**TOWN OF CARBONEAR MUNICIPAL PLAN
LAND USE, ZONING, SUBDIVISION AND ADVERTISEMENT REGULATIONS
(DEVELOPMENT REGULATIONS)**

APPLICATION

1. Short Title

These Regulations may be cited as the Carbonear Development Regulations.

2. Interpretation

- (1) Words and phrases used in these Regulations shall have the meanings ascribed to them in Schedule A.
- (2) Words and phrases not defined in Schedule A shall have the meanings which are commonly assigned to them in the context in which they are used in the Regulations.

3. Commencement

These Regulations come into effect throughout the Carbonear Municipal Planning Area, hereinafter referred to as the Planning Area, on the date of publication of a notice to that effect in the Newfoundland Gazette.

4. Municipal Code and Regulations

The Building Code including the Plumbing Code, the Fire Code, the Electrical Code, and any other ancillary code and any Building Regulations, Waste Disposal Regulation and/or any other municipal regulations regulating or controlling the development, conservation and use of land in force in the Town of Carbonear, shall, under these Regulations apply to the entire Planning Area.

5. Authority

In these Regulations, “Authority” means the Council of the Town of Carbonear.

PART I - GENERAL REGULATIONS

6. Compliance With Regulations

No development shall be carried out within the Planning Area except in accordance with these Regulations.

7. Permit Required

No person shall carry out any development within the Planning Area except where otherwise provided in these Regulations unless a permit for the development has been issued by the Authority.

8. Permit to be Issued

Subject to Regulations 9 and 10, a permit shall be issued for development within the Planning Area that conforms to:

- (a) the general development standards set out in Part II of these Regulations, the requirements of Part V of these Regulations, and the use classes, standards, requirements, and conditions prescribed in Schedule C of these Regulations for the use zone in which the proposed development is located;
- (b) the standards set out in the Building Code and/or other ancillary codes, and any Building Regulations, Waste Disposal Regulations, and/or any other municipal regulation in force in the Planning Area regulating or controlling development, conservation and use of land and buildings;
- (c) the standards set out in Part III of these Regulations in the case of advertisement;
- (d) the standards set out in Part IV of these Regulations in the case of subdivision;
- (e) the standards of design and appearance established by the Authority.

9. Permit Not to be Issued in Certain Cases

Neither a permit nor approval in principle shall be issued for development within the Planning Area when, in the opinion of the Authority, it is premature by reason of the site lacking adequate road access, power, drainage, sanitary facilities, or domestic water supply, or being beyond the natural development of the area at the time of application unless the applicant contracts to pay the full cost of construction of the services deemed necessary by the Authority and such cost shall attach to and upon the property in respect of which it is imposed.

10. Discretionary Powers of Authority

- (1) In considering an application for a permit or for approval in principle to carry out development, the Authority shall take into account the policies expressed in the Municipal Plan and any further scheme, plan or regulations pursuant thereto, and shall assess the general appearance of the development of the area, the amenity of the surroundings, availability of utilities, public safety and convenience, and any other considerations which are, in its opinion, material, and notwithstanding the conformity of the application with the requirements of these Regulations, the Authority may, in its discretion, and as a result of its consideration of the matters set out in this Regulation, conditionally approve or refuse the application.
- (2) An authority may, in its discretion, determine the uses that may or may not be developed in a use zone and those uses shall be listed in the authority's regulations as discretionary, permitted or prohibited uses for that area

11. Variances

- (1) Where an approval or permit cannot be given by the Authority because a proposed development does not comply with development standards set out in development regulations, the Authority may, in its discretion, vary the applicable development

standards to a maximum of 10% if, in the authority's opinion, compliance with the development standards would prejudice the proper development of the land, building or structure in question or would be contrary to public interest.

- (2) The Authority shall not allow a variance from development standards set out in development regulations if that variance, when considered together with other variances made or to be made with respect to the same land, building or structure, would have a cumulative effect that is greater than a 10% variance even though the individual variances are separately no more than 10%.
- (3) The Authority shall not permit a variance from development standards where the proposed development would increase the non conformity of an existing development.

12. Notice of Variance

Where the Authority is to consider a proposed variance, the Authority shall give written notice of the proposed variance from development standards to all persons whose land is in the immediate vicinity of the land that is the subject of the variance, and allow a minimum period of 7 days for response.

13. Service Levy

- (1) The Authority may require a developer to pay a service levy where development is made possible or where the density of potential development is increased, or where the value of property is enhanced by the carrying out of public works either on or off the site of the development.

- (2) A service levy shall not exceed the cost, or estimated cost, including finance charges to the Authority of constructing or improving the public works referred to in Regulation 13(1) that are necessary for the real property to be developed in accordance with the standards required by the Authority and for uses that are permitted on that real property.
- (3) A service levy shall be assessed on the real property based on:
 - (a) the amount of real property benefited by the public works related to all the real property so benefited; and,
 - (b) the density of development made capable or increased by the public work.
- (4) The Authority may require a service levy to be paid by the owner of the real property;
 - (a) at the time the levy is imposed;
 - (b) at the time development of the real property commences;
 - (c) at the time development of the real property is completed; or,
 - (d) at such other time as the Authority may decide.

14. Financial Guarantees by Developer

- (1) The Authority may require a developer before commencing a development to make such financial provisions and/or enter into such agreements as may be required to guarantee the payment of service levies, ensure site reinstatement, and to enforce the carrying out of any other condition attached to a permit or licence.
- (2) The financial provisions pursuant to Regulation 14(1) may be made in the form of:
 - (a) a cash deposit from the developer, to be held by the Authority, or;
 - (b) a guarantee by a bank, or other institution acceptable to the Minister, for expenditures by the developer, or;

- (c) a performance bond provided by an insurance company or a bank, or;
- (d) an annual contribution to a sinking fund held by the Authority, or;
- (f) another form of financial guarantee that the Authority may approve.

15. Dedication of Land for Public Use

In addition to the requirements for dedication of land under Regulation 78, the Authority may require the dedication of a percentage of the land area of any subdivision or other development for public use, and such land shall be conveyed to the Authority in accordance with the provisions of the Act.

16. Reinstatement of Land

Where the use of land is discontinued or the intensity of its use is decreased, the Authority may order the developer, the occupier of the site, or the owner or all of them to reinstate the site, to remove all or any buildings or erections, to cover or fill all wells or excavations, and to close all or any accesses, or to do any of these things or all of them, as the case may be, and the developer, occupier or owner shall carry out the order of the Authority and shall put the site in a clean and sanitary condition to the satisfaction of the Authority.

17. Form of Application

- (1) An application for a development permit or for approval in principle shall be made only by the owner or by a person authorized by the owner to the Authority on such form as may be prescribed by the Authority, and every application shall include such plans, specifications and drawings as the Authority may require, and be accompanied by the permit fee required by the Authority.

- (2) The Authority shall supply to every applicant a copy of the application forms referred to in Regulation 17(1) and a description of the plans, specifications and drawings required to be provided with the application and any information or requirements applicable to the application.

18. Register of Application

The Authority shall keep a public register of all applications for development, and shall enter therein the Authority's decision upon each application and the result of any appeal from that decision.

19. Deferment of Application

- (1) The Authority may, with the written agreement of the applicant, defer consideration of an application.
- (2) Applications properly submitted in accordance with these Regulations which have not been determined by the Authority and on which a decision has not been communicated to the applicant within eight weeks of the receipt thereof by the Authority, and on which consideration has not been deferred in accordance with Regulation 18(1), shall be deemed to be refused.

20. Approval in Principle

- (1) The Authority may grant approval in principle for the erection, alteration or conversion of a building if, after considering an application for approval in principle made under these Regulations, it is satisfied that the proposed development is, subject to the approval of detailed plans, in compliance with these Regulations.

