URBAN AND RURAL PLANNING ACT

**NOTICE OF REGISTRATION
CITY OF MOUNT PEARL
MUNICIPAL PLAN AMENDMENT NO. 65, 2007
DEVELOPMENT REGULATIONS
AMENDMENT NO. 169, 2007**

Mineral License 011744M
Held by Fraser, Dean
Situates near Ikadlivik Brook
On map sheet 14D/08

TAKE NOTICE that the City of Mount Pearl Plan Amendment Number 65, 2007 and Development Regulations Amendment Number 169, 2007, adopted by Council on the 15th day of May, 2007, has been registered by the Minister of Municipal and Provincial Affairs.

Mineral License 011749M
Held by Fraser, Dean
Situates near Ikadlivik Brook
On map sheet 14D/08

In general terms, the purpose of the Municipal Plan Amendment is to remove the property at 115 Mount Carson Avenue from the Kenmount Hill Infill Comprehensive Development Area and re-designate the property from Residential Reserve to Institutional and concurrently rezone the property from Comprehensive Development Area (Residential) to and Community and Public Services (PB). The purpose of the Amendment is to accommodate a proposed one storey club, lodge and general assembly use located at the south west corner of Mount Carson Avenue and Masonic Drive.

Mineral License 011822M
Held by Kat Exploration
Situates near Blackhead Bay, Eastern NL
On map sheet 02C/11

Mineral License 011836M
Held by Reid, Patricia E.
Situates near Wolf Mountain, Central NL
On map sheet 11P/15 12A/02

The Mount Pearl Municipal Plan Amendment Number 65, 2007 and Development Regulations Amendment Number 169, 2006 come into effect on the day that this notice is published in *The Newfoundland & Labrador Gazette*. Anyone who wishes to inspect a copy of this Amendment may do so at the Mount Pearl City Hall, 3 Centennial Street during normal working hours.

Mineral License 011837M
Held by Reid, Cyril
Situates near Wolf Mountain, Central NL
On map sheet 12A/02

Mineral License 011838M
Held by Keats Sr, Suley
Situates near Grey River, Southern NL
On map sheet 11P/15

CITY OF MOUNT PEARL
Per: Gerard Lewis, Chief Administrative Officer

Mineral License 011841M
Held by Duffitt, Alexander S.
Situates near Wolf Mountain, Central NL
On map sheet 12A/02

July 13

| 10. Period of suspension | 21. Repeal |
| 11. Reinstatement of suspended licence | |

Short title	<p>1. These regulations may be cited as the <i>Fish Inspection Administrative Regulations</i>.</p>
Interpretation	<p>2. (1) In these regulations</p> <p>(a) "Act" means the <i>Fish Inspection Act</i>; and</p> <p>(b) "fish harvester" means a person licensed under the <i>Fisheries Act</i> (Canada) or regulations under the <i>Fisheries Act</i> (Canada) to fish for commercial purposes.</p> <p>(2) A provision of these regulations that authorizes or prescribes the use of a form shall be considered to include the authority to prescribe an electronic form and a provision of these regulations that authorizes or prescribes the manner of filing, sending or delivering a form shall be considered to include the authority to prescribe filing, mailing or delivering by means of facsimile telecommunication or other electronic means.</p> <p>(3) A requirement under these regulations that an action be carried out or information be provided in writing includes a form of telecommunication that produces a writing and is satisfied by the provision of electronic information where the electronic information that is provided is accessible by the recipient, and capable of being retained in its original form by the recipient for subsequent reference.</p> <p>(4) A reference in these regulations to "approved form" means a form approved by the minister.</p>
Licence required	<p>3. (1) Except as otherwise provided in section 4, a person shall not engage in, or engage in a specific aspect of, handling, storing, grading, marketing, transporting or operating a vehicle for transporting fish except under the authorization of a fish buyer's licence or a fish processing licence issued by the minister.</p> <p>(2) Except as otherwise provided in section 4, a person shall not buy or attempt to buy fish for processing or marketing from a fish harvester or a person licensed under the <i>Aquaculture Act</i> except under the authorization of a fish buyer's licence or a fish processing licence issued by the minister.</p>

(3) A person shall not engage in, or engage in a specific aspect of, processing except under authorization of a fish processing licence issued by the minister.

Licence not required

4. A fish buyer's licence or a fish processing licence issued by the minister is not required by

- (a) a fish harvester or a person licensed under the *Aquaculture Act* selling fish directly to a fish buyer or fish processor within the province who is licensed under the Act and the regulations;
- (b) a person purchasing fish for a purpose other than human consumption;
- (c) a person purchasing fish for personal consumption directly from
 - (i) a fish processor who is licensed under the Act and the regulations, or
 - (ii) a person licensed under section 5 of the *Food Premises Act*;
- (d) a person, other than a person referred to in paragraph (d), purchasing fish for resale without further processing from a fish processor who is licensed under the Act and the regulations; or
- (e) a person licensed under section 5 of the *Food Premises Act*
 - (i) purchasing fish for resale from a fish processor who is licensed under the Act and the regulations, or
 - (ii) purchasing live lobsters directly from a fish buyer licensed under the Act and the regulations.

Licences generally

5. (1) An application for a fish buyer's licence or a fish processing licence shall be made to the minister in the approved form and containing the information that the minister shall require.

(2) A fish buyer's licence or a fish processing licence may be issued by the minister upon the terms and conditions that the minister

considers necessary and advisable, including terms and conditions not related to quality, and the minister may prescribe and attach different conditions to fish buyer's licences or fish processing licences in respect of different areas of the province.

(3) The minister may attach supplemental conditions to, or vary or amend, the terms and conditions of a fish buyer's licence or a fish processing licence issued under subsection (2) as the minister sees fit while the fish buyer's licence or fish processing licence is in effect.

(4) A fish buyer's licence shall be issued only to a specific person and may contain authorizations with respect to one or more species of fish.

(5) A fish processing licence shall be issued only to a specific person and may contain authorizations with respect to one or more specified establishments or to one or more species of fish.

(6) A fish buyer's licence or a fish processing licence issued by the minister shall, unless cancelled by the minister under section 12 or 14, expire on March 31 of the calendar year immediately following the calendar year in which the licence was issued or such other period as the minister may stipulate.

(7) A fish processing licence may not be transferred or assigned without the approval of the minister.

(8) A fish buyer's licence may not be assigned without the approval of the minister.

Licence renewal

6. (1) A fish buyer's licence or a fish processing licence which has expired under subsection 5(6) may be renewed by the minister.

(2) An application for renewal of a fish buyer's licence or a fish processing licence shall be made to the minister in the form and containing the information that the minister may require.

(3) Subsections 5(2), (3), (4), (5), (6), (7) and (8) shall apply, with the necessary changes, in relation to the issuance of a renewed licence as if it were a licence issued under section 5.

Classes of fish processing licences

7. (1) A fish processing licence issued by the minister may be of one of the following classes:

- (a) a primary processing licence under which the holder of the licence shall comply with the minimum authorized treatment requirements set out in the Schedule to the *Fish Inspection Operations Regulations* or such other alternative treatments as are approved in advance in writing by the minister;
- (b) a secondary processing licence under which the holder of the licence shall process fish as part of its preparation for market beyond the primary processing stage by
 - (i) adding one or more ingredients, other than water or salt, resulting in a substantive increase in the bulk of the fish or a substantive transformation of the taste and texture of the fish as a food product, or
 - (ii) applying a treatment or process to the fish, other than salting, curing or drying, that results in a significant taste, flavour or texture enhancement of the fish as a food product;
- (c) an in-province retail fish establishment processing licence under which the holder of the licence is authorized to market the fish that it processes only for in-province trade;
- (d) a handling and grading licence; and
- (e) a research and development licence.

(2) The minister may prescribe new classes of fish processing licences from time to time.

Licence suspension

8. (1) The minister may suspend, for a definite or indefinite period, the licence or licences of a fish buyer or fish processor or any one or more of them where the holder of the licence has committed a breach of the Act, the regulations under the Act or a condition of his or her licence, or where the minister has reasonable grounds to believe that such a breach has been committed.

(2) Where a fish buyer's licence or a fish processing licence is suspended under subsection (1), the suspension may apply to the licence in its entirety or to one or more of the authorizations contained in the licence.

(3) The minister may prescribe terms and conditions respecting the licence suspension, including terms and conditions relating to the duration of the suspension and reinstatement of a suspended licence as the minister considers necessary and advisable.

