Mr. Eugene J. Manning
J&E Enterprises Limited
67 Main Street
St. Bride's NL A0B 2Z0

Dear Mr. Manning:

Re: Green Hill Quarry Reclamation and Rehabilitation

Your proposal has been reviewed by an interdepartmental screening committee and an opportunity to comment has been provided to the public as required by the Newfoundland and Labrador Environmental Protection Act, SNL 2002, cE-14.2. Upon consideration of the comments received, I have concluded that there is insufficient detail to determine the environmental effects of this undertaking. Therefore I am requiring you to prepare an Environmental Preview Report.

The Environmental Preview Report will be required to address the issues and concerns brought forward by the reviewing agencies during the review of this undertaking.

An environmental assessment committee will be appointed to provide technical and scientific advice to you on the preparation of the Environmental Preview Report. As per the legislation, you will be issued guidelines for the completion of the Environmental Preview Report. Project information requirements will have to address, but are not limited to:

- On-site composting process
- Management of potential leachate
- Project planning
- Potential effects on the environment
- Odour management

Please note that in accordance with the *Environmental Protection Act*, project activities may not proceed until the proposal is released from the environmental assessment process. The project may also be subject to cost recovery to offset the costs incurred by the Crown in conducting the environmental assessment.

If you have any questions concerning these matters, please contact Dr. Susan Squires, Director (Acting), Environmental Assessment Division at (709) 729-0673 or susansquires@gov.nl.ca.

Sincerely,

EDDIE JOYCE, MHA
