equipment, methods or procedures have become available which provide a level of environmental protection that meets or exceeds that provided by that section.

(2) The administrator may vary the time period for compliance with subsections 5(3) and 9(3) and paragraphs 13(1)(b), 16(3)(b), (c) and (d), and 18(5)(b) and (c) where

(a) geographic or climatic factors make compliance within the prescribed time frame impossible; and

(b) the nature of the defect or problem is not substantive.

(3) A request to dispose of a system in place shall only be considered if there are extenuating circumstances which would make the removal of the system difficult.

**PART V
LEAKAGE AND INSURANCE**

Leakage

18. (1) An owner who has reason to believe that heating oil has leaked or is, or may be leaking from that owner's system or that water is intruding or has intruded into that owner's system shall immediately inform the department.

(2) Where any other person has reason to believe that heating oil has leaked or is, or may be leaking from a system, or that water is intruding or has intruded into a system, that person shall immediately attempt to inform the department and the owner.

(3) The owner of a system which has leaked or is or may be leaking or into which water is intruding or has intruded shall immediately inform that owner's heating oil delivery service company of the situation.

(4) A heating oil delivery service company who has been informed that heating oil has leaked or is or may be leaking or that water is or may be intruding into a system shall not deliver heating oil to that system until the system's integrity has been verified or until the system has been repaired or replaced as necessary to the satisfaction of the administrator.

(5) Where leakage is occurring from or water is intruding into a system the owner shall

(a) immediately take those steps which are necessary to abate the discharge or intrusion and empty the system of all liquid;

(b) within a period of 10 days

(i) where the system is underground, the tank top shall be accessed and opened, any sludge and heating oil remaining in the tank shall be removed and the system

shall then be dismantled, removed from the ground and disposed of,

(ii) where the system is aboveground, the tank shall be opened, any sludge and heating oil remaining in the tank shall be removed and the system shall then be dismantled and disposed of,

(iii) where underground piping is involved, the piping shall be removed from the ground, or emptied of heating oil and the ends shall be permanently sealed by capping; and

(c) within a period of 30 days, clean the affected area and restore the environment to the satisfaction of the department.

Insurance

19. (1) As of January 1, 2003 all heating oil delivery service companies shall

(a) have and maintain third party environmental liability insurance of a minimum value of \$2,000,000 per occurrence to cover costs of a spill during delivery; or

(b) provide a written guarantee of financial responsibility acceptable to the administrator.

(2) Where a company maintains insurance under paragraph (1)(a), it shall

(a) submit a certificate of insurance coverage to the administrator; and

(b) submit proof to the administrator that the required insurance contains a statement that insurance coverage may not be cancelled except upon 30 days prior written notice to the administrator.

(3) Where a company provides a written guarantee under paragraph (1)(b) it shall provide a minimum of 30 days notice in writing to the administrator of the company's intention to change, alter, cancel or otherwise cause to lapse or expire, the guarantee of financial responsibility required under that paragraph.

(4) Where a heating oil delivery service company fails to have or maintain the insurance coverage or guarantee of financial responsibility required in subsection (1), the company shall cease all deliveries of heating oil on January 1, 2003 or as of the day following the last day of insurance coverage or guarantee of financial responsibility.

**PART VI
LICENSURE OF INSPECTORS**

Licensure

20. (1) A person shall not carry out an inspection for the purpose of registering or maintaining the registration of a system unless that person holds a valid inspector's licence.

(2) An applicant for an inspector's licence shall

(a) complete and submit an application in the form and in the manner acceptable to the administrator;

(b) hold the certification required by the administrator;

(c) complete any additional training and examination programs designated by the administrator to the satisfaction of the administrator;

(d) submit a certificate of insurance coverage to be valid during the entire period of the licence for the inspector's liability for bodily injury and property damage, including damages arising from a contaminant being introduced into the environment in a sudden, unintended or unexpected occurrence, during the period of insurance with not less than \$2,000,000 coverage per occurrence; and

(e) submit proof that the insurance required under paragraph (d) contains a statement that insurance coverage may not be cancelled except upon 30 days prior written notice to the administrator.

(3) The administrator may issue a licence to an inspector and may attach those terms and conditions to that licence that he or she considers necessary.

