Table of Concordance for EIS Guidelines

Guideline Requirement		EIS	
Section	Title	Section	Title
Section 1: Executive Summary			
1	Executive Summary	Executive Summary	
2	Table of Concordance	Executive Summary	Appendix
Section 2: Introduction			
1	Identification of Proponent	Volume 1 Section 1.1	The Proponent
2	Purpose of the Project	Volume 1 Section 2.1	Purpose of the Project
3	Purpose of the Environmental Impact Statement	Volume 1 Section 2.2	Purpose of the Environmental Impact Statement
Section 3: The Proposed Undertaking			
1	The Prospective Site and Study Area	Volume 1 Section 2.4	The Prospective Site and Study Area
2	Rationale / Need	Volume 1 Section 2.1	Purpose of the Project
3	Alternatives	Volume 1 Section 3.0	Alternatives
3.1	Alternative methods of carrying out the undertaking	Volume 1 Section 3.2	Alternatives within the Project
3.2	Alternatives to the undertaking	Volume 1 Section 3.1	Alternatives to the Project
4	General Layout	Volume 1 Section 4.0	Project Layout and Main Components
4.1	Access Roads and Raw Material Conveyors, Storage and Related Infrastructure	Volume 1 Section 4.0 Section 6.11 Section 6.15	Project Layout and Main Components Access Roads Marshalling and Equipment Storage Areas
4.2	Storage for Reagents and Final Products	Volume 1 Section 7.1 Section 7.2	Hydrometallurgical Process Matte Refining Process
4.3	Berms / Dams, Pipelines, Pumphouse and Associated Structures	Volume 1 Section 6.12 Section 6.13	Water Control Structure and Dam Construction Pipelines
4.4	Dock / Port and Laydown Area	Volume 1 Figure 4.2 Figure 4.3	Port Site Hydromet Port Site Matte

Guideline Requirement		EIS	
Section	Title	Section	Title
4.5	Oxygen Plant, Backup Power Plant and Fuel Storage	Volume 1 Section 6.6 Section 6.7	Power Supply Fuel Management
4.6	Existing Power Substation and Proposed Transmission Line(s)	Volume 1 Section 6.6	Power Supply
4.7	Stream Crossings for Roads and Pipelines (Culverts, Bridges and Fording Sites)	Volume 1 Figure 4.1 Section 6.11	Overall Project Site Layout Access Roads
4.8	Tier 1 and Tier 2 Administration and Laboratory Buildings	Volume 1 Figure 4.2 Figure 4.3 Figure 4.4 Figure 4.5	Port Site Hydromet Port Site Matte Tier 2 Site Plan Hydromet Plant Tier 2 Site Plan Matte Plant
4.9	Borrow Pits, Quarries, Batch Plants, Major Excavations and Waste Rock Disposal Locations (Including Rehabilitation)	Volume 1 Section 6.8 Section 6.14	Excavation and Blasting Quarries
4.10	Provisions and Facilities for Sheltering / Feeding Construction and Operation Workers and Visitors	Volume 1 Section 6.2	Construction Accommodations
4.11	Berms /Dams, Pipelines, Residue Pond(s), Clarification Pond(s), Stormwater Pond(s) and Associated Structures	Volume 1 Section 6.12 Section 6.13	Water Control Structure and Dam Construction Pipelines
4.12	Pipelines, Berms and Associated Structures for Residue and Waste Storage for the Matte Process	Volume 1 Section 7.2	Matte Refining Process
4.13	Temporary Stream Diversions and locations of all Ponds to be Infilled	Volume 2 Section 2.3 Section 6.0	Freshwater Environment Freshwater Fish and Fish Habitat Effects Assessment
4.14	Preparation and Process Buildings	Volume 1 Figure 4.2 Figure 4.3 Figure 4.4 Figure 4.5 Section 6.16	Port Site Hydromet Port Site Matte Tier 2 Site Plan Hydromet Plant Tier 2 Site Plan Matte Plant Buildings
4.15	Pipelines and Outfall Structures for Treated Effluents including Sewage	Volume 1 Section 7.4	Waste Water and Effluent Treatment
5	Construction	Volume 1 Section 6.0	Project Construction
5.1	Construction Yard / Laydown Areas: Establishment and Operation	Volume 1 Section 6.1 Section 6.15	Site Preparation and Support Marshalling and Equipment Storage Areas
5.2	Provisions and Facilities for Sheltering / Feeding Construction and Operation Workers and Visitors	Volume 1 Section 6.2 Volume 3 Section 1.1.3	Construction Accommodations Construction