(4) Where a fish buyer's licence or a fish processing licence is suspended under subsection (1), the rights and privileges of the licence holder cease while the suspension is in effect.

Notice of suspension

9. (1) Immediately after suspending a fish buyer's licence or a fish processing licence under subsection 8(1), the minister shall send a notice of suspension in writing in the approved form to the licence holder, setting out

- (a) the date on which the suspension takes effect;
- (b) the duration of the suspension;
- (c) the reasons for the suspension; and
- (d) the terms and conditions, if any, with which the licence holder shall comply in order to have the suspension revoked and the manner and form of compliance.

(2) The notice of suspension shall also advise the person whose licence has been suspended of his or her right to make representations to the minister with respect to either or both of the matters referred to in paragraphs (1)(a) and (b).

(3) The representations referred to in subsection (2) shall be submitted in writing to the minister within 5 days of the date of the notice of suspension.

Period of suspension

10. A licence suspension shall remain in effect until the minister is satisfied that

- (a) the person whose licence has been suspended
 - (i) has complied with the terms and conditions of reinstatement referred to in paragraph 9(1)(d) within the time stipulated for compliance and has provided proof of compliance in the manner and form that the minister may require,

- (ii) has not, while the licence is suspended, committed an act which would be grounds for suspension if committed while the licence was in good standing, and
 - (iii) would not, for any other reason, be disqualified from obtaining a licence under section 5 or a renewed licence under section 6;
- (b) as a result of representations which have been made under subsection 9(2), the suspension should be revoked or the terms and conditions of compliance varied; or
- (c) as a result of a material change in circumstances,
- (i) the suspension is no longer required to prevent the commission, repetition or continuation of, a breach of the Act, the regulations or a condition of licence, or
 - (ii) it would not be practicable to require the person whose licence has been suspended to comply with the terms and conditions of reinstatement referred to in paragraph 9(1)(d).

Reinstatement of
suspended licence

11. (1) The minister may reinstate a licence which has been suspended on such terms and conditions as the minister considers necessary and advisable, including terms and conditions additional to or different from the terms and conditions of the licence which was suspended.

(2) A licence that has expired while under suspension may not be reinstated by the minister and the holder of that licence shall apply under subsection 5(1) or 6(2), as the case may be, for a fish buyer's licence or a fish processing licence.

(3) Nothing in this section affects the ability of a minister to cancel a licence under section 12 or 14.

Licence cancella-
tion

12. (1) The minister may cancel the licence or licences of a fish buyer or a fish processor or any one or more of them where

- (a) the minister is satisfied that the holder of the licence has committed a breach of the Act or the regulations or a condition of his or her licence; or

- (b) the holder of a licence that has been suspended under section 8 has failed to comply with the terms and conditions of reinstatement prescribed by the minister.

(2) Where a fish buyer's licence or a fish processing licence is cancelled under subsection (1), the cancellation may apply to the licence in its entirety or to one or more of the authorizations contained in the licence.

Notice of cancellation

13. (1) The minister shall not cancel a licence under subsection 12(1) without first sending a notice of intent in writing in the approved form to the holder of the licence stating

- (a) the intention to cancel the licence, together with reasons for the cancellation; and
- (b) that if the holder of the licence objects to the proposed cancellation, he or she shall, within 10 days of the date of the notice of intent, deliver to the minister a notice of objection in writing setting out the reasons for the objection and a summary of facts relating to the objection.

(2) Where a notice of objection under paragraph (1)(b) is received by the minister within the period referred to in paragraph (1)(b), the minister shall review the matter, taking into account the reasons for the objection and any other circumstances respecting the proposed cancellation.

(3) Where

- (a) the minister does not receive a notice of objection under paragraph (1)(b) within the period referred to in paragraph (1)(b); or
- (b) the minister is satisfied after the review referred to in subsection (2) that a sufficient basis exists for cancellation

the cancellation shall take effect and the holder of the licence shall be so advised.

(4) A fish buyer's licence or a fish processing licence that has been cancelled may not be reinstated or renewed by the minister and the holder of a fish buyer's licence or a fish processing licence that has

been cancelled shall make application under subsection 5(1) for a new licence and the minister may issue a new licence to that person on such terms and conditions as the minister sees fit.

(5) Where a fish buyer's licence or fish processing licence is cancelled in whole or in part under this section, all rights granted under the licence or the authorization, as the case may be, cease and the minister may issue a licence or other authorization for those rights to another person.

Change in de facto control

14. (1) Where the directors of a company or a corporation that is the holder of a fish buyer's licence or a fish processing licence propose to issue or transfer shares of its capital stock, the directors shall submit a notice of intent in writing to the minister at least 30 days prior to the issue or transfer.

(2) Where the minister is satisfied that the number of shares proposed to be issued or transferred will affect the de facto control of the operations of the company or corporation, the fish buyer's licence or the fish processing licence shall be cancelled upon the issue or transfer of capital stock unless that issue or transfer is approved by the minister

Other powers not affected

15. The power of the minister to suspend a licence under section 8 or to cancel a licence under section 12 or 14 is in addition to any other action that may be taken by the minister or other penalty that may be imposed under the Act or the regulations.

Appeal to the minister

16. (1) Where a person is aggrieved by a decision of an inspector in respect of an inspection, grading, labelling or other matter under the Act or the regulations, that person may appeal the decision to the minister in accordance with this section.

(2) An appeal shall be made by submitting a notice in writing to the minister within 30 days of the disputed inspection or, where the inspector has ordered the fish to be disposed of under section 11 of the *Fish Inspection Operations Regulations*, within the time period specified for disposal.

(3) Except as otherwise provided under subsection (4), after consideration of the notice of appeal, the minister may order a reinspection to be conducted in the manner and on such terms and conditions as the minister considers appropriate.

(4) A reinspection shall not be ordered under subsection (3) where

- (a) the identity of the fish or container of fish in dispute has not been preserved;
- (b) the notice of appeal was not submitted to the minister within the time prescribed in subsection (2); or
- (c) the fish or container of fish has been previously reinspected.

(5) The decision of the inspector following the reinspection shall be final.

Administrative
penalty

17. (1) Where the directors of a company or corporation fail to submit a notice of intent as required by section 14, the minister may order that the company or corporation pay to the government of the province a penalty of \$100 per day for each day or part thereof that the notice of intent is not submitted to a maximum of \$20,000.

(2) Where the holder of a fish processing licence fails to file a report as required by section 15 of the *Fish Inspection Operations Regulations*, the minister may order that person to pay to the government of the province a penalty of \$100 per day for each day or part thereof that the report is not filed to a maximum of \$20,000.

(3) Where the holder of a fish processing licence that contains an authorization in respect of snow crab fails to comply with the processing requirements respecting snow crab set out in the Schedule to the *Fish Inspection Operations Regulations*, the minister may order that person to pay to the government of the province a penalty according to the following:

Percentage of value added production (VAP%)	Surcharge per tonne
0%	\$110
0.1% - 9.9%	\$100 - [(VAP% ÷ 10%) x \$100]

(4) For the purpose of calculating a penalty under subsection (3), the percentage of value added production shall be determined by the Department of Fisheries and Aquaculture on the basis of the records of production submitted by a processor to that department under the

requirements of section 15 of the *Fish Inspection Operations Regulations* converted to round weight equivalents using yield factors which the minister may determine.

Notice of administrative penalty

18. (1) Where the minister orders a person to pay a penalty under subsections 17(1), (2) or (3), he or she shall give notice to the person in accordance with this section and the penalty shall be payable within 60 days from the date of the service of the notice.

(2) The notice required to be given under subsection (1) shall be in writing in the approved form and shall state the amount of the penalty and the basis on which the penalty is ordered.

(3) Notice under subsection (1) shall be given

(a) to a person other than a corporation, by

(i) personal delivery,

(ii) registered mail or other mail delivery which produces a receipt or other proof of delivery, to the address given to the minister by the person for that purpose, or

(iii) facsimile telecommunication or other electronic communication; and

(b) to a corporation, by

(i) personal delivery to a director or chief executive officer of that corporate body at the address provided to the minister for that purpose,

(ii) registered mail or other mail delivery which produces a receipt or other proof of delivery, to the registered office of that corporate body in the province, or

(iii) personal delivery to the corporation's counsel, provided that counsel may accept service of that notice in the province.

Licence may not be issued

19. The minister may refuse to renew a fish buyer's or fish processing licence until a penalty ordered under section 17 is paid in full.

No liability

20. (1) The minister, a person acting under the authority of the minister or another person authorized under this Act shall not be liable in any action or proceeding for or in respect of an act or thing done or omitted to be done by him or her in good faith in the exercise or purported exercise of his or her duties or powers under the regulations.

(2) A person is not entitled to compensation from the government of the province for any loss, cost, injury or damage resulting from a decision by the minister, made in accordance with the regulations, to

- (a) refuse to issue or renew or reinstate a fish buyer's licence or fish processing licence;
- (b) amend or vary the terms and conditions of a fish buyer's licence or fish processing licence or add supplemental terms to a fish buyer's licence or fish processing licence; or
- (c) suspend or cancel a fish buyer's licence or fish processing licence.

Repeal

21. The *Fish Inspection Regulations, Consolidated Newfoundland and Labrador Regulation 1141/96*, are repealed.

REGULATION 75/07**

In-Province Retail Fish Establishment Regulations
under the
Fish Inspection Act

(Filed July 10, 2007)

Under the authority of subsection 4(2) of the *Fish Inspection Act*,
I make the following regulations.

Dated at St. John's, June 22, 2007.

Tom Rideout
Minister of Fisheries and Aquaculture

REGULATIONS

additives |

Short title **1.** These regulations may be cited as the *In-Province Retail Fish Establishment Regulations*.

Interpretation **2.** (1) In these regulations,

- (a) "Act" means the *Fish Inspection Act*;
- (b) "cleaning" means the removal of soil, food, fish residues, blood, waste water, dirt or other debris from a processing area and processing equipment;
- (c) "disinfection" means the reduction of the amount of micro-organisms to a level that does not cause pose a health risk;
- (d) "durable", in respect of construction material, means resistant to decay, breakdown or other physical damage;
- (e) "impervious", in respect of a material, means an inert material such as concrete through which water or any other substance will not pass;
- (f) "in-province retail fish establishment" means a fish processing establishment licensed under the Act that is only authorized to market the fish that it processes for in-province trade
- (g) "non-absorbent", in respect of a material, means a material that is highly resistant to the passage, absorption or incorporation of water or another substance;
- (h) "non-corrodible" means any metal or other material that does not readily rust, corrode, erode or otherwise decay;
- (i) "non-toxic" means not injurious to health; and
- (j) "smooth" means a fairly regular or even surface without projections, indentations or roughness and that can be easily cleaned and disinfected.

(2) Notwithstanding the definition of "fish" in the Act, for purposes of these regulations, a reference to "fish" includes a reference to "marine plants" and a reference to a "container or carton of fish" includes a reference to a "container or carton of marine plants" except

where the context indicates otherwise expressly or by necessary implication.

Application

3. These regulations apply only to an in-province retail fish establishment.

General establishment requirements

4. The layout, design and construction of an in-province retail fish establishment shall

- (a) permit adequate cleaning and disinfection of all areas in the establishment;
- (b) prevent the accumulation of dirt, the contact of fish with toxic materials and floor surfaces, the shedding of foreign particles into fish and the formation of condensation or mould on surfaces;
- (c) permit good production practices, including protection against contamination and cross-contamination by fish, equipment, water, air or personnel and any other sources of contamination, including insect and animal pests; and
- (d) provide suitable temperature conditions that permit sanitary processing and storage of fish.

Floor surfaces

5. (1) The surface of floors

- (a) in wet working areas where fish is received, held, processed or packaged shall be
 - (i) constructed of smooth, impervious, non-toxic material, such as concrete or other material acceptable to the minister,
 - (ii) free from cracks and crevices, and
 - (iii) sloped for drainage purposes; and
- (b) in dry working areas shall be constructed of concrete, plywood or other material that is acceptable to the minister.

(2) Drains shall be

- (a) of a type and size sufficient to carry off any process effluent and water from processing and cleaning operations;
- (b) constructed in a manner that prevents the entry of insect and animal pests, sewer gases or any other deleterious substance;
- (c) equipped with non-corrodible covers or grates; and
- (d) where connected directly to a sewer, equipped with traps.

Interior wall surfaces

6. Interior wall surfaces

- (a) in wet working areas where fish is received, held, processed or packaged shall be constructed of smooth, non-absorbent, light coloured material acceptable to the minister and that can be thoroughly washed up to a height of not less than 1.2 metres; and
- (b) in dry working areas where fish is packaged or stored shall be constructed of light coloured material acceptable to the minister.

Ceilings

7. A ceiling in a room where fish is processed or packaged shall be

- (a) free from cracks, crevices and open joints; and
- (b) constructed of smooth, washable, non-toxic, light coloured material acceptable to the minister.

Overhead areas

8. Overhead spaces above working areas on which fish is prepared or packed and heating units, water feed lines, piping, lighting, public address or radio systems and other overhead fixtures in such spaces shall be designed, constructed, installed and finished to prevent the accumulation of dirt and to reduce condensation, the growth of mould and the shedding of foreign particles into fish being processed beneath.

Windows

9. Windows that can be opened to the outside, and any other openings to the outside, shall be constructed to prevent the accumulation of dirt and be fitted with non-corrodible insect-proof screens or other similar devices.

Doors

10. (1) Doors and air curtains into and out of processing and support areas shall be

- (a) constructed of smooth, non-absorbent, non-toxic washable material;
 - (b) properly fitted and hung; and
 - (c) maintained in sound condition for ease of cleaning and disinfection.
- (2) A door in an establishment
- (a) shall be located so that a person may not enter directly into a processing area, other than a holding room, from outside the establishment; and
 - (b) if used as an emergency exit from a processing area, shall be clearly marked "Emergency Use Only" or with other similar wording and equipped with an emergency door opening device, panic bar or similar device to prevent entry from the exterior of the establishment.

Ventilation

11. A natural or mechanical ventilation system shall provide clean air, inhibit condensation and maintain conditions that are free from smoke, steam or foul odours and an opening for the ventilation of the processing or support areas shall be fitted with a non-corrodible insect-proof and animal-proof screen or other similar device.

Illumination

12. Natural or artificial lighting shall be provided at an intensity adequate to ensure its effective delivery to the processing operation being conducted and a light fixture shall have an appropriate cover and be installed for ease of cleaning and disinfection.

Toilet facilities

13. (1) Flush toilets shall be

- (a) present in adequate numbers for both sexes;
- (b) conveniently located adjacent to processing areas; and
- (c) equipped with floor drains that will prevent any overflow of water or sewage from entering or contaminating a processing area,

and toilet areas shall be designed so that they do not lead directly into processing areas.

(2) A room in which toilet facilities are located shall have a door that is constructed and maintained in a sound condition to minimize the risk of contamination and facilitate cleaning and disinfection and installed to allow adequate cleaning of the surrounding area.

(3) An adequate number of sanitary washbasins with a satisfactory supply of hot and cold water, single-use soap, and air dryers or single service towels shall be provided in adequate quantities and conveniently located in or visible from processing areas.

Water supply

14. (1) An adequate supply of safe sanitary water having a coliform bacteria count of not more than 2 per 100 millilitres, or water from a source acceptable to the minister, under a minimum operating pressure of 140 kPa shall be provided for fish processing, establishment cleaning and disinfection, ice making, employee sanitation and personal hygiene and the operation of toilets.

(2) Notwithstanding subsection (1), an establishment may use water that does not meet the requirements of subsection (1) for fire protection, boilers or auxiliary services provided that the system supplying such water is not connected to the water supply referred to in subsection (1).

(3) An adequate supply of hot water at a temperature of at least 43° sufficient for the operations of the establishment shall be provided.

Disinfection facilities

15. Facilities shall be provided at a convenient location for the disinfection of protective hand coverings used in processing areas.

Equipment surfaces

16. (1) Fish processing equipment and ice handling or conveying equipment, including all surfaces, frames and legs, shall

- (a) be constructed of smooth, non-corrodible, non-absorbent, non-toxic washable materials;
- (b) be free from cracks and crevices;
- (c) have joints that are smooth and watertight with joints that are impervious; and
- (d) be maintained in a sound condition for ease of cleaning and disinfection.

(2) Notwithstanding subsection (1), ice screws or augers that are in contact with ice may be constructed of galvanized metal.

