

Grande Meadows Golf Course Association Inc.

P.O. Box 80 Frenchman's Cove, NL A0E 1R0

May 25, 2007

Honourable Clyde Jackman
Minister of Environment & Conservation
Confederation Building
P.O. Box 8700
St. John's, NL
A1B 4J6

Dear Minister Jackman:

Reference: Grand Meadows Golf Course

We hereby withdraw the Environmental Assessment Application dated February 14, 2005 and amended June 22, 2005.

We enclose herewith an Environmental Assessment Application dated May 25, 2007 and which includes the following:

- 40 copies Environmental Assessment Application document 11 pages
- 40 copies Letter of Support Schooner Regional Development Corporation 1 page
- 40 copies Letter of Support Marystown-Burin Area Chamber of Commerce 2 pages
- 40 copies Letter of Support Friends of the Park 1 page
- 40 copies Letter of Support Town of Frenchman's Cove 1 page
- 40 copies Map Exhibit 1 topographic 1:50000 scale 1 page
- 40 copies Map Exhibit 2 land areas A, B and C 1:5000 scale 1 page
- 40 copies Map Exhibit 3 site layout 1:2500 scale 1 page
- 1 CD containing the information as above in the required electronic format
- Grande Meadows Cheque for \$228 payable to Newfoundland Exchequer

There have been numerous meetings, discussions and correspondence since we started this process in May of 2004.

Our consultants AMEC Earth and Environmental and Vision Concepts were very helpful in the process.

The renovation of existing coastline and the physical and biological environment minimal changes may be issues within certain quarters. We wish to reassure and reiterate to you that the Grande Meadows expansion will intrinsically and unobtrusively mold, integrate and enhance the natural environment.

The coexistence of the park and the golf course is of paramount importance because it is our express view that without the activities associated with the golf course the park would have experienced severe operating deficiencies.

Many of the issues, **on the advice of government**, were addressed and re-addressed until our collective comfort level was met.

Throughout this process since May of 2004 we observed that there are significant pockets of opposition from certain environmental groups and within certain areas of government. We do anticipate that some of this opposition will continue and we want to remind you of our view that most if not all of this is somewhat unfortunately biased and should not be allowed to scuttle the project.

Sincerely,

Jerry Pike
Chairperson

C.
Honourable Danny Williams, Premier
Honourable Kathy Dunderdale, Minister of Natural Resources