- (2) Where approval in principle is granted under this Regulation, it shall be subject to the subsequent approval by the Authority of such details as may be listed in the approval in principle, which shall also specify that further application for approval of these details shall be received not later than two years from the grant of approval in principle.

21. Development Permit

- (1) A plan or drawing which has been approved by the Authority and which bears a mark and/or signature indicating such approval together with a permit shall be deemed to be permission to develop land in accordance with these Regulations but such permission shall not relieve the applicant from full responsibility for obtaining permits or approvals under any other regulation or statute prior to commencing the development; from having the work carried out in accordance with these Regulations or any other regulations or statutes; and from compliance with all conditions imposed thereunder.
- (2) The Authority may attach to a permit or to approval in principle such conditions as it deems fit in order to ensure that the proposed development will be in accordance with the purposes and intent of these Regulations.
- (3) Where the Authority deems necessary, permits may be issued on a temporary basis for a period not exceeding two years, which may be extended in writing by the Authority for further periods not exceeding two years.
- (4) A permit is valid for such period, not in excess of two years, as may be stated therein, and if the development has not commenced, the permit may be renewed for a further period not in excess of one year, but a permit shall not be renewed more than once, except in the case of a permit for an advertisement, which may be renewed in accordance with Part III of these Regulations.

- (5) The approval of any application and plans or drawings or the issue of a permit shall not prevent the Authority from thereafter requiring the correction of errors, or from ordering the cessation, removal of, or remedial work on any development being carried out in the event that the same is in violation of this or any other regulations or statute.
- (6) The Authority may revoke a permit for failure by the holder of it to comply with these Regulations or any condition attached to the permit or where the permit was issued in error or was issued on the basis of incorrect information.
- (7) No person shall erase, alter or modify any drawing or specifications upon which a permit to develop has been issued by the Authority.
- (8) There shall be kept available on the premises where any work, matter or thing in being done for which a permit has been issued, a copy of the permit and any plans, drawings or specifications on which the issue of the permit was based during the whole progress of the work, or the doing of the matter or thing until completion.

22. Reasons for Refusing Permit

The Authority shall, when refusing to issue a permit or attaching conditions to a permit, state the reasons for so doing.

23. Notice of Right to Appeal

Where the Authority makes a decision that may be appealed under section 42 of the Act, the Authority shall, in writing, at the time of making that decision, notify the person to whom the decision applies of the:

- (a) person's right to appeal the decision to the board;
- (b) time by which an appeal is to be made;
- (c) right of other interested persons to appeal the decision; and
- (d) manner of making an appeal and the address for the filing of the appeal.

24. Appeal Requirements

- (1) The secretary of the Appeal Board at the Department of Municipal and Provincial Affairs, Main Floor, Confederation Building (West Block), P.O. Box 8700, St. John's, Nfld., A1B 4J6 is the secretary to all Appeal Boards in the province and an appeal filed with that secretary within the time period referred to in subsection 42(4) of the Act shall be considered to have been filed with the appropriate Appeal Board.
- (2) The fee required under section 44 of the Act shall be paid to the Appeal Board that hears the decision being appealed by filing it with the secretary referred to in subsection (1) or (2) within the 14 days referred to in subsection 42(4) of the Act.
- (3) The Appeal Board that hears the decision being appealed shall, subject to subsection 44(3) of the Act, retain the fee paid to the Appeal Board.
- (4) Where an appeal of a decision and the required fee is not received by an Appeal Board in accordance with this section and Part VI of the Act, the right to appeal that decision shall be considered to have been forfeited.

25. Appeal Registration

- (1) Upon receipt of an appeal and fee as required under the Act and these regulations, the secretary of the Appeal Board as referred to in subsections 24(1) and (2), shall immediately register the appeal.
- (2) Where an appeal has been registered the secretary of the Appeal Board shall notify the Authority of the appeal and shall provide to the Authority a copy of the appeal and the documentation related to the appeal.
- (3) Where the Authority has been notified of an appeal that Authority shall within one week of notification forward to the appropriate board a copy of the application being appealed, all correspondence, council minutes, plans and other relevant information relating to the appeal including the names and addresses of the applicant and other interested persons of whom the authority has knowledge.
- (4) Upon receipt of the information under subsection (3), the secretary of the board shall publish in a newspaper circulated in the area of the appropriate authority, a notice that the appeal has been registered.
- (5) A notice published under subsection (4) shall be published not fewer than 2 weeks before the date upon which the appeal is to be heard by the board.

26. Development Prohibited

- (1) Immediately upon notice of the registration of an appeal the Authority shall ensure that any development upon the property that is the subject of the appeal ceases.
- (2) Sections 102 and 104 of the Act apply to the Authority acting under subsection (1).

- (3) Upon receipt of a notification of the registration of an appeal with respect to an order under section 102 of the Act, the Authority shall not carry out work related to the matter being appealed.

27. Appeal Board

- (1) The minister may, by order, establish an Appeal Board and shall assign to the Appeal Board a specific area of the province over which it shall have jurisdiction, as outlined in section 40, of the Act.

28. Appeals

- (1) A person or an association of persons aggrieved of a decision that, under the regulations, may be appealed, may appeal that decision to the appropriate Appeal Board where the decision is with respect to
 - (a) an application to undertake a development;
 - (b) a revocation of an approval or a permit to undertake a development;
 - (c) the issuance of a stop work order; and
 - (d) a decision permitted under the Act or another Act to be appealed to the board.
- (2) A decision of the Authority to adopt, approve or proceed with a municipal plan, a scheme, development regulations and amendments and revisions of them is final and not subject to an appeal.
- (3) An Appeal Board shall not make a decision that does not comply with the municipal plan, a scheme and development regulations that apply to the matter being appealed.

- (4) An appeal shall be filed with the Appeal Board not more than 14 days after the person who made the original application appealed from has received the decision being appealed.
- (5) An appeal shall be made in writing and shall include
 - (a) a summary of the decision appealed from;
 - (b) the grounds for the appeal; and
 - (c) the required fee.
- (6) A person or group of persons affected by the subject of an appeal or their representatives may appear before an Appeal Board and make representations concerning the matter under appeal.
- (7) An Appeal Board may inform itself of the subject matter of the appeal in the manner it considers necessary to reach a decision.
- (8) An Appeal Board shall consider and determine appeals in accordance with the Act and the municipal plan, scheme and regulations that have been registered under section 24, of the Act, and having regard to the circumstances and merits of the case.
- (9) A decision of the Appeal Board must comply with the plan, scheme or development regulations that apply to the matter that has been appealed to that board.
- (10) In determining an appeal, an Appeal Board may confirm, reverse or vary the decision appealed from and may impose those conditions that the board considers appropriate in the circumstances and may direct the Authority to carry out its decision or make the necessary order to have its decision implemented.

- (11) Notwithstanding subsection (10), where the Authority may, in its discretion, make a decision, an Appeal Board shall not make another decision that overrules the discretionary decision.
- (12) The decision of a majority of the members of an Appeal Board present at the hearing of an appeal shall be the decision of the Appeal Board.
- (13) An Appeal Board shall, in writing notify the appellant and the appropriate Authority of the decision of the Appeal Board.

29. Hearing Notice and Meetings

- (1) An Appeal Board shall notify the appellant, applicant, authority and other persons affected by the subject of an appeal of the date, time and place for the appeal not fewer than 7 days before the date scheduled for the hearing of the appeal.
- (2) An Appeal Board may meet as often as is necessary to conduct its work in an expeditious manner.

30. Hearing of Evidence

- (1) An Appeal Board shall meet at a place within the area under its jurisdiction and the appellant and other persons notified under regulation 29(1) or their representative may appear before the Appeal Board and make representations with respect to the matter being appealed.
- (2) An Appeal Board shall hear an appeal in accordance with section 43 of the Act and these regulations.

