

**ABITIBI-CONSOLIDATED**  
**2006 AMENDMENT**

Operating Area: Grindstone / Joe Glodes  
Harvest Area #: 2006-AM12-02  
**Map #:** Attached  
Inventory Map #: 7334, 7442

**Resource Road Information**

Capital Road: - km  
Operational Road: 10.6 km  
Bridges: 3

**Forest Inventory**

Volume: 62,364.30 m3  
Area: 489.2 Ha.  
bS 73 %  
bF 27 %

**Volume Carried Over**

2005: - m3  
2005 - Ha

**Stand Condition:** Mature - Overmature

**Changes to Inventory Volume**

- % Rationale: \_\_\_\_\_

- % Rationale: \_\_\_\_\_

**Available Harvest**

Volume: 62,364.30 m3  
Area: 489.2 Ha

**Total Proposed Harvest**

Volume: 62,300 m3  
Area: 489 Ha

If Available Harvest not equal to Proposed Harvest; Rationale: \_\_\_\_\_

**Harvest System Description**

| Season        | Mechanical |             | Manual |             | Total<br>Volume (m3) |
|---------------|------------|-------------|--------|-------------|----------------------|
|               | System     | Volume (m3) | System | Volume (m3) |                      |
| Summer/Fall   | SW3        | 62,300      |        |             | 62,300               |
| Winter/Spring |            |             |        |             |                      |

**Rationale for Amendments/Comments**

(Operating Area being replaced (if applicable)):

There are three watercrossings identified in these proposed harvest areas.

Area 1 is Grindstone (map 1), consisting of approximately 49,900 meters (389 Hectares), and 6.6 Km's of Operational Road

Area 2 is Joe Glodes (map 2), consisting of approximately 12,400 meters (100 Hectares) and 4.0 Km's of Operational Road
