The Undertaking

---

The Proponents intend to develop a snowmobile trail; originating in the community of Humber Village, which of course is situated in the Humber Valley in Western Newfoundland. The trail is to provide a safe access out of the Village to connect with existing logging and other road networks and ultimately to the groomed trails managed by The Newfoundland and Labrador Snowmobile Federation. At the present time no such access exists. The proposed trail would exit the Village from Village property onto crown land in a northwest direction for approximately one (1) klm and then turn Northeast for approximately two Klms where it would intersect a forest access road. It should be noted that this is the only area where the terrance is adequate to build a trail apart from locations starting on private land which of course is not vavilable to us.

Description of the Undertaking:

Schedules

---

The commencement will be as soon as the final approval is gotten from Crown Lands and the permit is issued. The duration is dependent on the time of year approval is gotten; however our plan is to commence development around the first week of September and have it completed sometime before the end of November. We would want to work within that timeframe as it is after the fire season and before the first major snowfall and the onset of winter.

Funding:

We are not looing for or anticipating any funding. The whole exercise will be done both by volunteers and contributions from the snowmobiling community of Humber Village.