- (3) A written report submitted under subsection 43(2) of the Act respecting a visit to and viewing of a property shall be considered to have been provided in the same manner as evidence directly provided at the hearing of the Appeal Board.
- (4) In the conduct of an appeal hearing, the Appeal Board is not bound by the rules of evidence.

31. Return of Appeal Fee

Where an appeal made by an appellant under section 42 of the Act, is successful, an amount of money equal to the fee paid by that appellant under regulation 24(2) shall be paid to him or her by the Authority.

32. Notice of Application

The Authority may, and when a variance is necessary under Regulation 11 and the Authority wishes to consider whether to authorize such a variance, when a change in nonconforming use is to be considered under Regulation 49, or when the development proposed is listed as a discretionary use in Schedule C of the Regulations shall, at the expense of the applicant, give notice of an application for a permit or for approval in principle, by public advertisement in a newspaper circulating in the area or by any other means deemed necessary, and under Regulation 12 and the Authority shall give written notice of the proposed variance from development standards to all persons whose land is in the immediate vicinity of the land that is the subject of the variance, and allow a minimum period of 7 days for response.

33. Right of Entry

The Authority, the Director, or any inspector may enter upon any public or private land and may at all reasonable times enter any development or building upon the land for the purpose of making surveys or examinations or obtaining information relative to the carrying out of any development, construction, alteration, repair, or any other works whatsoever which the Authority is empowered to regulate.

34. Record of Violations

Every inspector shall keep a record of any violation of these regulations which comes to his knowledge and report that violation to the Authority.

35. Stop Work Order and Prosecution

- (1) Where a person begins a development contrary or apparently contrary to these Regulations, the Authority may order that person to stop the development or work connected therewith pending final adjudication in any prosecution arising out of the development.

- (2) A person who does not comply with an order made under Regulation 35(1) is guilty of an offence under the provisions of the Act.

36 Delegation of Powers

An authority shall, where designating employees to whom a power is to be delegated under subsection 109(3) of the Act, make that designation in writing.

PART II - GENERAL DEVELOPMENT STANDARDS

37. Accesses and Service Streets

- (1) Access shall be located to the specification of the Authority so as to ensure the greatest possible convenience and safety of the street system and the Authority may prescribe the construction of service streets to reduce the number of accesses to collector and arterial streets.
- (2) No vehicular access shall be closer than 10 metres to the street line of any street intersection.

38. Accessory Buildings

- (1) Accessory buildings shall be clearly incidental and complementary to the use of the main buildings in character, use and size, and shall be contained on the same lot.
- (2) ~~No accessory building or part thereof shall project in front of any building line.~~
 - (A) *No accessory building or part thereof shall project in front of any building, and/or building line. No accessory building shall be located closer to the street line than the main residential dwelling.*

Amendment No. 13, 2008
 - (B) *In the case of a legal backlot development, Council shall exercise discretion when considering an accessory building projecting in front of a building line as established on the backlot.*

Amendment No. 18, 2010
- (3) The sideyard requirements set out in the use zone tables in these Regulations shall apply to accessory buildings wherever they are located on the lot but accessory buildings on two (2) adjoining properties may be built to property boundaries provided they shall be of fire resistant construction and have a common firewall.

39. Advertisements

Advertisements shall not be erected or displayed except in accordance with Part III of these Regulations.

40. Buffer Strips

Where any industrial development permitted in any Use Zone abuts an existing or proposed residential area, or is separated from it by a road only, the owner of the site of the industrial development shall provide a buffer strip not less than ten (10) metres wide between any residential activity and the industrial area. The buffer shall include the provision of such natural or structural barrier as may be required by the Authority and shall be maintained by the owner or occupier to the satisfaction of the Authority.

41. Building Height

The Authority may permit the erection of buildings of a height greater than that specified in Schedule C, but in such cases the building line setback and rearyard requirements shall be varied as follows:

- (1) The building line setback shall be increased by 2 metres for every 1 metre increase in height.
- (2) The rearyard shall not be less than the minimum building line setback calculated as described in (1) above plus 6 metres.

42. Building Line and Setback

The Authority, by resolution, may establish building lines on an existing or proposed street or service street and may require any new buildings to be located on those building lines, whether or not such building lines conform to the standards set out in the tables in Schedule C of these Regulations.

43. Family and Group Care Centres

Family group care centre use is permitted in any dwelling or apartment that is adequate in size to accommodate the number of persons living in the group, inclusive of staff, provided that in the opinion of the Authority, the use of the dwelling does not materially differ from, nor adversely affect, the amenities of the adjacent residences, or the neighbourhood in which it is located. The Authority may require special access and safety features to be provided for the occupants before occupancy is permitted.

44. Height Exceptions

The height requirements prescribed in Schedule C of these Regulations may be waived in the case of communication masts and antennae, flagpoles, water towers, spires, belfries, or chimneys, but any such waiver which results in an increase of more than 10% the permitted height of the structure shall only be authorized under the provisions of Regulation 11.

45. Livestock Structures and Uses

- (1) No structure designed to contain more than five animal units shall be erected or used unless it complies with the following requirements:
 - (a) The structure shall be at least 600 m from a residence, (except a farm residence or a residence which is a non-conforming use in any zone in which agriculture is a permitted use class in the Use Zone Tables in Schedule C of these Regulations), and, from an area designated for residential use in an approved Plan, and, from a Provincial or Federal Park.
 - (b) The structure shall be at least 60 m from the boundary of the property on which it is to be erected.
 - (c) The structure shall be at least 90 m from the centre line of a street.
 - (d) The erection of the structure shall be approved by the Department of Forest Resources & Agrifoods and the Department of Environment.
- (2) No development for residential use shall be permitted within 600 m of an existing structure designed to contain more than five animal units unless the development is first approved by the Department of Forest, Resources and Agrifoods.

46. Lot Area

- (1) No lot shall be reduced in area, either by the conveyance or alienation of any portion thereof or otherwise, so that any building or structure on such lot shall have a lot coverage that exceeds, or a front yard, rear yard, side yard, frontage or lot area that is less than that permitted by these Regulations for the zone in which such lot is located.
- (2) Where any part of a lot is required by these Regulations to be reserved as a yard, it shall continue to be so used regardless of any change in the ownership of the lot or any part thereof, and shall not be deemed to form part of an adjacent lot for the purpose of computing the area thereof available for building purposes.

47. Lot Area and Size Exceptions

Where, at the time of coming into effect of these Regulations, one or more lots already exist in any residential zone, with insufficient frontage or area to permit the owner or purchaser of such a lot or lots to comply with the provisions of these Regulations, then these Regulations shall not prevent the issuing of a permit by the Authority for the erection of a

dwelling thereon, provided that the lot coverage and height are not greater than, and the yards and floor area are not less than the standards set out in these Regulations.

48. Lot Frontage

Except where specifically provided for in the Use Zone Tables in Schedule C of these Regulations, no residential or commercial building shall be erected unless the lot on which it is situated fronts directly onto a street or forms part of a Comprehensive Development Scheme.

