Dear Mr. Penney:

Re: Argentia Access Road Industrial Composting Facility

The Addendum to the environmental preview report (EPR) submitted on April 10, 2017 has been reviewed and an opportunity to comment has been provided to the Environmental Assessment Committee (EAC) and the public, as required by the Newfoundland and Labrador Environmental Protection Act, SNL 2002, cE-14.2. Upon consideration of the comments received, please be advised that additional information is required to be submitted as a second addendum.

This addendum will address the following deficiencies including, but not limited to:

- an air dispersion model to demonstrate odour emissions; and
- a public information session to be held adjacent to or in the geographical area of the undertaking to provide project-related information to the people whose environment may be affected by the undertaking, and to record and respond to public concerns.

Please be reminded that, in accordance with the Environmental Protection Act, project activities may not proceed until the proposal is released from the Environmental Assessment Process. If you have any questions concerning these matters, please contact Dr. Susan Squires, Director of Environmental Assessment Division, at (709) 729-0673 or email susansquires@gov.nl.ca.

Sincerely,

EDDIE JOYCE, MHA
