GEOGRAPHICAL NAMES BOARD ACT

NOTICE

Under the authority of subsection 6(1), of the *Geographical Names Board Act*, G-3, RSN 1990, the Minister of the Department of Environment and Conservation, hereby approves the names of places or geographical features as recommended by the Newfoundland and Labrador Geographical Names Board and as printed in Decision List 2009-03.

Newfoundland and Labrador Geographical Names Board

Decision List 2009-03

Source of Recommendation:

This document contains a list of 8 names of places or geographical features that were discussed during the last meeting of the Newfoundland and Labrador Geographical Names Board on December 3-4, 2009. These recommendations affect the National Topographic Series (NTS) mapsheets: Half Way Pond (13B/3); No Title (13C/6); Goose Bay (13F/8); and Kenemich River (13G/5).

These place names were officially submitted by the Innu Nation to the Newfoundland and Labrador Geographical Names Board on December 3rd, 2009 as potential place names for sign-posting along the newly constructed Phase III of the Trans Labrador Highway.

The official submission of these names marks an historic event. This is the first occasion that an aboriginal group has approached the NLGNB in an attempt to officially preserve their culture through their place names.

The Newfoundland and Labrador Geographical Names wishes to thank to Innu Nation for this culturally significant submission. These names and many others have been posted on the www.innuplaces.ca website since November of 2008. The NLGNB anticipates further discussions with the Innu Nation about additional submissions originating from that website in the next year.

The place names provided in the list below also gives two examples of dual names. In the cases of these dual names, two official names will be officially recognized for the same feature.

Where possible, the Newfoundland and Labrador Geographical Names Board has adopted a policy of preserving the cultural uniqueness of each culture. In the case of long-standing, well established local names, the use of a dual naming policy allows the preservation of each culture to be maximized.