Equipment re-
quirements

17. (1) The frames and legs of all equipment on which fish is processed or packed shall be constructed of metal or other material acceptable to the minister.

(2) Tables shall be constructed and maintained in sound condition that enables tables and the areas beneath them to be cleaned easily and adequately.

Container require-
ments

18. (1) Boxes, carts, bins and other containers used in fish processing establishments to hold fish, other than live shellfish, before such fish is processed or shipped and trays, tanks, vats and other holding devices used for processing fish shall

(a) provide adequate drainage;

(b) have smooth surfaces free of cracks and crevices; and

(c) be made of non-corrodible material, other than wood, of a type acceptable to the minister.

(2) Notwithstanding paragraph (1)(a), live shellfish may be held in containers and other holding devices that do not provide drainage.

Offal bins

19. (1) Receptacles for the effective disposal of fish offal shall be provided.

(2) Containers in which offal is stored shall be

(a) watertight and equipped with well-fitted covers;

(b) constructed of metal or other material acceptable to the minister;

(c) clearly marked "For Offal Only" or with other similar wording or colour coded; and

(d) kept in sound condition for ease of cleaning and disinfection.

Conveyors

20. Conveyors in contact with fish shall be maintained in a sound condition for ease of cleaning and disinfection, be constructed of non-

corrodible, non-absorbent, smooth, impervious, light-coloured and non-toxic materials or non-corrodible, non-absorbent, impervious and non-toxic wire mesh or chain link and, if necessary, be equipped with effective spray washers and scrapers.

Utensils

21. Utensils shall be constructed of non-corrodible, non-absorbent, smooth, impervious and washable material maintained in a sound condition for ease of cleaning and disinfection.

Freezing facilities

22. (1) Freezing facilities for processed fish shall be capable of reducing the temperature at the centre of a 25 millimetre thick block of unpackaged fillets to -18° in 2 hours or less.

(2) Where round or dressed fish is not contact frozen, freezing facilities shall be available to freeze fish by means of air at a temperature of -28° or colder moving at a velocity of not less than 122 metres per minute until the temperature at the centre of the thickest section of the fish is -18° .

Roller devices

23. Roller devices used for extracting shellfish meat shall be

- (a) constructed of non-corrodible, non-toxic and non-absorbent material acceptable to the minister;
- (b) maintained in sound condition for ease of cleaning and disinfection; and
- (c) equipped with spray washers.

Coolers

24. Coolers or cold storage racking systems on which pallets of fish are stored shall be constructed of metal or other material acceptable to the minister and maintained in sound condition for ease of cleaning and disinfection.

Packaging and labelling

25. Packaging and labelling materials shall be stored in dry and sanitary storage rooms that are

- (a) intended for that purpose;
- (b) constructed to provide protection from weather, contamination and the entry of insect and animal pests; and

- (c) where appropriate, equipped with adequate temperature-control devices.

Storage of ingredients and additives

26. Ingredients and additives such as salt and vinegar used in the processing of fish shall be stored in sanitary storage rooms that are

- (a) intended for that purpose;
- (b) constructed to provide protection from weather, contamination and the entry of insect and animal pests; and
- (c) where appropriate, equipped with adequate temperature-control devices.

Short title **1.** These regulations may be cited as the *Fish Inspection Operations Regulations*.

Interpretation **2.** (1) In these regulations

(a) "Act" means the *Fish Inspection Act* except where the context indicates otherwise;

(b) "bivalve mollusc" means a mollusc with a shell in 2 parts hinged together, such as a mussel, scallop or clam;

(c) "can" includes a hermetically sealed glass bottle or metal container;

(d) "cleaning" means the removal of soil, food fish residues, blood, waste water or other dirt or debris from a processing area or processing equipment;

- (e) "crab sections" means the body of a crab that has been divided into 2 parts and that still has the legs attached to it;
- (f) "disinfection" means the reduction of the amount of microorganisms to a level that does not pose a health risk;
- (g) "fish harvester" means a person licensed under the *Fisheries Act* (Canada) or regulations under the *Fisheries Act* (Canada) to fish for commercial purposes;
- (h) "grading" means the process of assessing fish based on the characteristics of
 - (i) texture,
 - (ii) life condition,
 - (iii) size,
 - (iv) colour,
 - (v) odour,
 - (vi) leg loss, or
 - (vii) the absence or presence of other defects;
- (i) "impervious", in respect of a material, means an inert material such as concrete through which water or another substance will not pass;
- (j) "in-province retail fish establishment" means a fish processing establishment licensed under the Act that is only authorized to market the fish that it processes for in-province trade;
- (k) "inspector" means an inspector, officer or other person designated by the minister to exercise the powers of an inspector under the Act or the regulations;
- (l) "non-absorbent", in respect of a material, means a material that is highly resistant to the passage, absorption or incorporation of water or another substance;

- (m) "non-corrodible" means any metal or other material that does not readily rust, corrode, erode or otherwise decay;
- (n) "salted" means a process where fish is treated with sodium chloride or a brine solution in order to preserve the fish to the extent that the uptake of salt ceases and the fish does not become tainted or decomposed for a minimum of 6 months if refrigerated without freezing and "salting" has a corresponding meaning;.
- (o) "shellfish" means molluscs, crustaceans or echinoderms or products from any of them intended for human consumption;
- (p) "shucking" or "shucked" means the complete removal of the meat from the shell;
- (q) "smooth" means a fairly regular or even surface without projections, indentations or roughness and that can be easily cleaned and disinfected;
- (r) "snap and eat" means crab sections on which the individual legs have been scored or notched in order to more easily break the shell to extract the meat contained inside;
- (s) "sterilized" in respect of canned fish means canned fish that has been treated with heat to prevent spoilage and to destroy all pathogenic organisms;
- (t) "vacuum pump" means an off-loading device used to convey or transfer fish by the movement of air, water or a combination of air and water; and
- (u) "value-added processing" means the processing of fish beyond the minimum processing requirements where there may be an increase in the labour or value associated with its preparation into a food product.

(2) Notwithstanding the definition of "fish" in the Act, for purposes of these regulations, a reference to "fish" includes a reference to "marine plants" and a reference to a "container or carton of fish" includes a reference to a "container or carton of marine plants" except where the context indicates otherwise expressly or by necessary implication.

(3) A provision of these regulations that authorizes or prescribes the use of a form shall be considered to include the authority to prescribe an electronic form and a provision of these regulations that authorizes or prescribes the manner of filing, sending or delivering a form shall be considered to include the authority to prescribe filing, sending or delivering by means of facsimile telecommunication or other electronic means.

(4) A requirement under these regulations that an action be carried out or information be provided in writing includes a form of telecommunication that produces a writing and is satisfied by the provision of electronic information where the electronic information that is provided is accessible by the recipient, and capable of being retained in its original form by the recipient for subsequent reference.

(5) A reference in these regulations to "approved form" means a form approved by the minister.

**PART I
INSPECTIONS**

Establishment
requirements

3. (1) Except as otherwise provided in subsections (2) and (3), an establishment shall not be used for, or in connection with, the handling, processing, storing, grading, transporting or marketing of fish unless

- (a) the operator of the establishment has been issued a fish processing licence by the minister under the *Fish Inspection Administrative Regulations*; and
- (b) the establishment has been issued a Certificate of Registration by the Canadian Food Inspection Agency.

(2) The requirements of subsection (1) do not apply to the following establishments:

- (a) an establishment used exclusively by a fish harvester for washing, gutting, salting, sorting, handling, drying or icing his or her catch;
- (b) an establishment used exclusively by a person licensed under the *Aquaculture Act* for the cultivation of bivalve molluscs for washing, handling or icing his or her harvest; and

(c) an establishment used by a person for the processing of fish for a purpose other than human consumption.

(3) The requirement of paragraph (1)(b) does not apply to an in-province retail fish establishment.

(4) The operator of a fish processing establishment shall ensure that a copy of the current fish processing licence issued to the operator is prominently displayed in the establishment.

Agency agreement requirements

4. (1) A person who holds a fish buyer's licence or a fish processing licence issued under the Act and the *Fish Inspection Administrative Regulations* may only purchase a species of fish where the fish buyer's licence or fish processing licence, as the case may be, contains a specific authorization in relation to that species.

(2) Notwithstanding subsection (1), a licensed fish buyer or fish processor may purchase a species of fish that is not authorized under that person's licence where the purchase is made under an agency agreement with, and as an agent of, the holder of a fish processing licence that contains a specific authorization in relation to the species.