(4) A licensed inspector shall

- (a) comply with the terms and conditions of his or her licence;
 - (b) recommend only necessary repairs to, or replacement of, a system; and
 - (c) comply with these regulations.
- (5) A licence issued under this section shall expire
- (a) 12 months following the date of issue of the licence, or
 - (b) at the end of the period for which there is insurance coverage as required under paragraph (2)(d)
- whichever is less.

Investigation

21. The administrator may conduct those investigations into the operations of a licensed inspector that he or she considers necessary.

Suspension or
revocation of
licensure

22. (1) The administrator may suspend or revoke the licence of an inspector where he or she believes that the inspector has

- (a) failed to comply with the terms and conditions of his or her licence;
- (b) acted improperly in recommending unnecessary repairs or replacement of a system; or
- (c) contravened these regulations.

(2) Where the insurance required under section 20 ceases to be in effect, the administrator shall revoke the licence of the inspector.

(3) Notice of suspension or revocation of a licence under this section may be given

- (a) by personal service; or
- (b) by registered or certified mail to the last known address of the inspector shown in the records of the administrator.

(4) A notice mailed under subsection (3) shall be considered to have been served on the inspector

- (a) on the date the inspector actually receives the notice; or
- (b) 5 days after the date of mailing

whichever is earlier.

(5) Where the administrator suspends or revokes the licence of an inspector, the administrator shall, within 30 days, provide written notice of that suspension or revocation to the insurance company which provided the insurance under section 20.

(6) An inspector whose licence has been suspended or revoked by the administrator under this section may, in writing, within 30 days of being served the notice of that suspension or revocation under subsection (4), appeal that decision to the minister and the minister may confirm, vary or rescind that suspension or revocation.

(7) An appeal to the minister under subsection (6) does not affect the decision of the administrator, which shall remain in effect until the decision of the minister.

(8) A notice of a decision of the minister under subsection (6) shall be given in the manner described in subsections (3) and (4).

(9) A decision of the minister under subsection (6) may, within 30 days of service upon the inspector who appealed the decision of the administrator, be appealed to a judge of the Trial Division and that appeal does not affect the decision of the minister, which shall remain in effect until the decision of a judge of the Trial Division.

PART VII GENERAL

Offence **23.** The administrator may set fees and prescribe forms necessary for the administration of these regulations.

Commencement **24. Except as otherwise noted, these regulations shall come into force on April 1, 2002.**

NEWFOUNDLAND AND LABRADOR REGULATION 28/02

Proclamation bringing the Act
into force
under the
Class Actions Act
(o.c. 2002-145)

(Filed March 27, 2002)

*ELIZABETH THE SECOND, by the Grace of God of the
United Kingdom, Canada and Her Other Realms and Territories
QUEEN, Head of the Commonwealth, Defender of the Faith.*

JAMES R. GUSHUE
Administrator

KELVIN L. PARSONS
Minister of Justice

TO ALL TO WHOM THESE PRESENTS SHALL COME,

GREETING;

A PROCLAMATION

WHEREAS in and by section 43 of the *Class Actions Act*, (the “Act”) it is provided that the Act shall come into force on a day to be fixed by Proclamation of Our Lieutenant-Governor in Council;

AND WHEREAS it is deemed it expedient that the Act shall now come into force.

NOW KNOW YE, THAT WE, by and with the advise of Our Executive Council of Our Province of Newfoundland and Labrador, do by this Our Proclamation declare and direct that the *Class Actions Act* shall come into force on April 1, 2002.

OF ALL WHICH OUR LOVING SUBJECTS AND ALL OTHERS whom these Presents may concern are hereby required to take notice and to govern themselves accordingly.

IN TESTIMONY WHEREOF WE have caused these Our Letters to be made Patent and the Great Seal of Newfoundland and Labrador to be hereunto affixed.

WITNESS: Our trusty and well-beloved the Honourable J. R. Gushue, Administrator in and for Our Province of Newfoundland and Labrador.

AT OUR GOVERNMENT HOUSE in Our City of St. John's this 27th day of March, in the year of Our Lord two thousand and two in the fifty-first year of Our Reign.

BY COMMAND,

OLIVER LANGDON
Registrar General

NEWFOUNDLAND AND LABRADOR REGULATION 29/02

Proclamation bringing the Act
into force
under the
Business Investment Corporation Act
(o.c. 2002-144)

(Filed March 27, 2002)