49. Non-Conforming Use

- (1) Notwithstanding the Municipal Plan, scheme or regulations made under this Urban and Rural Planning Act, 2001, the Authority shall, in accordance with regulations made under this Act, allow a development or use of land to continue in a manner that does not conform with a regulation, scheme, or plan that applies to that land provided that the non-conforming use legally existed before the registration under section 24 of the Act, scheme or regulations made with respect to that kind of development or use.
- (2) Notwithstanding subsection (1), a right to resume a discontinued non-conforming use of land shall not exceed 12 months after that discontinuance.
- (3) A building, structure or development that does not conform to a scheme, plan or regulations made under the Act that is allowed to continue under subsection (1)
 - (a) shall not be internally or externally varied, extended or expanded unless otherwise approved by the Authority;
 - (b) shall not be structurally modified except as required for the safety of the building, structure or development;
 - (c) shall not be reconstructed or repaired for use in the same non-conforming manner where 50% or more of the value of that building, structure or development has been destroyed;
 - (d) may have the existing use for that building, structure or development varied by the Authority to a use that is, in the Authority's opinion, more compatible with the plan and regulations applicable to it;
 - (e) may have the existing building extended by approval of the Authority where, in the Authority's opinion, the extension is not more than 50% of the existing building;
 - (f) where the non-conformance is with respect to the standards included in these development regulations, shall not be expanded if the expansion would

- increase the non-conformity;
- (g) where a building, structure or development does not meet the development standards included in development regulations, the building, structure or development shall not be expanded if the expansion would increase the non-conformity and an expansion must comply with the development standards applicable to that building, structure or development.
- (h) where the building or structure is primarily zoned and used for residential purposes, may, in accordance with the municipal plan and regulations, be repaired or rebuilt where 50% or more of the value of that building or structure is destroyed.
- (i) Where considering a non conforming building, structure or development and before making a decision to vary an existing use of that non-conforming building, structure or development, the Authority, at the applicant's expense, shall publish a notice in a newspaper circulating in the area or by other means give public notice of an application to vary the existing use of a non-conforming building, structure or development and shall consider any representations or submissions received in response to that advertisement.

50. Offensive and Dangerous Uses

No building or land shall be used for any purpose which may be dangerous by causing or promoting fires or other hazards or which may emit noxious, offensive or dangerous fumes, smoke, gases, radiation, smells, ash, dust or grit, excessive noise or vibration, or create any nuisance that has an unpleasant effect on the senses unless its use is authorized by the Authority and any other authority having jurisdiction.

51. Offstreet Parking Requirements

- (1) For every building, structure or use to be erected, enlarged or established, there shall be provided and maintained a quantity of off-street parking spaces sufficient to ensure that the flow of traffic on adjacent streets is not impeded by the on-street parking of vehicles associated with that building, structure or use.
- (2) The number of parking spaces to be provided for any building, structure, use or occupancy shall conform to the standards set out in Schedule D of these Regulations.
- (3) Each parking space, except in the case of one or two-family dwellings, shall be made accessible by means of a hard surfaced right-of-way at least 3 m in width. Parking required in a Residential Zone shall be provided on the same lot as the dwelling or dwellings. Parking space for apartments shall be provided in the rear yard where possible. In a Non-Residential Zone, parking spaces shall be provided within the limits of the zone in which the use is situated and not more than 200 m distant from

the use concerned.

- (4) The parking facilities required by this Regulation shall, except in the case of single or attached dwellings, be arranged so that it is not necessary for any vehicle to reverse onto or from a street.
- (5) Where, in these Regulations, parking facilities for more than four vehicles are required or permitted:
 - (a) parking space shall mean an area of land, not less than 15 m² in size, capable of being used for the parking of a vehicle without the need to move other vehicles on adjacent areas;
 - (b) the parking area shall be constructed and maintained to the specifications of the Authority;
 - (c) the lights used for illumination of the parking area shall be so arranged as to divert the light away from adjacent development;
 - (d) a structure, not more than 3 m in height and more than 5 m² in area may be erected in the parking area for the use of attendants in the area;
 - (e) except in zones in which a service station is a permitted use, no gasoline pump or other service station equipment shall be located or maintained on a parking area;
 - (f) no part of any off-street parking area shall be closer than 1.5 m to the front lot line in any zone;
 - (g) access to parking areas in non-residential zones shall not be by way of residential zones;
 - (h) where a parking area is in or abuts a residential zone, a natural or structural barrier at least 1 m in height shall be erected and maintained along all lot lines;
 - (i) where, in the opinion of the Authority, strict application of the above parking requirements is impractical or undesirable, the Authority may as a condition of a permit require the developer to pay a service levy in accordance with these Regulations in lieu of the provision of a parking area, and the full amount of the levy charged shall be used by the Authority for the provision and upkeep of alternative parking facilities within the general vicinity of the development.

52. Off-Street Loading Requirements

- (1) For every building, structure or use to be erected, enlarged or established requiring the shipping, loading or unloading of animals, goods, wares or merchandise, there shall be provided and maintained for the premises loading facilities on land that is not part of a street comprised of one or more loading spaces, 15 m long, 4 m wide, and having a vertical clearance of at least 4 m with direct access to a street or with access by a driveway of a minimum width of 6 m to a street.

- (2) The number of loading spaces to be provided shall be determined by the Authority.
- (3) The loading facilities required by this Regulation shall be so arranged that vehicles can manoeuvre clear of any street and so that it is not necessary for any vehicle to reverse onto or from a street.

53. Parks and Playgrounds, and Conservation Uses

Nothing in these Regulations shall prevent the designation of conservation areas or the establishment of parks and playgrounds in any zones provided that such parks and playgrounds are not located in areas which may be hazardous to their use and are not operated for commercial purposes.

54. Screening and Landscaping

The Authority may, in the case of existing unsightly development, order the owner or occupier to provide adequate and suitable landscaping or screening; and for this purpose may require the submission of an application giving details of the landscaping or screening, and these Regulations shall then apply to that application. The provision of adequate and suitable landscaping or screening may be made a condition of any development permit where, in the opinion of the Authority, the landscaping or screening is desirable to preserve amenity, or protect the environment.

55. Services and Public Utilities

The Authority may within any zone permit land to be used in conjunction with the provision of public services and public utilities if the use of that land is necessary to the proper operation of the public service or public utility concerned provided that the design and landscaping of any development of any land so used is, in the opinion of the Authority, adequate to protect the character and appearance of the area.

56. Service Stations

The following requirements shall apply to all proposed service stations:

- (a) All gasoline pumps shall be located on pump islands designed for such purpose, and to which automobiles may gain access from either side.
- (b) Pump islands shall be set back at least 4 metres from the front lot line.
- (c) Accesses shall not be less than 7 metres wide and shall be clearly marked, and where a service station is located on a corner lot, the minimum distance between an access and the intersection of street lines at the junction shall be 10 metres and the lot line between entrances shall be clearly indicated.

57. Side Yards

A sideyard which shall be kept clear of obstruction shall be provided on the exposed sides of every building in order to provide access for the maintenance of that building.

58. Street Construction Standards

A new street may not be constructed except in accordance with and to the design and specifications laid down by the Authority.

59. Subsidiary Apartments

Subsidiary apartments may be permitted in single dwellings only, and for the purposes of calculating lot area and yard requirements, shall be considered part of the self-contained dwelling.

60. Unsubdivided Land

Development is not permitted on unsubdivided land unless sufficient area is reserved to satisfy the yard and other allowances called for in the Use Zone in which it is located and the allowances shall be retained when the adjacent land is developed.

61. Zero Lot Line and Other Comprehensive Development

The Authority may, at its discretion, approve the erection of dwellings which are designed to form part of a zero lot line development or other comprehensive layout which does not, with the exception of dwelling unit floor area, meet the requirements of the Use Zone Table in Schedule C, provided that the dwellings are designed to provide both privacy and reasonable access to natural daylight and the overall density within the layout conforms to the regulations and standards set out in the Use Zone Table apply where the layout adjoins other development.

PART III - ADVERTISEMENTS

62. Permit Required

Subject to the provisions of Regulation 67, no advertisement shall be erected or displayed in the Planning Area unless a permit for the advertisement is first obtained from the Authority. Permit for erection or display of advertisement on Provincial Highways shall be obtain from the Government Service Centre.

63. Form of Application

Application for a permit to erect or display an advertisement shall be made to the authority in accordance with Regulation 17.

64. Advertisements Prohibited in Street Reservation

No advertisement shall be permitted to be erected or displayed within, on or over any highway or street reservation.

65. Permit Valid for Limited Period

A permit granted under these Regulations for the erection or display of an advertisement shall be for a limited period, not exceeding two years, but may be renewed at the discretion of the Authority for similar periods.