(3) An agency agreement referred to in subsection (2) shall be in writing in the approved form.

(4) A purchase referred to in subsection (2) shall be made by the agent in the name of the principal and receipted to the principal.

(5) The principal shall place a copy of the agency agreement on deposit with the department and each of the agent and the principal shall retain a copy of the agency agreement for inspection on the request of an inspector.

Inspection

5. All

(a) fish;

(b) containers and cartons of fish;

(c) documentation related to such fish or containers and cartons of fish;

- (d) vehicles and establishments related to such fish or containers and cartons of fish; and
- (e) documentation related to the vehicles and establishments referred to in paragraph (d),

are subject to inspection by an inspector in accordance with the Act and these regulations.

Inspectors

6. (1) An inspector shall be furnished with an identification card and upon entering any place, establishment or vehicle for the purpose of conducting an inspection shall, if so required, produce the identification card to the person in charge of the place, establishment or vehicle.

(2) The owner of fish, an establishment or a vehicle and his or her agent, the person in charge of an establishment or vehicle and every person found in or on an establishment or vehicle shall

- (a) make readily available to an inspector, any fish, containers, cartons or documentation for which inspection or reinspection is required under the Act or the regulations; and
- (b) give an inspector all reasonable assistance to enable the inspector to exercise his or her powers and carry out his or her duties and functions under the Act and the regulations.

Detention of fish

7. (1) For the purpose of preserving the identity of fish, an inspector may detain the fish by attaching to the fish or to a container or carton of fish a numbered tag upon which shall be clearly written

- (a) the word "held";
- (b) an identification number;
- (c) a brief description of the lot detained;
- (d) the date; and
- (e) the signature of the inspector.

(2) A person shall not alter, deface or remove or permit the alteration, defacement or removal of a tag attached to fish or a container or carton of fish detained under subsection (1) or move, sell or dispose

of the fish or container or carton of fish unless he or she has obtained a release from an inspector.

(3) Notwithstanding subsection (2), where

- (a) it is necessary for fish or a container or carton of fish referred to in that subsection to be moved from one location to another; or
- (b) the owner of the fish or the owner of the establishment or vehicle where the fish is located at the time of detention or the carrier, where the fish or container is detained in or on a vehicle, has made a reasonable request for the fish or container to be moved under detention

an inspector may permit the fish or container of fish to be moved accordingly.

(4) Where an inspector permits fish or a container or carton of fish to be moved from one location to another under subsection (3), the detention shall be considered to continue notwithstanding that a tag affixed to the fish or container or carton of fish has been altered or removed to permit the movement of the fish or container or carton of fish.

Notice of detention

8. (1) Where fish is detained under subsection 7(1), the inspector shall deliver or mail to the owner or his or her agent a notice of detention in writing in the approved form.

(2) Where fish is detained under subsection 7(1) in or on an establishment or vehicle owned or leased by a person who is not the owner of the fish or his or her agent, in addition to provision of the notice of detention to the owner of the fish as required under subsection (1), a copy of the notice of detention shall be delivered to the owner or lessee of the vehicle or establishment or his or her agent.

(3) The notice of detention that is delivered or mailed to the owner of fish or the agent of the owner under subsection (1) shall contain provisions that advise the owner of his or her right to appeal the decision of the inspector under section 7 of the Act in accordance with section 16 of the *Fish Inspection Administrative Regulations*.

9. (1) Fish or a container or carton of fish shall not be detained under these regulations for more than 45 days after the date of initial detention and shall be released thereafter unless seized under a warrant obtained under the Act.

Length of detention

(2) Notwithstanding subsection (1), where proceedings have been instituted in respect of a contravention of the Act or the regulations, the fish or container or carton of fish may be detained until the proceedings are concluded.

(3) Where an inspector is satisfied that the fish or the container or carton of fish detained under subsection 7(1) meets the requirements of the Act and the regulations, he or she shall promptly notify all parties concerned and prepare a notice of release in writing in the approved form and deliver or mail one copy of the notice of release to the owner of the fish or his or her agent and one copy to the person in or on whose establishment or vehicle the fish or container or carton of fish is located at the time of the release.

Notice

10. (1) For purposes of sections 8 and 9, where

(a) the owner of the fish is not known, cannot be located or resides outside the jurisdiction; and

(b) there is no known agent of the owner

the notice of detention or notice of release may be delivered to a person in charge of the fish or the establishment or vehicle where the fish is located.

(2) The delivery of a notice of detention or a notice of release under subsection (1) shall be considered to be delivery of the notice of detention or notice of release to the owner of the fish for purposes of these regulations, including for the purposes of advising the owner of his or her right to appeal to the minister under section 7 of the Act in accordance with section 16 of the *Fish Inspection Administrative Regulations*.

Disposal of tainted, decomposed or unwholesome fish

11. An inspector may order the owner of fish that is tainted, decomposed or unwholesome to dispose of the fish in a manner approved by the inspector and under his or her direction and in a way that prevents the fish being marketed for human consumption.

Time limit for disposal

12. Where fish is to be disposed of under section 11, it shall be disposed of within the time period specified by the inspector and, where no time period has been specified, within 30 days following inspection by the inspector.

Notice of right of appeal

13. (1) Where an inspector orders an owner to dispose of fish under section 11, the inspector shall advise the owner of his or her right to appeal the order under section 7 of the Act in accordance with section 16 of the *Fish Inspection Administrative Regulations*.

(2) Notwithstanding subsection (1), the exercise by an owner of his or her right to appeal under section 7 of the Act shall not prevent the disposal of fish before the appeal has been heard or decided where circumstances require immediate disposal in the interest of public health or safety.

Where owner unavailable

14. For purposes of sections 11 and 12 where

(a) the owner of the fish is not known, cannot be located or resides outside the jurisdiction and has no known agent; or

(b) as a result of urgent circumstances, it is impracticable to delay disposal of the fish until the owner is contacted,

the person in possession of the fish at the time shall be considered to be the owner of the fish for purposes of compliance with an order of the inspector.

PART II OPERATIONS AND MANAGEMENT

Duties of fish processor

15. (1) The holder of a fish processing licence shall comply with

(a) the minimum authorized processing treatment applicable to an authorized species as set out in the Schedule or other alternative treatment approved in writing in advance by the minister except where the minister has issued an exemption in writing; and

(b) reporting requirements, including production records, established by the minister in the form and manner and at the frequency prescribed by the minister.

(2) For purposes of paragraph (1)(a), "authorized species" means a species that is authorized to be processed by the conditions, including any supplemental conditions, of the fish processing licence.

(3) A production record referred to in paragraph (1)(b) shall be retained by the holder of a fish processing licence for a period of not less than 5 years.

Marking of cartons
and labels

16. (1) A carton of fish for sale or label of a carton shall be correctly and legibly marked to indicate

- (a) the common name of the fish or fish product;
- (b) the weight, volume or count of declared contents in accordance with the *Fish Inspection Regulations* (Canada), another Act or an Act of the Parliament of Canada;
- (c) the name of the processor;
- (d) the ingredients in each container, where there is more than one ingredient in it, either
 - (i) by listing them in descending order of their proportion in the container, or
 - (ii) by stating the proportion of each ingredient in the container;
- (e) the establishment in which the carton was packed;
- (f) the day, month and year of packing; and
- (g) in the case of live bivalve molluscs in the shell, the date of processing and the location from which the bivalve molluscs were harvested.

(2) The information required to be marked on a carton or label of a carton under subsection (1) shall be shown in a manner so that

- (a) the common name of the fish and the stated weight of the fish appear on the main body or face of the container or on the main panel of the label;

- (b) the common name of the fish is in letters of equal height and prominence; and
- (c) the required information indicates whether the product has been prepared
 - (i) by mincing, flaking or other special process,
 - (ii) from selected parts of fish, or
 - (iii) for dietetic use.

Marking of master cartons

17. Except as otherwise provided in these regulations, a master carton for packaged fish shall be legibly marked in a manner so that the common name of the fish or fish product, the name of the processing establishment and the day, month and year of packaging can be determined by an inspector.

PART III QUALITY ASSURANCE

Restrictions on marketing

18. A person shall only market fish that

- (a) is not tainted, decomposed or unwholesome;
- (b) has been washed or cleaned with an approved source of water;
- (c) is free from foreign material;
- (d) where appropriate, has been candled or otherwise treated to remove parasites;
- (e) if canned, has been sterilized in accordance with regulations under the *Fish Inspection Act (Canada)*; and
- (f) complies with any additional requirements specified in these regulations.