Guideline Requirement		EIS	
Section	Title	Section	Title
5.3	Widening of Existing Dock, Possible Dredging and Removal of the Sunken Vessel near the Dock	Volume 1 Section 6.3	Marine Works
		Volume 2 Section 7.5.2 Section 7.5.3 Section 7.5.4	Wharf Expansion Dredging Shore and Scour Protection
5.4	Clearing of Right of Ways and Area to be Flooded (Vegetation Removal, Grubbing and Disposal of Debris)	Volume 1 Section 6.1	Site Preparation and Support
5.5	Collection and Disposal of Solid Wastes including Office Wastes and Food Wastes	Volume 1 Section 6.5	Waste Management
5.6	Blasting Activities	Volume 1 Section 6.8	Excavation and Blasting
5.7	Control of Stormwater and Sedimentation	Volume 1 Section 6.10 Section 7.3	Storm Water Management Water Management
5.8	Plans for Sheltering / Feeding of Construction and Operation Workers and Visitors	Volume 1 Section 6.2	Construction Accommodations
5.9	Storage, Use and Transportation of Hazardous Material; Fuels, Lubricants and Explosives	Volume 1 Section 6.21	Transport and Handling of Hazardous Materials
5.10	In-stream Activities and Stream Crossings	Volume 1 Figure 4.1 Section 6.1	Overall Project Site Layout Site Preparation and Support
6	Operation and Maintenance	Volume 1 Section 7.0	Production Operations
6.1	Physical components required for operation and maintenance	Volume 1 Section 7.7	Maintenance
6.2	Structures, facilities and staff associated with environmental controls, the offloading and conveying of concentrate and wastewater treatment and residue management	Volume 1 Figure 4.2 Figure 4.3 Figure 4.4 Figure 4.5 Section 7.4 Section 7.1 Section 7.2	Port Site Hydromet Port Site Matte Tier 2 Site Plan Hydromet Plant Tier 2 Site Plan Matte Plant Waste Water and Effluent Treatment Hydrometallurgical Process Matte Refining Process
6.3	Employee orientation programs, recruitment and hiring plan and policies and health and safety plans and policies	Volume 1 Section 10.1 Section 10.5	Occupational Health and Safety Human Resources
6.4	On overview of the systems to detect and respond to spills / leaks, process upsets and emergencies	Volume 1 Section 10.4	Emergency Response
6.5	The protection and maintenance of the outfall / diffuser from storm damage	Volume 1 Figure 7.8 Section 6.3	Outfall Pipe and Typical Details Marine Works
7	Post-Closure	Volume 1 Section 8.0 Section 10.2	Rehabilitation, Closure and Decommissioning Environmental Management

Guideline Requirement		EIS	
Section	Title	Section	Title
Section 4: Existing Environment			
1	Description of the present environment (biophysical and socio-economic).	Volume 2 Section 2.0	Existing Environment
		Volume 3 Section 2.0	Existing Socio-Economic Environment
2	Resources and socio-economic features that will be affected or that might reasonably be expected to be affected, directly or indirectly, by the proposed undertaking with emphasis on the VEC's	See Chapters 4 – 11 in Volume 2 and Chapters 4 – 7 in Volume 3 related to the VEC Effects Assessments	
3	Knowledge Gaps	Volume 2 Section 12.3	Knowledge Gaps
		Volume 3 Section 7.10	Knowledge Gaps
4	Health, Safety and Environment Management System	Volume 1 Section 10.0	Sustainability Assurance
5	Existing Environment	Volume 2 Section 2.0	Existing Environment
5.1	The marine environment (currents, tides, benthic habitat, flora and fauna including shellfish and indicator species)	Volume 1 Section 5.4	Physical Oceanography
		Volume 2 Section 2.4	Marine Environment
5.2	Employment, out-migration, tax base, local area demographics and other socio-economic conditions	Volume 3 Section 2.0 Section 4.0	Existing Socio-Economic Environment Economy, Employment, and Business
5.3	Local businesses, recreation facilities, accommodation, tourism and other infrastructure	Volume 3 Section 4.1 Section 5.1 Section 6.1	Existing Conditions (Economy, Employment and Business) Existing Conditions (Services and Infrastructure) Existing Conditions (Recreational Activities)
5.4	Archaeological sites	Volume 3 Section 6.1.3	Natural, Cultural and Historic Tourism Attractions
5.5	Municipal structure and services including emergency response	Volume 3 Section 5.0	Services and Infrastructure
5.6	Climate and air quality	Volume 1 Section 5.5 Volume 2 Section 2.1	Climate Atmospheric Environment
5.7	Physiography, surficial geology, soils and geological formations	Volume 1 Section 5.1	Physiography and Geology
5.8	Forest resources and vegetation (with emphasis on the area to be cleared / flooded)	Volume 2 Section 2.2	Terrestrial Environment
5.9	Wildlife resources (other than identified VEC's)	Volume 2 Section 2.2	Terrestrial Environment