66. Removal of Advertisements

Notwithstanding the provisions of these Regulations, the Authority may require the removal of any advertisement which, in its opinion, is:

- (a) hazardous to road traffic by reason of its siting, colour, illumination, or structural condition, or;
- (b) detrimental to the amenities of the surrounding area.

67. Advertisements Exempt from Control

The following advertisements may be erected or displayed in the Planning Area without application to the Authority:

- (a) on a dwelling or within the courtyard of a dwelling, one nameplate not exceeding 0.2 m² in area;
- (b) on an agricultural holding or farm, a notice board not exceeding 1 m² in area and relating to the operations being conducted on the land;
- (c) on land used for forestry purposes, signs or notices not exceeding 1 m² in area and relating to forestry operations or the location of logging operations conducted on the

- land;
- (d) on land used for mining or quarrying operations, a notice board not exceeding 1 m² in area relating to the operation conducted on the land;
- (e) on a dwelling or within the curtilage of a dwelling, one nameplate not exceeding 0.2 m² in area in connection with the practice of a professional person carried on in the premises;
- (f) on any site occupied by a church, school, library, art gallery, museum, institution or cemetery, one notice board not exceeding 1 m² in area;
- (g) on the principal facade of any commercial, industrial or public building, the name of the building or the name of the occupants of the building, in letters not exceeding one-tenth of the height of that facade or 3 m, whichever is the lesser;
- (h) on any parking lot directional signs and one sign not exceeding 1 m² in size, identifying the parking lot.

68. Approval Subject to Conditions

A permit may only be issued for the erection or display of advertisements which comply with the appropriate conditions and specifications set out in the Use Zone Tables in Schedule C of these Regulations.

69. Non-Conforming Uses

Notwithstanding the provisions of Regulation 62, a permit may be used for the erection or display of advertisements on a building or within the courtyard of a building or on a parcel of land, the use of which is a non conforming use, provided that the advertisement does not exceed the size and type of advertisement which could be permitted if the development was in a Use Zone appropriate to its use, and subject to any other conditions deemed appropriate by the Authority.

PART IV - SUBDIVISION OF LAND

70. Permit Required

No land in the Planning Area shall be subdivided unless a permit for the development of the subdivision is first obtained from the Authority.

71. Services to be Provided

No permit shall be issued for the development of a subdivision unless provisions satisfactory to the Authority have been made in the application for a supply of drinking water, a properly designed sewage disposal system, and a properly designed storm drainage system.

72. Payment of Service Levies and Other Charges

No permit shall be issued for the development of a subdivision until agreement has been reached for the payment of all fees levied by the Authority for connection to services, utilities and streets deemed necessary for the proper development of the subdivision, and all service levies and other charges imposed under Regulations 13 and 14.

73. Issue of Permit Subject to Considerations

A permit shall not be issued when, in the opinion of the Authority, the development of a subdivision does not contribute to the orderly growth of the municipality and does not demonstrate sound design principles. In considering an application, the Authority shall, without limiting the generality of the foregoing, consider:

- (a) the location of the land;
- (b) the availability of and the demand created for schools, services, and utilities;
- (c) the provisions of the Plan and Regulations affecting the site;
- (d) the land use, physical form and character of adjacent developments;
- (e) the transportation network and traffic densities affecting the site;
- (f) the relationship of the project to existing or potential sources of nuisance;
- (g) soil and subsoil characteristics;
- (h) the topography of the site and its drainage;
- (i) natural features such as lakes, streams, topsoil, trees and shrubs;
- (j) prevailing winds;
- (k) visual quality;
- (l) community facilities;
- (m) energy conservation;
- (n) such other matters as may affect the proposed development.

74. Building Permits Required

Notwithstanding the approval of a subdivision by the Authority, a separate building permit shall be obtained for each building proposed to be erected in the area of the subdivision, and no building permit for any building in the area shall be issued until the developer has complied with all the provisions of these Regulations with respect to the development of the subdivision.

75. Form of Application

Application for a permit to develop a subdivision shall be made to the Authority in accordance with Regulation 17.

76. Subdivision Subject to Zoning

The subdivision of land shall be permitted only in conformity with the Use Zones delineated on the Zoning Maps.

77. Building Lines

The Authority may establish building lines for any subdivision street and require any new building to be located on such building lines.

78. Land for Public Open Space

- (1) Before a development commences, the developer shall, if required, dedicate to the Authority, at no cost to the Authority, an area of land equivalent to not more than 10% of the gross area of the subdivision or 25 m² for every dwelling unit permitted in the subdivision, whichever is the greater, for public open space, provided that:
 - (a) where land is subdivided for any purpose other than residential use, the Authority shall determine the percentage of land to be dedicated;
 - (b) if, in the opinion of the Authority, no public open space is required, the land may be used for such other public use as the Authority may determine;
 - (c) the location and suitability of any land dedicated under the provisions of this Regulation shall be subject to the approval of the Authority but in any case, the Authority shall not accept land which, in its opinion is incapable of development for any purpose;
 - (d) the Authority may accept from the developer in lieu of such area or areas of land the payment of a sum of money equal to the value of the land which would otherwise be required to be dedicated;
 - (e) money received by the Authority in accordance with Regulation 78(1)(d) above, shall be reserved by the Authority for the purpose of the acquisition or development of land for public open space or other public purpose.
- (2) Land dedicated for public use in accordance with this Regulation shall be conveyed to the Authority and may be sold or leased by the Authority for the purposes of any development that conforms with the requirements of these Regulations, and the proceeds of any sale or other disposition of land shall be applied against the cost of acquisition or development of any other land for the purposes of public open space or other public purposes.
- (3) The Authority may require a strip of land to be reserved and remain undeveloped along the banks of any river, brook or pond, and this land may, at the discretion of the Authority, constitute the requirement of land for public use under Regulation 78(1).

79. Structure in Street Reservation

The placing within any street reservation of any structure (for example, a hydro pole, telegraph or telephone pole, fire hydrant, mail box, fire alarm, sign post) shall receive the prior

approval of the Authority which shall be satisfied on the question of safe construction and relationship to the adjoining buildings and other structures within the street reservation.

80. Subdivision Design Standards

No permit shall be issued for the development of a subdivision under these Regulations unless the design of the subdivision conforms to the following standards:

- (a) The finished grade of streets shall not exceed 10 percent.
- (b) Every cul de sac shall be provided with a turning circle of a diameter of not less than 30 m.
- (c) The maximum length of any cul de sac shall be:
 - (i) 200m in areas served by or planned to be served by municipal piped water and sewer services, as shown in the map and letter of agreement signed by the Municipality and the Minister of Municipal and Provincial Affairs in connection with municipal five-year capital works program eligibility.
 - (ii) 300m in areas not served by or planned to be served by municipal piped water and sewer services.
- (d) Emergency vehicle access to a cul de sac shall be not less than 3 m wide and shall connect the head of the cul de sac with an adjacent street.
- (e) No cul de sac shall be located so as to appear to terminate a collector street.
- (f) New subdivisions shall have street connections with an existing street or streets.
- (g) All street intersections shall be constructed within 5° of a right angle and this alignment shall be maintained for 30 m from the intersection.
- (h) No street intersection shall be closer than 60 m to any other street intersection.
- (i) No more than four streets shall join at any street intersection.
- (j) No residential street block shall be longer than 490 m between street intersections.
- (k) Streets in residential subdivisions shall be designed in accordance with the approved standards of the Authority, but in the absence of such standards, shall conform to the following minimum standards:

Type of Street	Street Reservation	Pavement Width	Sidewalk Width	Sidewalk Number
----------------	--------------------	----------------	----------------	-----------------

Arterial Streets	30 m	15 m	1.5 m	discretion of Council
Collector Streets	20 m	15 m	1.5 m	2
Local Residential Streets: where more than 50% of the units are single or double dwellings;	15 m	9 m	1.5 m	1
where 50% or more of the units are row houses or apartments.	20 m	9 m	1.5 m	2
Service Streets	15 m	9 m	1.5 m	discretion of Council

- (l) No lot intended for residential purposes shall have a depth exceeding four times the frontage.
- (m) Residential lots shall not be permitted which abut a local street at both front and rear lot lines.
- (n) The Authority may require any existing natural, historical or architectural feature or part thereof to be retained when a subdivision is developed.
- (o) Land shall not be subdivided in such a manner as to prejudice the development of adjoining land.