Marketing of bivalve molluscs

19. A person shall not market bivalve molluscs unless

- (a) the molluscs have been harvested from an area approved for that purpose by the Minister of Fisheries and Oceans (Canada);
- (b) the molluscs, when transported for sale to a processing facility or sales outlet, are in closed containers or bags that are tagged to indicate the type of species, harvesting site, date harvested and the name of the harvester;
- (c) that person maintains a record of all tags referred to in paragraph (b) which record is available for inspection by an inspector; and
- (d) the molluscs have been sampled and analyzed to monitor toxin levels in accordance with the protocols established and administered by the Canadian Food Inspection Agency.

Marketing of seals

20. (1) Antioxidants shall not be stored or used in the immediate area of that part of a vessel, landing site or shore installation in which seals are bled, eviscerated, pelted or butchered and shall only be applied to the pelt after it has been removed from the carcass so that seal meat shall not come in contact with those antioxidants.

(2) A person shall not hold, or offer for sale, transport, process or attempt to process a carcass of seal or a portion of it intended for human consumption unless the seal

- (a) was bled immediately after killing by making an incision between the fore flippers and extending down the length of the abdominal cavity to allow the cavity to be opened to provide for proper bleeding;
- (b) was completely eviscerated during or following the bleeding process;
- (c) after evisceration and pelting did not come in direct contact with surfaces where contamination may occur; and
- (d) was derived from a carcass or part of a carcass that was free from unwholesome, diseased or emaciated conditions.

(3) Seal meat intended for human consumption shall be washed in clean fresh or salt water devoid of pollution or harmful substances.

Restrictions on purchase of lobster and turbot

21. (1) The holder of a fish buyer's licence or a fish processing licence shall not purchase lobster that has been marked with a prominent V-shaped notch in the tail section for purposes of identification as an egg-producing lobster by the Department of Fisheries and Oceans (Canada).

(2) The holder of a fish buyer's licence or a fish processing licence may only purchase turbot intended for processing that has been bled and gutted.

Restrictions on processing of fish

22. A person shall not process fish that is tainted, decomposed or unwholesome and shall not process dead shellfish, except shrimp and squid.

Standards for storage and transportation

23. Where unprocessed fish intended for processing is stored, held, or transported within the province,

(a) the fish shall be bled and gutted, where appropriate, and washed with an approved source of water to remove excess blood, slime and viscera prior to stowage;

(b) a vehicle used to transport fish shall employ a system of containment, including insulated containers, vehicle bodies, boxes, tubs and barrels, tanks and other form of conveyance acceptable to the minister, that is constructed and modified so as to prohibit the discharge of fluid and effluent associated with the holding, storage and transport of fish;

(c) the conveyance referred to in paragraph (b) shall provide protection against contamination and where applicable shall be secured with tight fitting covers using strapping or fasteners;

(d) the fish and fish products shall be confined in a container or receptacle to prevent damage or its release; and

(e) the conveyance and the system of containment referred to in paragraph (b) shall be cleaned before each trip and disinfected in the manner and frequency determined by an inspector.

Storage before processing

24. (1) Where unprocessed fish intended for processing is

- (a) on board a vehicle;
- (b) being transported; or
- (c) being held
 - (i) in a holding area or chill room, or
 - (ii) preparatory to entering the production line

the fish shall be

- (d) protected from physical damage, contamination and weather at all times;
- (e) stowed in a container so that the depth of fish and ice does not exceed 90 centimetres but in any event so that the minimum distance between the fish and ice and the top of the container is 4 centimetres;
- (f) in the case of fish other than shrimp, iced or chilled in a manner so as to maintain the temperature of the fish below 4° and in the case of shrimp, iced or chilled in a manner so as to maintain the temperature of the shrimp below 3°;
- (g) in the case of shrimp, stored in bags not to exceed 11.5 kilograms per bag or in 70-litre capacity stackable tote pans not to exceed 25 kilograms per tote pan;
- (h) in the case of crab, stored in 70-litre capacity stackable tote pans not to exceed 23 kilograms per tote pan; and
- (i) in the case of whelk, stored in bags not to exceed 18 kilograms per bag or stored in 70 litre capacity stackable tote pans not to exceed 20 kilograms per tote pan.

(2) A container referred to in paragraph (1)(e) may be placed on top of another container provided no pressure is, as a result, exerted on fish in the container on which it is placed.

(3) Paragraph (1)(e) does not apply to stowage in a refrigerated seawater or slush ice holding tank or a container for the bulk stowage of pelagics.

Handling of fish **25.** (1) No person shall use a fork, gaff, tool or similar equipment or engage in a practice that could pierce, tear or otherwise damage or contaminate fish.

(2) A person may use a vacuum pump that

(a) is constructed in a manner so that the surface of all components coming into contact with fish is smooth and made of non-corrodible material other than wood; and

(b) operates at a discharge rate that does not damage fish.

(3) A vacuum pump shall be cleaned and disinfected before each use and before transport.

Use of salt **26.** Where fish is salted or pickled

(a) only clean fishery salt shall be used;

(b) the fishery salt shall be stored in a cool, dry area away from direct sunlight and protected against contamination; and

(c) fishery salt, once used, shall not be reused for salting or pickling.

Use of ice **27.** Where fish is iced or chilled, only clean ice made from an approved source of water shall be used. and ice, once used, shall not be reused.

Washing **28.** Fish shall be washed before processing where required by the type of processing operation that is conducted.

**PART IV
SANITATION REQUIREMENTS**

Sanitation requirements while handling or processing **29.** (1) A person shall not smoke, spit, eat, chew gum or store food or other personal items or engage in other unsanitary practices in a place where fish is handled, processed, graded or stored.

(2) A person who is a known carrier of a disease that is likely to be transmitted through food or who is afflicted with an infected wound, skin infection, sore, diarrhoea or any communicable disease shall not

engage in the handling or processing of fish if there is a possibility of contaminating the fish with pathogenic organisms.

(3) A person engaged in the handling or processing of fish shall not wear jewellery, fingernail polish or other personal adornment that could contaminate or become incorporated into the fish that is handled or processed.

Animals

30. A domestic animal is not permitted

- (a) on or in a vessel;
- (b) on or in any part of a vehicle, other than a vessel, where fish is handled, processed, graded or stored; or
- (c) on or in a place, other than a place referred to in paragraph (a) or (b), where fish is handled, processed, graded or stored.

Cleaning equipment and material

31. (1) Equipment and material used to clean and disinfect an establishment and processing equipment shall be provided in adequate quantities and conveniently located in an establishment.

(2) A product used to lubricate fish processing equipment or machinery and a product used for cleaning and disinfection of that equipment shall be clearly labelled as to use, stored in an appropriate location and used only by a person trained to use or apply it in a manner that prevents contamination of fish or contact surfaces.

(3) Equipment and material provided to clean and disinfect protective clothing and footwear such as handdips and footdips shall be provided in adequate quantities, conveniently located in processing areas and maintained and replenished as necessary.

Protective clothing required

32. (1) A person in an establishment shall wear protective clothing, such as coveralls, aprons, sleeves, smocks, hand coverings, hair nets or beard nets, that is in a clean and sound condition and where the person is an employee of the establishment, the protective clothing shall be suitable to the task that the employee is charged to perform.

- (2) A person shall not enter a processing area unless he or she
 - (a) wears the protective clothing appropriate to the task that he or she is to perform;

(b) ensures that his or her footwear is clean and sanitary and, if appropriate, uses a footdip; and

(c) wears a hair net and, if appropriate, a beard net.

(3) A person in an establishment shall not

(a) handle or process fish unless he or she first washes his or her hands with single-service soap, washes or rinses his or her waterproof protective clothing, and disinfects his or her hands or hand coverings if either will come into direct contact with fish; or

(b) after leaving a production line, return to it unless he or she first performs the actions referred to in paragraph (a).

(4) Immediately upon leaving a processing area a person shall remove protective clothing and store it in a manner that prevents contamination.

Pest control programs

33. (1) A pest and animal control program acceptable to the minister shall be maintained in an establishment.

(2) Pest control and other animal control products shall be applied under supervision of a responsible operator using proper equipment and in a manner that prevents the contamination of fish, packaging and labelling materials and ingredients.

