Plain Language Summary (English): Joyce Lake EIS

Executive Summary: Joyce Lake EIS

Organizational and regulatory changes since issuance of EIS guidelines

Joyce Lake Direct Shipping Iron Ore Project: Environmental Impact Statement

Chapter 1: Introduction

Chapter 2: Project Description

Chapter 3: Consultation

Chapter 4: Environmental setting

Chapter 5: Scope of assessment and environmental assessment methods

Chapter 6: Effects of the environment on the project

Chapter 7: Environmental management

Chapter 8: Potential or established Indigenous and treaty rights and related interests

Chapter 9: Benefits of the project and environmental assessment

Chapter 10: Atmospheric Environment and Climate Part 1 of 2

Chapter 10: Atmospheric Environment and Climate Part 2 of 2

Chapter 11: Water resources

Chapter 12: Groundwater resources

Chapter 13: Terrain

Chapter 14: Wetlands

Chapter 15: Fish and fish habitat

Chapter 16: Birds, wildlife and their habitats

Chapter 17: Species At Risk and Species Of Conservation Concern

Chapter 18: Historic and cultural resources

Chapter 19: Current use of land and resources for traditional purposes by Indigenous persons

Chapter 20: Contemporary use of land and resources by non-Indigenous people

Chapter 21: Community services and infrastructure

Chapter 22: Economy, employment and business

Chapter 23: Adverse impacts and measures to address adverse impacts on potential or established Indigenous

Chapter 24: Cumulative environmental effects

Chapter 25: Commitments

Chapter 26: Summary and conclusions

Appendix A: Personnel CVs

Appendix B: Rock Causeway Design

Appendix C: Geotechnical Engineering Feasibility Study - Open Pit Design

Appendix D: Geotechnical Feasibility Study - Surrounding Areas

Appendix E: Noise Modelling Study

Appendix F: Air Modelling Report

Appendix G: Environment Canada Hydrometric Station Flow Statistics

Appendix H: Summary of Hydrometric Monitoring Stations and Monitoring Results

Appendix I: Regional Water Quality Concentration Maps

Appendix J: Water Quality Monitoring Results

Appendix K: Hydrotechnical Assessment of the Iron Arm Causeway

Appendix L: Membrane Bioreactor Wastewater Treatment System

Appendix M: Hydraulic Assessment of the Proposed Bridge at Gilling River

Appendix N: Stream Crossing Design

Appendix O: Joyce Lake Hydrogeological Study

Appendix P: Hydraulic Testing and Chemistry Results
Appendix Q1: Phase 1 Assessment for Acid Rock Drainage and Metal Leaching
Appendix Q2: Joyce Lake Direct Shipping Ore Project ARD/ML Assessment Update
Appendix R: Characterization and Preliminary Treatability Testing of Tailings Effluent
Appendix S: Baseline Hydrogeology Scoping Study
Appendix T: Exploration Drillhole Logs
Appendix U: Vegetation Baseline Study
Appendix V1: 2012 Fish and Fish Habitat Baseline Study and 2013 Update Part 1 of 5
Appendix V1: 2012 Fish and Fish Habitat Baseline Study and 2013 Update Part 2 of 5
Appendix V1: 2012 Fish and Fish Habitat Baseline Study and 2013 Update Part 3 of 5
Appendix V1: 2012 Fish and Fish Habitat Baseline Study and 2013 Update Part 4 of 5
Appendix V1: 2012 Fish and Fish Habitat Baseline Study and 2013 Update Part 5 of 5
Appendix V2: 2014 Fish and Fish Habitat Baseline Study Update
Appendix W: Joyce Lake Water Management Plan
Appendix X: Avifauna Baseline Study
Appendix Y: Mammal and Herpetofauna Baseline Study
Appendix Z: Key Representative Birds and Wildlife Habitat Analysis
Appendix AA: Rare Plant Study
Appendix AB: Historic and Heritage Resources Baseline Study
Appendix AC: Socio-Economic Baseline Study
Appendix AD: Final Federal EIS Guidelines
Appendix AE: Final NL EIS Guidelines
Appendix AF: GHG calculations

ous treaty rights and related interests