81. Engineer to Design Works and Certify Construction Layout

- (1) Plans and specifications for all water mains, hydrants, sanitary sewers, storm sewers and all appurtenances thereto and all streets, paving, curbs, gutters and catch basins and all other utilities deemed necessary by the Authority to service the area proposed to be developed or subdivided shall be designed and prepared by or approved by the Engineer. Such designs and specifications shall, upon approval by the Authority, be incorporated in the plan of subdivision.

- (2) Upon approval by the Authority of the proposed subdivision, the Engineer shall certify all work of construction layout preliminary to the construction of the works and thereupon the developer shall proceed to the construction and installation, at his own cost and in accordance with the approved designs and specifications and the construction layout certified by the Engineer, of all such water mains, hydrants, sanitary sewers and all appurtenances and of all such streets and other works deemed necessary by the Authority to service the said area.

82. Developer to Pay Engineer's Fees and Charges

The developer shall pay to the Authority all the Engineer's fees and charges for the preparation of designs and specifications and for the layout and supervision of construction; such fees and charges being percentages of the total cost of materials and labour for the construction and installation of all works calculated in accordance with the Schedule of Fees recommended by the Association of Professional Engineers of Newfoundland and in effect at the time the work is carried out.

83. Street Works May Be Deferred

The construction and installation of all curbs and gutters, catch basins, sidewalks and paving specified by the Authority as being necessary, may, at the Authority's discretion, be deferred until a later stage of the work on the development of the subdivision but the developer shall deposit with the Authority before approval of his application, an amount estimated by the Engineer as reasonably sufficient to cover the cost of construction and installation of the works. In the later stage of the work of development, the Authority shall call for tenders for

the work of construction and installation of the works, and the amount so deposited by the developer shall be applied towards payment of the contract cost. If the contract cost exceeds the deposit, the developer shall pay to the Authority the amount of the excess. If the contract price is less than the deposit, the Authority shall refund the amount by which the deposit exceeds the contract price. Any amount so deposited with the Authority by the developer shall be placed in a separate savings account in a bank and all interest earned thereon shall be credited to the developer.

84. Transfer of Streets and Utilities to Authority

- (1) The developer shall, following the approval of the subdivision of land and upon request of the Authority, transfer to the Authority, at no cost to the Authority, and clear of all liens and encumbrances:
 - (a) all lands in the area proposed to be developed or subdivided which are approved and designated by the Authority for public uses as streets, or other rights-of-way, or for other public use;
 - (b) all services or public works including streets, water supply and distribution and sanitary an storm drainage systems installed in the subdivision that are normally owned and operated by the Authority.
- (2) Before the Authority shall accept the transfer of lands, services or public works of any subdivision, the Engineer shall, at the cost to the developer, test the streets, services and public works installed in the subdivision and certify his satisfaction with their installation.
- (3) The Authority shall not provide maintenance for any street, service or public work

in any subdivision until such time as such street, service or public work has been transferred to and accepted by the Authority.

85. Restriction on Sale of Lots

The developer shall not develop or dispose of any lot within a subdivision for the purposes of development and no building permit shall be issued until the Authority is satisfied that:

- (a) the lot can be served with satisfactory water supply and sewage disposal systems, and;
- (b) satisfactory access to a street is provided for the lots.

86. Grouping of Buildings and Landscaping

- (1) Each plan of subdivision shall make provision for the grouping of building types and for landscaping in order to enhance the visual aspects of the completed development and to make the most use of existing topography and vegetation.
- (2) Building groupings, once approved by the Authority, shall not be changed without written application to and subsequent approval of the Authority.

PART V - USE ZONES

87. Use Zones

- (1) For the purpose of these Regulations, the Planning Area is divided into Use Zones which are shown on the Zoning Map attached to and forming part of these Regulations.
- (2) Subject to Regulation 87(3), the permitted use classes, discretionary use classes, standards, requirements and conditions applicable to each Use Zone are set out in the Use Zone Tables in Schedule C of these Regulations.
- (3) Where standards, requirements and conditions applicable in a Use Zone are not set out in the Use Zone Tables in Schedule C, the Authority may in its discretion, determine the standards, requirements and conditions which shall apply.

88. Use Classes

The specific uses to be included in each Use Class set out in the Use Zone Tables in Schedule C shall be determined by the Authority in accordance with the classification and examples set out in Schedule B.

89. Permitted Uses

Subject to these Regulations, the uses that fall within the Permitted Use Classes set out in the appropriate Use Zone Table in Schedule C shall be permitted by the Authority in that Use Zone.

90. Discretionary Uses

Subject to these Regulations, the uses that fall within the Discretionary Use Classes set out in the appropriate Use Zone Table in Schedule C may be permitted in that Use Zone if the Authority is satisfied that the development would not be contrary to the general intent and purpose of these Regulations, the Municipal Plan, or any further scheme or plan or regulation pursuant thereto, and to the public interest, and if the Authority has given notice of the application in accordance with Regulation 32 and has considered any objections or representations which may have been received on the matter.

91. Uses Not Permitted

Uses that do not fall within the Permitted Use Classes or Discretionary Use Classes set out in the appropriate Use Zone Tables in Schedule C, shall not be permitted in that Use Zone.

SCHEDULE A

DEFINITIONS

ACCESS: A way used or intended to be used by vehicles, pedestrians or animals in order to go from a street to adjacent or nearby land or to go from that land to the street.1

ACCESSORY BUILDING:

- (i) A detached subordinate building not used as a dwelling, located on the same lot as the main building to which it is an accessory and which has a use that is customarily incidental or complementary to the main use of the building or land,
- (ii) for residential uses, domestic garages, carports, ramps, sheds, swimming pools, greenhouses, cold frames, fuel sheds, vegetables storage cellars, shelters for domestic pets or radio and television antennae,

Development may be permitted only in accordance with a plan of subdivision approved by the Government Service Centre and the Water Resources Division, Department of Environment and Conservation.

3. Accessory Buildings

- (i) An accessory building on a lot which has a single family dwelling shall have a lot coverage no greater than 7%, up to a maximum of 81 m², and a height of no more than 4.5 m; that a two-story accessory building could be constructed at a maximum height of 6.1 m, with the first floor area of a maximum of 50 m², and first floor to the ceiling being a maximum height of 2.64 m; and
- (ii) no accessory building shall project in front of any building line setback.

USE ZONE TABLE

ZONE TITLE	COMMERCIAL - GENERAL	(CG)
PERMITTED USE CLASSES - (see Regulation 89) Theatre, all classes of general assembly division, place of worship, all classes in the business professional and personal service division, all classes in the retail sale and display division other than outdoor market.		
DISCRETIONARY USE CLASSES - (see Regulations 32 and 90) Commercial residential, outdoor market, light industry, service station, supplementary attached residence, antenna, taxi stand, take-out food service and general industry.		

CONDITIONS

1. Development Standards

The development standards for this zone shall be as follows:

- (i) Minimum Building Line shall conform with similar commercial uses in the vicinity, but where none are present, the setback shall be as determined by Council;
- (ii) Minimum Sideyard Width, except where buildings are built with adjoining party walls 5 metres
 - * *The side yard requirement may be reduced on one side if the wall of the building on the side yard to be reduced is constructed of non-combustible material and has no openings.*
- (iii) Minimum Rearyard Depth 10 metres
- (iv) Maximum Height 15 metres

Development of permitted and discretionary uses is conditional upon municipal water and sewer services being directly available to sites proposed for development.

