P.O. Box 2078
Marystown, NL
A0E 2M0

(iv) Principle Contact Person

Mr. Wylie Hooper
Owner/Operator
P.O. Box 2078
Marystown, NL
A0E 2M0

The UNDERTAKING:

(i) Nature of the undertaking:

The proposed project involves the development of 1 hectare gravel, rock, and sand quarry located adjacent to Dave Power's pit, Edmund Power's Pit, and Provincial Paving's pit.

(ii) Purpose/ need for the undertaking:

To have access to gravel, rock and sand for excavation work in the Marystown area.

DESCRIPTION OF UNDERTAKING:

(i) Geographic location

The proposed quarry is 860m from the intersection of the Forest Access Road and Route 210 (Grand Bank Highway). The boundaries on each side and behind are forested trees. Crown Land. Figure 1, satellite image and sketch of land.

(ii) Physical Features

This area consists of a forested land . There is no stream or pond within 200 metres of the site. There will be a 100m road built to connect to resource road.

(iii) Operation

- The undertaking will consist of the removal of sand, gravel and rock.
- Seasonal work October 2016 season to early April 2017. The site will be used for approximately 10-20 years.

Equipment to be used:

- Dump truck
- Front end loader
- Excavator

Potential pollutants:

- Engine oil leak - Hydraulic oil leak
- Diesel fuel carbons - Diesel fuel leak
- air exhaust

- Trucks and equipment will be serviced and maintained off site to prevent any contamination
- Spill kit on hand
- Yes, it will be rehabilitated any material such as topsoil and grubbing will be stockpiled for later use of filling in area once area is no longer needed
- When site is no longer necessary will follow government regulations on how to send back
