3. The Undertaking:

- i. Nature of the Undertaking:
Aggregate Quarry (Sand and Gravel).

ii. Purpose of undertaking:

To source screened sand and gravel for supply to various customers in the vicinity including Gander.

Description of the Undertaking:

i. Location: Proposed pit is off TCH at Butt's Pond in the same general area as pits already in use by other operators. (698400E 5411500N Zone 21 5513095 Lat 1577572 Long.

ii. Pit Access: Pit Access is provided by a cabin access road and existing pit access road used by other operators.

iii. Coordinates: location identified on attached map.

iv. Attached Map

i. Google Earth Map of the undertaking.

v. Physical Features:

The proposed pit is a 2 hectare extension of a former quarry site with very little vegetation. No buildings are to be erected on the site and there is already access to the site. I am proposing to remove ~ 2000 cubic meters of material per year. All faces will be sloped with a maximum height of 3 meters. The proposed site is not in close proximity to any lakes, rivers, ponds or streams. The proposed site is not visible from the Trans Canada and is far removed from the cabins in the

area.

vi. Construction:

- i. Road access is already in place.
- ii. Grubbing of overburden.
- iii. Pit development and sediment control.

vii. Clearing:

All grubbing material will be stock piled for use in reclamation of site.

5. Operations:

Removal of screened gravel and pit run through excavation. Material will be screened on site and delivery to end use locations. Primary use of the screened material is for winter sand to be used throughout Gander. Some unscreened material will be used in the nearby cabin development.

Equipment in use will include, excavator, screens, front end loaders and dump trucks.

Site will be in operation annually between April and November.

The grounds will be maintained according to

environmental and occupational health and safety standards. Spill kits, first aid kits, fire extinguishers, etc. will be available at the site at all times when in operation.

No drilling or blasting will take place at this location.

6. Termination of Operation/ Reclamation:

- i. Life expectancy of this pit is 50+ years.
- ii. Pit faces will be sloped and area maintained in a fashion to allow safe passage at all times.
- iii. At the end of pit life all overburden will be replaced to allow area to return to it's natural landscape.

7. Occupations:

- i. This pit will aid in supporting the employment of 8 full time seasonal heavy equipment operators NOC 7521 as well as a full time Heavy Duty Equipment Technician and one Apprentice NOC 7312 .

8. Project related documents:

Attached.

9. Approval of Undertaking:
