Regulatory Advice from Government Departments

EA 2279 – Cooper Cove Marine Terminal Expansion (the Project)

During the environmental assessment of the Project, provincial and federal government departments and agencies indicated that the following plans, permits, licences, approvals and/or other authorizations are or may be required before your Project commences. This is not intended to be a comprehensive list and you are responsible for consulting with federal and provincial government authorities regarding any additional authorizations that may be required by law.

The Climate Change Branch (CCB) of the Department of Environment and Climate Change (ECC) advises you to consider provincial climate change projections for Argelia in the planning for this undertaking as it is anticipated that extreme precipitation events will become more intense. All heavy-duty equipment used in the construction phase of the Project should be operated in a manner to maximize fuel efficiency, thereby reducing greenhouse gas emissions that could contribute to climate change. For more information, please contact the CCB at (709) 729-1485.

The Pollution Prevention Division (PPD) of ECC advises that if pesticide use is planned, a Pesticide Applicator License will be required, or if pest control services are contracted, the business must have a valid Pesticide Operator's Licence. Spill response equipment should be readily available, and a Spill Contingency Plan specific to the proposed undertaking should be developed. Any spill or leak of gasoline or associated product is to be reported immediately by calling the Environmental Emergencies Telephone Line at 1-800-563-9089. A Waste Management Plan is to be submitted for review and approval prior to project commencement. For further information, please contact the PPD at (709) 729-5782.

The Water Resources Management Division (WRMD) of ECC advises that you must apply for and obtain a permit for any work in or within fifteen (15) metres of a body of water and a Water Use License for the use of any water for any purpose, prior to start of work. Any effluent or runoff leaving the site must conform to the requirements of the Environmental Control Water and Sewage Regulations, 2003. For more information, please contact the WRMD at (709) 729-2563.

The Office of Women and Gender Equality (WGE) recommend that you to develop a Women's Employment Plan (WEP) for the construction phase of the Project. The WEP should identify specific commitments to support the recruitment, training, employment and retention of women and gender diverse persons. For further information contact WGE at (709) 729-5032.

The Government Service Centre of the (GSC) of the Department of Digital Government and Service NL (DGSNL) advises all fuel storage tank system installations other than those connected to a heating appliance of a capacity of 2,500 litres or less are subject to the Storage and Handling of Gasoline and Associated Products Regulations and will require registration prior to installation.

All fuel storage tank systems connected to a heating appliance of a capacity of 2,500 litres or less must comply with the Heating Oil Storage Tank System Regulations. The storage, handling, and disposal of used and or waste oil must be compliant with the Used Oil and Used Glycol Control Regulations. For further information, please contact the GSC at (709) 256-1420.

The Occupational Health and Safety Division (OHS) of DGSNL advises you to ensure that the activities associated with the development are conducted in compliance with the **Occupational Health and Safety Act** and its Regulations. This includes the responsibility for ensuring that contractors hired to perform work also comply with this legislation. For further information, please contact the OHS at 1(800) 563-5471.

The Department of Fisheries, Forestry and Agriculture (FFA) advises you to operate under established legislation and regulations, such as the **Wild Life Act**, Wild Life Regulations and **Newfoundland and Labrador Endangered Species Act** to avoid or minimize adverse impacts. For further information, please contact the FFA at (709) 729-2950.

The Department of Immigration, Population Growth and Skills (IPGS) delivers two programs to help employers recruit international workers for long-term employment in the province. For further information, please contact IPGS at (709) 729-2480.

The Department of Industry, Energy and Technology (IET) advises you that quarry materials that may be required for the Project must be obtained from an approved source. For further information, please contact IET at (709) 729-5748.

Fisheries and Oceans Canada (DFO) advises that you consult the projects Near Water website to obtain information about how to comply with the **Fisheries Act**. For further information, please contact the Fish and Fish Habitat Protection Program at (709) 772-4140.

Transport Canada (TC) advises that approval under the **Canadian Navigable Waters Act** will likely be required. For more information, please contact the TC at (506) 227-8257.
