Department of Environment, Climate Change and
Municipalities
Water Resources Management Division

AMENDMENT TO PERMIT

Pursuant to the *Water Resources Act*, SNL 2002 cW-4.01, specifically Section(s) 49

Date: **MARCH 24, 2021**

File No: **536-09**

Permit No: **ALT11575-2021**

Amendment No: **1**

Permit Holder: **NL Hydro
P.O. Box 12400
500 Columbus Drive
St. John's NL A1B 4K7**

Attention: **Mr. John Linfield**

Re: **Various Bodies of Water- Fording and Various Work Activities - Blanket Permit**

The original Permit dated JANUARY 25, 2021 is amended as follows:

As per the email request of John Linfield dated February 1, 2021, the terms and conditions 55 and 60 of the original permit are being amended as per Appendix D.

All other terms and conditions of the original Permit will apply and failure to comply with the terms and conditions of this amendment and the original Permit will render this Permit null and void, place the Permit Holder and their agent(s) in violation of the *Water Resources Act* and make the Permit Holder responsible for taking any remedial measures as may be prescribed by this Department.

A handwritten signature in blue ink, appearing to read "A. ...".

(for) MINISTER

APPENDIX D
Amended Terms and Conditions for Permit

PPWSA General

55. Every effort shall be made to ensure that adequate sanitary (bathroom) facilities are available or provided on site. This may be in the form of a portable toilet, chemical toilet, or municipal sewer system. If a portable toilet or chemical toilet is used, the waste water must be disposed of in a septic disposal system approved by Service NL, or at an approved waste disposal site, outside the Protected Public Water Supply Area in accordance with the Environmental Protection Act, SNL 2002 cE-14.2. In circumstances of short-term projects in remote locations with limited access, a “leave no trace” policy must be implemented using the buffers identified in Condition #47.

Fuel Storage

60. A complete oil spill clean-up kit must be on site at all times when gasoline or fuel powered equipment is being used or refueled. The kit shall contain the following:
- One hand operated fuel pump
 - One recovery container such an empty 205 litre drum or other appropriate containment
 - One shovel
 - Five metres of containment boom
 - Five absorbent pads
 - Twenty-five litres of loose absorbent material
 - One pick axe (recommended)