Guideline Requirement		EIS	
Section	Title	Section	Title
5.10	Freshwater environment including benthic habitat and fish resources (other than identified VEC's)	Volume 2 Section 2.3	Freshwater Environment
6	Process for VEC Selection	Volume 1 Section 11.0	Valued Ecosystem Components
7	The VEC's	Volume 1 Section 11.0	Valued Ecosystem Components
7.1	Avifauna including raptors, water fowl and marine birds	Volume 2 Section 8.0	Avifauna Effects Assessment
7.2	Species at risk, including wildlife, avifauna, rare vascular plants and lichens	Volume 2.0 Section 10.0	Species at Risk Effects Assessment
7.3	Water quantity and quality (including wetlands)	Volume 2 Section 5.0	Freshwater Resources Effects Assessment
7.4	Services and infrastructure (including health infrastructure)	Volume 3 Section 5.0	Services and Infrastructure
7.5	Economy, business, training and employment	Volume 3 Section 4.0	Economy, Employment and Business
7.6	Otter	Volume 2 Section 9.0	Otter Effects Assessment
7.7	Fish and fish habitat (including commercial fisheries and aquaculture)	Volume 2 Section 6.0 Section 7.0 Volume 3 Section 7.0	Freshwater Fish and Fish Habitat Marine Fish and Fish Habitat Commercial Fisheries and Aquaculture
7.8	Air quality	Volume 2 Section 4.0	Air Quality Effects Assessment
7.9	Recreational activities including hunting, fishing, boating / kayaking, sport and hiking	Volume 3 Section 6.0	Recreational Activities
Section 5: Environmental Effects			
1	Description of Environmental Effects	See Chapters 4 – 11 in Volume 2 and Chapters 4 – 7 in Volume 3 for specific VEC Effects Assessments	
2	Methods used to identify and describe potential effects on the existing environment and selected VECs; significance and rationale	Volume 2 Section 3.0 Volume 3 Section 3.0	Assessment Methods Assessment Methods
3	Environmental Effects of Alternatives	See Chapters 4 – 10 in Volume 2 and Chapters 4 – 7 in Volume 3 for specific Effects Assessments and Cumulative Effects for all VECs	
4	Cumulative Effects		
5	Accidental Events, including Human Health Risk Assessment	Volume 2 Section 11.0	Accidental Events Effects Assessment
6	Sustainability of Renewable Resources	See Chapters 4 – 11 in Volume 2 for specific VEC Effects Assessments	
7	Climate Change	Volume 1 Section 5.6	Climate Change
8	Future Condition of the Environment without the Project	Volume 2 Section 12.1	Environment without the Project
Section 6: Environmental Protection and Selection of Preferred Alternative			
1	Mitigation	See Chapters 4 – 11 in Volume 2 and Chapters 4 – 7 in Volume 3 for specific VEC Effects Assessments	

Guideline Requirement		EIS	
Section	Title	Section	Title
2	Residual Impacts	including Mitigation and Residual Effects	
3	Selection Criteria	Volume 1 Section 3.0	Alternatives
4	Monitoring Programs	Volume 2 Section 12.6 Volume 3 Section 4.4.18 Section 5.4.12 Section 6.3.4	Environmental Monitoring and Follow-up Follow-up Follow-up Follow-up
Section 7: Public Participation			
1	Consultations	Volume 1 Section 10.6 Appendix C	Community Public Consultation
Section 8: Component Studies			
1	Required Component Studies	See Component Studies Submitted under Separate Cover and Formally Approved	
1.1	Terrestrial Environment		
1.2	Freshwater		
1.3	Marine Environment		
1.4	Historic Resources		
1.5	Human Health		
1.6	Socio-Economic		
Section 9: Environmental Protection Plan			
1	Outline of the Environmental Protection Plan (EPP)	Appendix F	Environmental Protection Plan Table of Contents
Section 10: References Cited			
1	Complete List of References	Appendix A	List of References
Section 11: Personnel			
1	Qualifications of EIS Preparation Team	Appendix G	EIS Study Team
Section 12: Copies of Reports			
1	Anticipated Appendix Documents		
1.1	Archaeological Impact Assessment	See Historic Resources Component Study Submitted under Separate Cover	
1.2	Public Consultation Program	Appendix C	Public Consultation
1.3	EPP Outline	Appendix F	Environmental Protection Plan Table of Contents
1.4	Wastewater Management and Residue Treatment / Disposal / Storage Report	See Report Submitted Under Separate Cover	
1.5	Description of a Health, Safety and Environmental Management System	Volume 1 Section 10.0	Sustainability Assurance
