PPWSA signs in place and in good condition

PPWSA signs need to be added/replaced

Specify Locations: _____

1. Current Permits for Development Activity in the PPWSA are available at:

<https://www.gov.nl.ca/ecc/waterres/permits-licenses/permits/supply-dev/>

Identify if activity is completed or ongoing, and any related issues:

2. Specify area(s) where the inspection took place (ie. around intake; walked the perimeter; area of forestry operations, etc.):

3. Condition of roads and ATV trails encountered (specify locations, access points, etc.):

4. Wildlife issues or concerns:

5. ATVs, snowmobiles, domestic animals near or crossing intake pond/brook/stream:

6. Illegal activities (ie. fishing, boating, swimming in the intake waterbody):

7. New developments, construction or other unauthorized activity without a Permit:

8. Condition of private buildings / structures:

9. Issues with fuel storage or fuel tanks:

10. Issues with sewer, septic tanks, animal waste, fecal matter at cabins / cottages or other locations:

11. Presence of garbage, abandoned vehicles, dumping, etc.:

12. Water quality concerns (increased turbidity from runoff or other environmental disturbances):

If additional space is needed, use additional paper. For any matters requiring follow-up make as many notes as possible. Note locations using Latitude and Longitude (in Degrees, Minutes and Seconds format). Take photos of any issues or problems, noting where the photos were taken, what the issue was, who is believed to be responsible, who took the photos, and the date the photos were taken. Make note of all measurements (preferably in meters). If measurements are estimated, note that too.
