Terra Services Inc.

Dear Mr. Roberts:

Re: Southwest Brook - Lewisporte Quarry

Your proposal has been reviewed by an interdepartmental environmental assessment screening committee and an opportunity to comment has been provided to the public as required by Part X of the Newfoundland and Labrador *Environmental Protection Act*, SNL 2002, cE-14.2. Upon consideration of the comments received, please be advised that an environmental preview report (EPR) is required.

The EPR is necessary to provide information concerning the potential effects of the undertaking on the surrounding environment. Additional information requirements include, but are not limited to:

- a description of the proposed access route to the quarry and construction schedule. The description should include a site diagram and scaled mapping/imagery that identifies the location, the length of new road to be constructed, any existing roads to be used, and any stream crossings and bridge construction; and,
- the status of the proposed access route that was previously described in the registration document as the access route through the existing Terra Services Inc. quarry.

A summary of the comments received from government agencies during the registration review is attached to provide you with advice for your consideration and inclusion in your project and in the EPR.

An Environmental Assessment Committee will be appointed for the purpose of providing you with technical and scientific advice regarding the preparation of an EPR. As per the legislative requirements, within 60 days of the date of this letter you will be issued guidelines for the completion of the EPR. Please be reminded that, in accordance with the Environmental Protection Act, project activities may not proceed until the proposal is released from the environmental assessment process.

If you have any questions, please contact Joanne Sweeney, Director (A), Environmental Assessment Division, at (709) 729-0673 or joannesweeney@gov.nl.ca.

Sincerely,