2. Advertisements Relating to Onsite Uses

The conditions which shall apply to the erection or display of an advertisement on any lot or site occupied by a use permitted or existing as a legal non-conforming use in this use zone, shall be as follows:

- (i) the size, shape, illumination and material construction of the advertisement shall meet the requirements of the Council, having regard to the safety and convenience of users of adjacent streets and sidewalks, and the general amenities of the surrounding area; and
- (ii) no advertisement shall exceed 5 m² in area.

3. Advertisements Relating to Offsite Uses

The conditions to be applied to the erection or display of an advertisement on any site, relating to a use permitted in this or another zone, or not relating to a specific land use, shall be as follows:

- (i) each advertisement shall not exceed 3 m² in area.
- (ii) when the advertisements relate to a specific land use, they shall be located within a reasonable distance of, and only show thereon the name and nature of the distance or direction to the premises to which they relate; and
- (iii) the location, siting and illumination of each advertisement shall be to the satisfaction of the Council, having regard to the grade and alignment of streets, the location of street junctions, the location of nearby buildings and the preservation of the amenities of the surrounding area.

4. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Council provided that they are complimentary to uses within the permitted uses classes or that their development will not inhibit or prejudice the existence of the development of such uses.

5. Floodway

Development within the Floodway (1:20 year flood levels) designation shall be restricted to:

- (i) Temporary alterations in a buffer zone, a designated floodway or the body of water itself.
- (ii) Non-structural uses such as open space recreation, pasture, and wildlife habitat enhancement.

Development in the Floodway shall require the approval of the Water Resources Division, Department of Environment and Conservation

6. Floodway Fringe

Development in the Floodway Fringe (1:100 year flood zone) shall include public utilities, roads, bridges, marine related uses, industrial, commercial, and residential Uses.

Development within the Floodway Fringe designation shall meet the following conditions:

- (i) the ground floor elevation of the structure is higher than the 1:100 year flood level;
- (ii) the structure will not interfere with the flow of water or displace water such that it creates a worse flooding situation for other properties;
- (iii) the structure and associated utilities must be designed and constructed in accordance with approved flood proofing guidelines of the Department of Environment and Conservation, and entrances and exists from the building can be safely used without hindrance in the event of a flood; and
- (iv) the proposed use of the facility and site will not involve any storage of pollutants such as fuels, chemicals, pesticides, etc.

Development in the Floodway Fringe shall require the approval of the Water Resources Division, Department of Environment and Conservation.

7. Highway Access

The Department of Transportation and Works will not approve any new individual access onto Route 70/75 south of Powell Drive. Any new development in this area shall only be approved where access shall be via a service road connecting to an existing access. Any new development requiring a service road shall require the approval of the Department of Transportation and Works.

4. Office Permitted Use Class

The office permitted use class is restricted to office buildings intended to accommodate governmental, public utility, banking, medical clinic, or similar regionally significant services.

5. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Council provided that they are complimentary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses.

The following discretionary use classes may be permitted only within the building of a permitted use class:

Catering, child care, office (other than as defined by Condition 4), medical and professional, personal service, general service, convenience store.

USE ZONE TABLE

ZONE TITLE	RECREATION OPEN SPACE	(ROS)
PERMITTED USE CLASSES - (see Regulation 89) Recreational open space.		
DISCRETIONARY USE CLASSES - (see Regulations 32 and 90) Outdoor assembly, and take-out food service, Cultural and civic, child care, indoor assembly antenna.		

CONDITIONS

1. Discretionary and Special Use Classes

Use classes listed in this table as Discretionary uses may be permitted at the discretion of the Council provided that they are complimentary to permitted uses or that their development will not inhibit or prejudice the existence or the development of such uses.

2. Floodway

Development within the Floodway (1:20 year flood levels) designation shall be restricted to:

- (i) Temporary alterations in a buffer zone, a designated floodway or the body of water itself.
- (ii) Non-structural uses such as open space recreation, pasture, and wildlife habitat enhancement.

Development in the Floodway shall require the approval of the Water Resources Division, Department of Environment and Conservation

3. Floodway Fringe

Development in the Floodway Fringe (1:100 year flood zone) shall include public utilities, roads, bridges, marine related uses, industrial, commercial, and residential Uses.

Development within the Floodway Fringe designation shall meet the following conditions:

- (i) the ground floor elevation of the structure is higher than the 1:100 year flood level;
- (ii) the structure will not interfere with the flow of water or displace water such that it creates a worse flooding situation for other properties;
- (iii) the structure and associated utilities must be designed and constructed in accordance with approved flood proofing guidelines of the Department of Environment and Conservation, and entrances and exists from the building can be safely used without hindrance in the event of a flood; and
- (iv) the proposed use of the facility and site will not involve any storage of pollutants such as fuels, chemicals, pesticides, etc.

Development in the Floodway Fringe shall require the approval of the Water Resources Division, Department of Environment and Conservation.

USE ZONE TABLE

ZONE TITLE	CONSERVATION	(CON)
PERMITTED USE CLASSES - (see Regulation 89) Conservation.		
DISCRETIONARY USE CLASSES - (see Regulations 32 and 90) Recreational open space, access through to an adjacent zone.		

CONDITIONS

1. Discretionary Use Classes

The discretionary use classes listed in this Table may be permitted at the discretion of the Council provided that it is assured that proposed development will not significantly diminish the environmental quality of the area or reduce downstream water quality.

2. Archaeological Finds

In the event of an archaeological find occurring as a result of development in this or any other use zone, development of the site will cease and the developer will immediately notify the Council of the find.

3. Floodway

Development within the Floodway (1:20 year flood levels) designation shall be restricted to:

- (i) Temporary alterations in a buffer zone, a designated floodway or the body of water itself.
- (ii) Non-structural uses such as open space recreation, pasture, and wildlife habitat enhancement.

Development in the Floodway shall require the approval of the Water Resources Division, Department of Environment and Conservation

4. Floodway Fringe

Development in the Floodway Fringe (1:100 year flood zone) shall include public utilities, roads, bridges, marine related uses, industrial, commercial, and residential Uses.

Development within the Floodway Fringe designation shall meet the following conditions:

- (i) the ground floor elevation of the structure is higher than the 1:100 year flood level;
- (ii) the structure will not interfere with the flow of water or displace water such that it creates a worse flooding situation for other properties;
- (iii) the structure and associated utilities must be designed and constructed in accordance with approved flood proofing guidelines of the Department of Environment and Conservation, and entrances and exists from the building can be safely used without hindrance in the event of a flood; and
- (iv) the proposed use of the facility and site will not involve any storage of pollutants such as fuels, chemicals, pesticides, etc.

Development in the Floodway Fringe shall require the approval of the Water Resources Division, Department of Environment and Conservation.

USE ZONE TABLE

ZONE TITLE	RURAL	(RUR)
PERMITTED USE CLASSES - (see Regulation 89) Agriculture, forestry, and animal..		
DISCRETIONARY USE CLASSES - (see Regulations 32 and 90) Outdoor assembly, single dwelling, veterinary, outdoor market, general industry, mineral working, cemetery, antenna, and recreational open space.		

CONDITIONS

1. Advertisements Relating to Onsite Uses

The conditions which shall apply to the erection or display of an advertisement on any lot or site occupied by a use permitted or existing as a legal non-conforming use in this use zone, shall be as follows:

- (i) the size, shape, illumination and material construction of the advertisement shall meet the requirements of the Council, having regard to the safety and convenience of users of adjacent streets and sidewalks and the general amenities of the surrounding area; and
- (ii) no advertisement shall exceed 5 m² in area.