Offal disposal

34. (1) A receptacle for the effective disposal of fish offal shall be provided and a container in which offal is stored shall be.

(a) watertight and equipped with a well-fitted cover;

(b) constructed of metal or other material acceptable to the minister;

(c) clearly marked "For Offal Only" or similar wording or colour coded; and

(d) kept in sound condition for ease of cleaning and disinfection.

(2) Fish offal shall be

- (a) collected in handling systems, receptacles or conveyances that are not used for the holding or transport of fish intended for processing;
- (b) disposed of or stored, before disposal, in a manner that will not attract insect and animal pests, allow the build-up of offensive odours or contaminate the area surrounding the establishment; and
- (c) removed from the establishment or grounds under the control of the operator of the establishment as frequently as necessary to maintain the sanitation of the establishment, and in no case less than once daily.

Effluent disposal

35. (1) Effluent and waste water shall be disposed of in a manner so that the waste is inaccessible to insect and animal pests and the water supply for the establishment does not become contaminated.

(2) A finfish processor operating within a 20 kilometre radius of a finfish farm site licensed under the *Aquaculture Act* is subject to the following requirements:

- (a) liquid waste effluent generated by or from the processing operation shall be collected in an approved containment system; and
- (b) liquid effluent shall be treated with an approved disinfectant and neutralized prior to release into the environment.

(3) A person shall not dispose of offal within a 20 kilometre radius of a finfish site licensed under the *Aquaculture Act*.

Floors

36. Floors in wet working areas shall be kept clean and thoroughly washed and disinfected daily.

Doors

37. Doors into and out of an establishment shall be kept closed and may be opened only when necessary to allow personnel, fish, equipment and other materials to enter or leave the establishment unless air curtains or other devices that prevent the entry of insect and animal pests are in operation.

Sanitation facilities

38. Handwash and toilet facilities in an establishment shall be maintained in good operating order and be properly equipped with single-

service towels or air dryers, single-service soap and toilet tissue, and all effluent and sewage shall be disposed of in accordance with local regulations or, where none exist, in a manner acceptable to the minister.

Equipment and utensils

39. (1) Equipment, including conveyor belts and tables, coming into contact with processed fish, other than packaged fish, shall be cleaned and disinfected at the end of each work shift by a method acceptable to the minister.

(2) Utensils coming into contact with processed fish, other than packaged fish, shall be cleaned and disinfected at least once during each work shift and at the end of each work shift by a method acceptable to the minister and shall be air-dried and stored in a sanitary manner when not in use.

Pallets

40. (1) A person shall not use a wooden pallet in an establishment for a purpose other than

(a) to handle or transport boxed or otherwise containerized raw material in a holding room; or

(b) to transport ingredients, additives, packaging material, raw material, labels, semi-processed saltfish or packaged, boxed or otherwise containerized finished products into or out of a processing area.

(2) Notwithstanding subsection (1), a wooden pallet may be used for the press piling of saltfish if a barrier of material suitable for food contact is placed between the wooden pallet and the fish.

(3) A pallet shall be clean and maintained in a sound condition.

Icing and chilling

41. (1) Cold storages shall maintain the temperature of fish at -18° or colder.

(2) Frozen fish shall be handled and protected in an establishment to ensure that the temperature of the fish does not increase more than 5.5° during the time the fish is

(a) removed from cold storage and returned to it unless the frozen fish is thawed for further processing; or

(b) placed on a conveyance equipped with cold-storage capability.

Shellfish processing requirements

42. (1) A vat in which shellfish are boiled shall be drained and cleaned at 2 hour intervals or, where considered necessary by an inspector, at shorter intervals.

(2) Shellfish shall be removed from the cooking vats immediately after they have been cooked.

(3) Where a batch of lobster, crab or shrimp has been cooked, it shall be cooled immediately in clean, cold water and if further processing does not commence within one hour, it shall be

(a) rapidly chilled and stored at a temperature of 0° to 1.7° and processed within 18 hours; or

(b) frozen immediately and held at -18° or colder until further processed.

Storage

43. (1) Processed fish shall be stored in a manner and in a location that preserves its quality and safety.

(2) No odiferous or toxic substance shall be stored in a processing area.

(3) Unnecessary equipment and material shall not be stored in an area where fish is handled, processed, graded or stored.

Storage and handling of products and ingredients

44. Fish products and ingredients used in the preparation of fish products shall be protected from contamination and deterioration during storage and handling.

Exterior areas

45. (1) Areas in the immediate vicinity of an establishment and all exterior surfaces of an establishment where fish is processed shall be maintained in a clean condition and shall not be a source of contamination.

(2) Exterior walls, roofs, exterior stairways and walkways and windows and doors of an establishment shall be kept in good repair and maintained in a safe and sound condition to provide protection from weather, contamination and the entry of insect and animal pests.

(3) Grounds in proximity to an establishment that are under the control of an operator shall be kept clean, free of debris and unnecessary material and be maintained to minimize harbourage by insect and animal pests.

(4) An area where fish is loaded, unloaded or handled and other high traffic areas shall be paved with asphalt covered with concrete or other impervious material and equipped with appropriate drains.

(5) Material and equipment that is not being utilized in processing shall be stored in such a manner that they do not impair access to the plant or create a hazard to health and safety.

(6) Unnecessary equipment and material shall not be stored in an area where fish is handled, processed, graded or stored.

**PART V
STORING, HANDLING AND
TRANSPORTATION REQUIREMENTS FOR
MAINTAINING FISH QUALITY ON VESSELS**

Application

46. This Part applies to the owner and the operator of a vessel landing fish in the province.

Fish holds, penboards and shelving

47. For purposes of cleaning and sanitation, the maintenance of fish quality and protection of fish from contamination, fish holds, penboards and shelving shall be

- (a) made of smooth, non-absorbent, non-corrodible material; or
- (b) if made of wood, coated with a material that is smooth, non-absorbent and resistant to chipping,

and fish holds shall be constructed to provide adequate drainage to effectively remove ice melt water and ensure that fish and ice do not come into contact with bilge water or other source of contamination.

Fish handling equipment

48. (1) Fish handling equipment, including chutes, conveyors, fish washers, tables and utensils, shall be made of smooth, non-absorbent, non-corrodible material and constructed so as to facilitate cleaning and shall be sanitized after each use.

(2) Upon the discharge of fish from a vessel, equipment used in the handling of fish and fish boards, penboards and shelving shall be thoroughly cleaned with an approved source of water and disinfected.

Storage

49. Where fish is stored against bulkheads separating fish holds from the engine room or other quarters, the bulkheads shall be water tight and well insulated and the fish shall be stored in compliance with the temperature requirements of paragraph 24(1)(f).

Schedule

MINIMUM AUTHORIZED PROCESSING TREATMENTS

Species	Authorized Treatments
Arctic Char, Dogfish, Salmon, Shark, Swordfish, Trout, Tuna	gutted
Billfish, Hagfish, Smelt	whole packaged in frozen form
Blackback Flounder	whole packaged
Capelin, Mackerel, Herring	salted and packed in a carton not to exceed 110 kilograms or whole packaged in frozen form
Clams, Cockle, Periwinkle, Quahog	shucked, whole packaged, or whole packaged in frozen form
Crab other than Snow Crab	cooked and meat extracted
Snow Crab	sectioned or whole cooked and 10% of all raw material purchases in a calendar year to be processed into one or more of the following forms: (i) individually scored "snap and eat" leg segments; (ii) cap on or cap off cocktail claws (iii) 907 gram consumer packs; (iv) meat removed from shell; or (v) other value added form as approved by the minister
Eel	live or whole packaged in frozen form
Fish Roe (all species)	salted
Groundfish (all species other than Monkfish, Halibut, Blackback Flounder and Turbot)	filleted or split and salted

Halibut	head on gutted and packaged
Lobster	live
Monkfish	head on gutted with stomach tube attached and in frozen form
Mussels	washed, declumped, and graded
Scallop	shucked
Sea Cucumber	gutted and packaged in frozen form
Sea Urchin	gonads removed
Seal	pelted, meat or oil
Shrimp	cooked and peeled
Squid	whole packaged in frozen form
Turbot	Head on gutted and packaged in frozen form
Whelk	whole frozen
Yellowtail Flounder	For each fish that is less than 380 grams, whole packaged in frozen form For each fish that is 380 grams or more, filleted

**NEWFOUNDLAND AND LABRADOR
REGULATION 77/07**

City of St. John's Violation Notice Regulations
under the
City of St. John's Act

(Filed July 10, 2007)

Under the authority of section 403.1 of the *City of St. John's Act*, I make the following regulations.

