E-mail: kennedysturkeyfarm@gmail.com

Dear David Kennedy:

RE: Freshwater Kennedy Farm Abattoir (the Project) Waste Management Plan

On August 16, 2023, the Project was released from environmental assessment, subject to conditions. One of the conditions required Kennedy Farm Inc. to submit a Waste Management Plan (WMP) for approval by the Pollution Prevention Division of my department, prior to Project commencement. The WMP was required to:

- address all waste streams produced by the Project;
- incorporate compost management in consultation with the Department of Fisheries, Forestry and Agriculture, and describe how to safely and effectively compost waste offal; and
- include details pertaining to vector and odour control and contingencies for any spills of waste or hazardous materials.

On January 25, 2024, Kennedy Farm Inc. submitted a WMP to the Pollution Prevention Division of my department. I am hereby advising you that this plan is approved.

Kennedy Farm Inc. must abide by all commitments made in the WMP and in all environmental assessment submissions. Any significant change to the WMP or to the Project must be submitted to my department prior to construction to be reviewed for regulatory requirements, including environmental assessment.

If you have any questions concerning these matters, please contact Joanne Sweeney, Director of the Environmental Assessment Division, at (709) 729-0673 or via email at joannesweeney@gov.nl.ca.

Sincerely,

HON. BERNARD DAVIS, MHA
District of Virginia Waters – Pleasantville
Minister