2. Advertisements Relating to Offsite Uses

The conditions to be applied to the erection or display of an advertisement on any site, relating to a use permitted in this or another zone or not relating to a specific land use, shall be as follows:

- (i) each advertisement shall not exceed 3 m² in area;
- (ii) when the advertisements relate to a specific land use, they shall be located within a reasonable distance of, and only show thereon the name and nature of and the distance or direction to the premises to which they relate; and
- (iii) the location, siting and illumination of each advertisement shall be to the satisfaction of the Council, having regard to the grade and alignment of streets, the location of street junctions, the location of nearby buildings and the preservation of the amenities of the surrounding area.

3. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Council provided that they are complementary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses. Particular limitations in this regard are as follows:

Single dwelling may be permitted only as an accessory use required in support of a commercial agricultural operation which has been in existence for a minimum of 2 years and where the owner derives a minimum of 50% of income.

General industry is restricted to maintenance and repair of equipment, processing and storage related to agriculture, forestry or mineral working uses, or other such uses as council may determine to be compatible with the rural environment.

4. Buffer Separation

No development for residential use shall be permitted within 600m of a structure designed to contain more than five animal units unless the development is first approved by the Department of Natural Resources.

5. Mineral Workings

Mineral workings may be permitted as a discretionary use. Where such a use has been approved by Council, conditions outlined in the Mineral Workings Land Use Zone shall apply.

USE ZONE TABLE

ZONE TITLE	MINERAL WORKINGS	(MW)
PERMITTED USE CLASSES - (see Regulation 89) Mineral Workings.		
DISCRETIONARY USE CLASSES - (see Regulations 32 and 90) General commercial, general industry, antenna.		

CONDITIONS

1. Advertisements Relating to Onsite Uses

The conditions which shall apply to the erection or display of an advertisement on any lot or site occupied by a use permitted or existing as a legal non-conforming use in this use zone, shall be as follows:

- (i) the size, shape, illumination and material construction of the advertisement shall meet the requirements of the Council, having regard to the safety and convenience of users of adjacent streets and sidewalks, and the general amenities of the surrounding area; and
- (ii) no advertisement shall exceed 5 m² in area.

2. Advertisements Relating to Offsite Uses

The conditions to be applied to the erection or display of an advertisement on any site, relating to a use permitted in this or another zone, or not relating to a specific land use, shall be as follows:

- (i) each advertisement shall not exceed 3 m² in area;
- (ii) when the advertisements relate to a specific land use, they shall be located within a reasonable distance of, and only show thereon the name and nature of the distance or direction to the premises to which they relate; and
- (iii) the location, siting and illumination of each advertisement shall be to the satisfaction of the Council, having regard to the grade and alignment of streets, the location of street junctions, the location of nearby buildings and the preservation of the amenities of the surrounding area.

3. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Council provided that they are complementary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses, and in the case of general commercial and general industry, that they are restricted to maintenance and repair of equipment, or the development of such other resource based industry as Council may determine to be environmentally compatible.

4. Separation from Adjacent Uses

Unless the Council is satisfied that the working will not create a nuisance and will not adversely affect the amenity of the specified development or natural feature, no mineral working shall be located closer than the minimum distances set out below to the specified development or natural feature:

From:	Minimum Distance of Pit and Quarry Workings
Existing or proposed Residential Development	300 metres
Any other developed area or area likely to be developed during the life of the pit or quarry working.	150 metres
Public highway or street	50 metres
Protected Road	90 metres
Water body or watercourse	50 metres

5. Screening

A mineral working shall be screened in the following manner where it is visible from a public street or highway, developed area, or area likely to be developed during the life of the use:

- (i) where tree screens exist between the mineral working and adjacent public highways and streets or other land uses (excepting forestry and agriculture), the tree screens shall be retained in a 30 m wide strip of vegetation so that visibility of any part of the use from the surrounding uses or streets will be prevented. The tree screens must be maintained by the owner or occupier of the use to retain 30 m in a forested appearance.

Where vegetation dies or is removed from the 30 m strip, the Council may require new trees of a minimum height of 1 m be planted to fill in the areas affected to the satisfaction of the Council or, at the discretion of the Council, condition 4(b) must be undertaken;

- (ii) where no tree screens exist of sufficient width and density to constitute a visual screen, earthen berms shall be constructed to a height sufficient to prevent visibility of any part of the mineral working from adjacent uses (excepting forestry and agriculture), or adjacent public highways and streets. The berms shall be landscaped to the Council's satisfaction;
- (iii) where natural topography creates a visual screen between mineral workings and adjacent public highways and streets or other land uses (excepting forestry and agriculture), additional screening may not be required; and
- (iv) where effective screening for any mineral working or associated processing or manufacturing use cannot be installed or located as required in (a) - (c) above, the Council may refuse to permit the use or associated activity.

6. Fencing

The Council may require the mineral working site or excavated areas of a pit or quarry working to be enclosed by a fence designed and constructed to its specifications and no less than 1.8 m in height.

7. Water Pollution

No mineral working or associated storm or sanitary drainage shall unacceptably reduce the quality of water in any water body or watercourse. Any access road to a pit or quarry working which crosses a brook or stream shall have bridges or culverts at the crossing in accordance with the Regulations of the Department of Environment and Conservation.

8. Water Ponding

No mineral working or associated storm or sanitary drainage shall unacceptably reduce the quality of water in any water body or watercourse. Any access road to a pit or quarry working which crosses a brook or stream shall have bridges or culverts at the crossing in accordance with the Regulations of the Department of Environment and Conservation.

9. Erosion Control

No mineral working shall be carried out in a manner so as to cause erosion of adjacent land.

10. Site Maintenance

The mineral working shall be kept clean of refuse, abandoned vehicles, and abandoned equipment and any derelict buildings.

11. Access Roads

During extended periods of shutdown, access roads to a mineral working shall be ditched or barred to the satisfaction of the Council.

12. Stockpiling Cover Material

All stumps, organic material and topsoil, including the rusty coloured and iron stained layer, shall be stripped and stockpiled at least 5 m from active quarry or stockpile areas. The owner or operator shall ensure that the quality of the topsoil is not affected by dilution with other materials.

13. Operating Plant and Associated Processing and Manufacturing

The Council may permit processing and manufacturing use associated with mineral workings provided that, in the opinion of the Council, the use does not create a nuisance nor is liable to become a nuisance or offensive by the creation of noise or vibration, or by reason of the emission of fumes, dust, dirt, objectionable odour, or by reason of unsightly storage of materials.

14. All permanent or temporary buildings, plants and structures associated with processing and manufacturing will be located so as not to interfere with the present or future extraction of aggregate resources.

15. The Council may specify a minimum separation distance between operating plant or associated processing and manufacturing structure or equipment and adjacent developed areas likely to be developed during the life of the mineral working.

16. Termination and Site Rehabilitation

Upon completion of the mineral working, the following work shall be carried out by the operation:

- (i) all buildings, machinery and equipment shall be removed;
- (ii) all pit and quarry slopes shall be graded to slopes less than 20° or to the slope conforming to that existing prior to the mineral working;
- (iii) topsoil and any organic materials shall be re-spread over the entire quarried area; and
- (iv) the access road to the working shall be ditched or barred to the satisfaction of the Council.

17. If the mineral working contains reserves of material sufficient to support further extraction operations, the Council may require the work described above to be carried out only in areas of the site where extraction has depleted aggregate reserves.

USE ZONE TABLE

ZONE TITLE	WATERSHED	(W)
PERMITTED USE CLASSES - (see Regulation 89)		
Conservation.		
DISCRETIONARY USE CLASSES - (see Regulations 32 and 90)		
Antenna, forestry, agriculture, recreational open space.		

CONDITIONS

1. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Council provided that they are complimentary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses. All development shall be subject to approval and compliance with the Department of Environment and Conservation.

2. Forestry, Agriculture, and Existing Areas

Selective forestry activities, agriculture, and the maintenance, continuation and limited extension of existing uses may be permitted provided they cause no detrimental effect on water quality.
