

## Dandy Dan's Fish Market Ltd

### Waste Management Plan

#### **Solid Waste :**

There will be approximately 2 bags of solid garbage per week . This garbage will be picked up on a weekly basis by Provincial Ready Mix , local garbage contractor and delivered to Robin Hood Bay in St .John's ,NL .

Recyclables will be delivered to the local Green Depot in Dunville ,NL on a weekly basis .

Approximately 30 per cent of the total snow crab of 2,000,000 lbs will be waste . This is a total of 600,000 lbs . Any solid waste will be transported to the landfill in Sunnyside .

Any solid waste will be screened at the snow crab facility .This will be done as the snow crab is coming off the conveyor belt . There will also be a fine screen over 12 inch drain pipes to collect any debris that may be washed into the drain system .

Any liquid waste will leave the facility through the municipal waste system .
