National Outcomes and Outcome Measures by GTF project category

GTF Project Category	Indicators	National Objectives
Local Roads and Bridges	# of km improved/resurfaced	Productivity and Economic
	# of bridges constructed/upgraded	Growth
	# of projects that decrease the rate of	
	accidents/fatalities or injuries	
Highways	# of km improved/resurfaced	Productivity and Economic Growth
Short Sea Shipping	# of projects that resulted in	Productivity and Economic
	improvements with short-sea shipping	Growth
Short Line Rail	N/A	Productivity and Economic Growth
Regional and Local Airports	N/A	Productivity and Economic Growth
Broadband Connectivity	# of households (and/or non-residential properties) with internet access as a result of the project # of households (and/or non-residential properties) with enhanced broadband services as a result of the project	Productivity and Economic Growth
Public Transit	# of projects that resulted in improvements with the public transit system	Productivity and Economic Growth
Drinking Water	# of new households (and/or non- residential properties) connected to a municipal water system # of households (and/or non-residential properties) with improved water quality # of projects that resulted in reduced GHG emissions from energy-efficiency improvements to the municipal water system efficient # meters of water main installed Population served	Clean Environment
Wastewater	# of new households (and/or non- residential properties) connected to a municipal waste water system # of households (and/or non-residential properties) with improved wastewater treatment and/or services # of projects that resulted in reduced GHG emissions from energy-efficiency improvement to the municipal wastewater system #meters of sanitary sewer installed	Clean Environment

	Population served	
	# meters of storm sewer installed	
Solid Waste	# of projects that resulted in increased	Clean Environment
	capacity of site	
	# of projects that increased quantity of	
	solid waste diverted from disposal	
	through compost and/or recycling	
	# of projects that resulted in improved	
	solid waste practices	
Community Energy Systems	# of projects that resulted in decreased	Clean Environment
	GHG emissions	
Brownfield Redevelopment	Area (m2) of remediated site	Clean Environment
	# of new residential units, businesses	
	and/or institution on redeveloped site	
Sport Infrastructure	# of residents who will benefit from	Strong Cities and
	increased access to new or upgraded	Communities
	sport facility	
Recreational Infrastructure	# of residents who will benefit from	Strong Cities and
	increased access to new or upgraded	Communities
	recreational facilities or networks	
Cultural Infrastructure	# of residents who will benefit from	Strong Cities and
	increased access to new or upgraded	Communities
	infrastructure that supports arts,	
	humanities, and heritage	
Tourism Infrastructure	# of projects that provided	Strong Cities and
	new/upgraded attractions	Communities
Disaster Mitigation	# of projects that provided at-risk	Strong Cities and
	infrastructure better protection	Communities
	# of properties or infrastructure	
	protected due to the project	
Capacity Building	# of capacity building projects investing	Strong Cities and
	in asset management and/or long term	Communities
	municipal planning
