

AMENDMENT TO PERMIT

Pursuant to the *Water Resources Act*, SNL 2002 cW-4.01, specifically Section(s) 49

Date: **OCTOBER 4, 2021**

File No: 550-01-01-05-054
Permit No: PRO12024-2021
Amendment No: 1

Permit Holder: **Cartier Iron Corporation**
20 Adelaide Street East, Suite 200
Toronto, ON, M5C 2T6

Attention: [REDACTED]

Re: **Clarenville - Shoal Harbour River PPWSA - Mineral Exploration - Cartier Iron Corporation**

The original Permit dated AUGUST 18, 2021 is amended as follows:

Condition 39 is amended to read:

"For any boreholes within a 30 m buffer of a wetland, the following restrictions apply: the five (5) preceding days to drilling must have daily recorded rainfall of less than 5 m as recorded by the nearest Environment and Climate Change Canada Weather Station or other reliable daily rainfall recording methods approved by the Environmental Scientist. Alternatively, boreholes within the buffer can be moved up to a maximum of 5 m in any direction to avoid wetland buffers without requiring an amendment to this permit."

An additional 8 drill holes and relocation of 5 drill hole sites (see attached mapping) are approved within the Shoal Harbour River Protected Public Water Supply Area given they follow all conditions of approval in Permit PRO12024-2021.

All other terms and conditions of the original Permit will apply and failure to comply with the terms and conditions of this amendment and the original Permit will render this Permit null and void, place the Permit Holder and their agent(s) in violation of the *Water Resources Act* and make the Permit Holder responsible for taking any remedial measures as may be prescribed by this Department.