Dated at St. John's, July 3, 2007.

Jack Byrne
Minister of Municipal Affairs

REGULATIONS

Analysis

- | | |
|----------------------|----------------------|
| 1. Short title | 4. Time of payment |
| 2. Definitions | 5. Amount of payment |
| 3. Violation notices | 6. Offence penalty |

Short title

1. These regulations may be cited as the *City of St. John's Violation Notice Regulations*.

Definitions

2. In these regulations

(a) "Act" means the *City of St. John's Act*; and

- (b) "violation notice" means a violation notice issued in accordance with section 403.1 of the Act with respect to a regulation referred to in section 3.

Violation notices

3. The council may issue violation notices with respect to a failure to comply with a provision of the following by-laws and regulations enacted by the council under the Act:

- (a) *Adult Materials Display Regulations;*
- (b) *Amusement Machine By-Law of the City of St. John's;*
- (c) *St. John's Animal Control Regulation;*
- (d) *St. John's Anti-Litter By-Law;*
- (e) *St. John's Building By-Law;*
- (f) *Commercial Maintenance By-Law of the City of St. John's;*
- (g) *St. John's Commercial Vehicle Parking By-Law;*
- (h) *St. John's Electrical By-Law;*
- (i) *St. John's Fire Hydrant By-Law;*
- (j) *St. John's Heritage Area Sign By-Law;*
- (k) *St. John's Open Air Fire Regulations;*
- (l) *St. John's Plumbing By-Law;*
- (m) *St. John's Mobile Sign By-Law;*
- (n) *St. John's Noise By-Law;*
- (o) *St. John's Pool By-Law;*
- (p) *St. John's Sanitation Regulations;*
- (q) *Sign By-Law;*
- (r) *St. John's Snow Removal Regulations;*

(s) *St. John's Residential Property Standards By-Law*; and

(t) *St. John's Taxi By-Law*.

Time of payment

4. Where a violation notice has been issued by the council

(a) a voluntary payment made to the city with respect to that notice shall be made by the recipient of that notice not later than 7 days after the issuance of the notice to that recipient; and

(b) notwithstanding paragraph (a), a voluntary payment made to the city with respect to that notice after the time referred to in paragraph (a) shall be made by the recipient of that notice not later than 14 days after the issuance of the notice to that recipient.

Amount of payment

5. Where a violation notice has been issued by the council

(a) a voluntary payment to the city made within the time referred to in paragraph 4(a) with respect to that notice shall be \$50; and

(b) a voluntary payment to the city made with respect to that notice within the time period referred to in paragraph 4(b) shall be \$75.

Offence penalty

6. Where a person has received a violation notice and is convicted of an offence with respect to the same matter for which that notice was issued, the penalty for that offence shall be \$100.

**NEWFOUNDLAND AND LABRADOR
REGULATION 78/07**

City of Corner Brook Violation Notice Regulations
under the
City of Corner Brook Act
and the
Urban and Rural Planning Act, 2000

(Filed July 10, 2007)

Under the authority of section 280.3 of the *City of Corner Brook Act* and section 39.3 of the *Urban and Rural Planning Act, 2000*, I make the following regulations.

Dated at St. John's, July 3, 2007.

Jack Byrne
Minister of Municipal Affairs

REGULATIONS

Analysis

- | | |
|----------------------|----------------------|
| 1. Short title | 4. Time of payment |
| 2. Definitions | 5. Amount of payment |
| 3. Violation notices | 6. Offence penalty |

Short title **1.** These regulations may be cited as the *City of Corner Brook Violation Notice Regulations*.

Definitions **2.** In these regulations "violation notice" means a violation notice issued in accordance with section 280.1 of the *City of Corner Brook Act*

Act or section 39.1 of the *Urban and Rural Planning Act, 2000* with respect to a regulation referred to in section 3.

Violation notices

3. The council may issue violation notices with respect to a failure to comply with a provision of the following regulations enacted by the council under the *City of Corner Brook Act* or the *Urban and Rural Planning Act, 2000*:

- (a) *Adult Materials Display Regulations*
- (b) *Animal Regulations*;
- (c) *Anti Litter Regulations*;
- (d) *Building By-Law*;
- (e) *Commercial Motor Vehicle Regulations*;
- (f) *Dog Regulations*;
- (g) *Driveway Culverts Regulations*;
- (h) *Fire Prevention Regulations*;
- (i) *Garbage and Refuse Regulations*;
- (j) *Noise Regulations*;
- (k) *Occupancy and Maintenance Regulation*;
- (l) *Street By-Law*; and
- (m) *Tree By-Law*.

Time of payment

4. Where a violation notice has been issued by the council

- (a) a voluntary payment made to the city with respect to that notice shall be made by the recipient of that notice not later than 7 days after the issuance of the notice to that recipient; and
- (b) notwithstanding paragraph (a), a voluntary payment made to the city with respect to that notice after the time referred to

in paragraph (a) shall be made by the recipient of that notice not later than 14 days after the issuance of the notice to that recipient.

Amount of payment

5. Where a violation notice has been issued by the council

(a) a voluntary payment to the city made within the time period referred to in paragraph 4(a) with respect to that notice shall be \$50; and

(b) a voluntary payment to the city made with respect to that notice within the time period referred to in paragraph 4(b) shall be \$75.

Offence penalty

6. Where a person has received a violation notice and is convicted of an offence with respect to the same matter for which that notice was issued, the penalty for that offence shall be \$100.

NEWFOUNDLAND AND LABRADOR REGULATION 79/07

City of Mount Pearl Violation Notice Regulations
under the
City of Mount Pearl Act
and the
Urban and Rural Planning Act, 2000

(Filed July 10, 2007)

Under the authority of section 280.3 of the *City of Mount Pearl Act* and section 39.3 of the *Urban and Rural Planning Act, 2000*, I make the following regulations.

Dated at St. John's, July 3, 2007.

Jack Byrne
Minister of Municipal Affairs

REGULATIONS

Analysis

- | | |
|----------------------|----------------------|
| 1. Short title | 4. Time of payment |
| 2. Definitions | 5. Amount of payment |
| 3. Violation notices | 6. Offence penalty |

Short title

1. These regulations may be cited as the *City of Mount Pearl Violation Notice Regulations*.

Definitions

2. In these regulations "violation notice" means a violation notice issued in accordance with section 280.1 of the *City of Mount Pearl Act* or section 39.1 of the *Urban and Rural Planning Act, 2000* with respect to a regulation referred to in section 3.

Violation notices

3. The council may issue violation notices with respect to a failure to comply with a provision of the following regulations enacted by the council under the *City of Mount Pearl Act* or the *Urban and Rural Planning Act, 2000*:

- (a) *Adult Materials Display Regulations*
- (b) *Animal Control Regulations;*
- (c) *Anti Litter Regulations;*
- (d) *Commercial Motor Vehicle Regulations;*
- (e) *Fence Regulations;*
- (f) *Garbage Regulations;*
- (g) *Mobile Canteen Regulations;*
- (h) *Noise Regulations;*
- (i) *Occupancy and Maintenance Regulation;*
- (j) *Place of Entertainment Regulations;*
- (k) *Public Area Vehicle Regulations;*
- (l) *Taxi Regulations;* and
- (m) *Tree Regulations.*

Time of payment

4. Where a violation notice has been issued by the council

- (a) a voluntary payment made to the city with respect to that notice shall be made by the recipient of that notice not later than 7 days after the issuance of the notice to that recipient; and
- (b) notwithstanding paragraph (a), a voluntary payment made to the city with respect to that notice after the time referred to in paragraph (a) shall be made by the recipient of that notice not later than 14 days after the issuance of the notice to that recipient.

Amount of payment

5. Where a violation notice has been issued by the council

(a) a voluntary payment to the city made within the time referred to in paragraph 4(a) with respect to that notice shall be \$50; and

(b) a voluntary payment to the city made with respect to that notice within the time period referred to in paragraph 4(b) shall be \$75.

Offence penalty

6. Where a person has received a violation notice and is convicted of an offence with respect to the same matter for which that notice was issued, the penalty for that offence shall be \$100.
