Short title
Definitions

1. These regulations may be cited as the *Development Regulations*.

2. In these regulations,

- (a) "Act", unless the context indicate otherwise, means the *Urban and Rural Planning Act, 2000*;
- (b) "applicant" means a person who has applied to an authority for an approval or permit to carry out a development;
- (c) "authority" means a council, authorized administrator or regional authority; and
- (d) "development regulations" means these regulations and regulations and by-laws respecting development that have been enacted by the relevant authority.

Application

3. (1) These regulations shall be included in the development regulations of an authority and shall apply to all planning areas.

(2) Where there is a conflict between these regulations and development regulations or other regulations of an authority, these regulations shall apply.

(3) Where another Act of the province provides a right of appeal to the board, these regulations shall apply to that appeal.

Interpretation

4. (1) In development regulations and other regulations made with respect to a planning area the following terms shall have the meanings indicated in this section

- (a) "access" means a way used or intended to be used by vehicles, pedestrians or animals in order to go from a street to adjacent or nearby land or to go from that land to the street;
- (b) "accessory building" includes
 - (i) a detached subordinate building not used as a dwelling, located on the same lot as the main building to which it is an accessory and which has a use that is customarily incidental or complementary to the main use of the building or land,

- (ii) for residential uses, domestic garages, carports, ramps, sheds, swimming pools, greenhouses, cold frames, fuel sheds, vegetables storage cellars, shelters for domestic pets or radio and television antennae,
 - (iii) for commercial uses, workshops or garages, and
 - (iv) for industrial uses, garages, offices, raised ramps and docks;
- (c) "accessory use" means a use that is subsidiary to a permitted or discretionary use and that is customarily expected to occur with the permitted or discretionary use;
- (d) "building height" means the vertical distance, measured in metres from the established grade to the
- (i) highest point of the roof surface of a flat roof,
 - (ii) deck line of a mansard roof, and
 - (iii) mean height level between the eave and the ridge of a gable, hip or gambrel roof,
- and in any case, a building height shall not include mechanical structure, smokestacks, steeples and purely ornamental structures above a roof;
- (e) "building line" means a line established by an authority that runs parallel to a street line and is set at the closest point to a street that a building may be placed;
- (f) "discretionary use" means a use that is listed within the discretionary use classes established in the use zone tables of an authority's development regulations;
- (g) "established grade" means,
- (i) where used in reference to a building, the average elevation of the finished surface of the ground where it meets the exterior or the front of that building exclusive of any artificial embankment or entrenchment, or

- (ii) where used in reference to a structure that is not a building, the average elevation of the finished grade of the ground immediately surrounding the structure, exclusive of any artificial embankment or entrenchment;
- (h) "floor area" means the total area of all floors in a building measured to the outside face of exterior walls;
- (i) "frontage" means the horizontal distance between side lot lines measured at the building line;
- (j) "lot" means a plot, tract or parcel of land which can be considered as a unit of land for a particular use or building;
- (k) "lot area" means the total horizontal area within the lines of the lot;
- (l) "lot coverage" means the combined area of all building on a lot measured at the level of the lowest floor above the established grade and expressed as a percentage of the total area of the lot;
- (m) "non-conforming use" means a legally existing use that is not listed as a permitted or discretionary use for the use zone in which it is located or which does not meet the development standards for that use zone;
- (n) "owner" means a person or an organization of persons owning or having the legal right to use the land under consideration;
- (o) "permitted use" means a use that is listed within the permitted use classes set out in the use zone tables of an authority's development regulations;
- (p) "prohibited use" means a use that is not listed in a use zone within the permitted use classes or discretionary use classes or a use that an authority specifies as not permitted within a use zone;
- (q) "sign" means a word, letter, model, placard, board, device or representation, whether illuminated or not, in the nature of or employed wholly or in part for the purpose of advertisement,

announcement or direction and excludes those things employed wholly as a memorial, advertisements of local government, utilities and boarding or similar structures used for the display of advertisements;

- (r) "rear yard depth" means the distance between the rear lot line and the rear wall of the main building on a lot;
- (s) "side yard depth" means the distance between the side lot line and the nearest side wall of a building on the lot;
- (t) "street" means a street, road, highway or other way designed for the passage of vehicles and pedestrians and which is accessible by fire department and other emergency vehicles;
- (u) "street line" means the edge of a street reservation as defined by the authority having jurisdiction;
- (v) "use" means a building or activity situated on a lot or a development permitted on a lot;
- (w) "use zone" or "zone" means an area of land including buildings and water designated on the zoning map to which the uses, standards and conditions of a particular use zone table apply;
- (x) "variance" means a departure, to a maximum of 10% from the yard, area, lot coverage, setback, size, height, frontage or any other numeric requirement of the applicable Use Zone Table of the authority's regulations; and
- (y) "zoning map" means the map or maps attached to and forming a part of the authority's regulations.

(2) An authority may, in its discretion, determine the uses that may or may not be developed in a use zone and those uses shall be listed in the authority's regulations as discretionary, permitted or prohibited uses for that area.

Notice of right to
appeal

5. Where an authority makes a decision that may be appealed under section 42 of the Act, that authority shall, in writing, at the time of making that decision, notify the person to whom the decision applies of the

- (a) person's right to appeal the decision to the board;
- (b) time by which an appeal is to be made;
- (c) right of other interested persons to appeal the decision; and
- (d) manner of making an appeal and the address for the filing of the appeal.

**Appeal
requirements**

6. (1) The secretary of the board at the Department of Municipal and Provincial Affairs, Main Floor, Confederation Building (West Block), P.O. Box 8700, St. John's, Nfld., A1B 4J6 is the secretary to all boards in the province and an appeal filed with that secretary within the time period referred to in subsection 42(4) of the Act shall be considered to have been filed with the appropriate board.

(2) Notwithstanding subsection (1), where the City of Corner Brook, City of Mount Pearl or City of St. John's appoints an appeal board under subsection 40(2) of the Act, an appeal shall be filed with the secretary of that appointed board.

(3) The fee required under section 44 of the Act shall be paid to the board that hears the decision being appealed by filing it with the secretary referred to in subsection (1) or (2) within the 14 days referred to in subsection 42(4) of the Act.

(4) The board that hears the decision being appealed shall, subject to subsection 44(3) of the Act, retain the fee paid to the board.

(5) Where an appeal of a decision and the required fee is not received by a board in accordance with this section and Part VI of the Act, the right to appeal that decision shall be considered to have been forfeited.

Appeal registration

7. (1) Upon receipt of an appeal and fee as required under the Act and these regulations, the secretary of the board as referred to in subsections 6(1) and (2), shall immediately register the appeal.

(2) Where an appeal has been registered the secretary of the board shall notify the appropriate authority of the appeal and shall provide to the authority a copy of the appeal and the documentation related to the appeal.

(3) Where an authority has been notified of an appeal that authority shall forward to the appropriate board a copy of the application being appealed, all correspondence, council minutes, plans and other relevant information relating to the appeal including the names and addresses of the applicant and other interested persons of whom the authority has knowledge.

(4) Upon receipt of the information under subsection (3), the secretary of the board shall publish in a newspaper circulated in the area of the appropriate authority, a notice that the appeal has been registered.

(5) A notice published under subsection (4) shall be published not fewer than 2 weeks before the date upon which the appeal is to be heard by the board.

Development prohibited

8. (1) Immediately upon notice of the registration of an appeal the appropriate authority shall ensure that any development upon the property that is the subject of the appeal ceases.

(2) Sections 102 and 104 of the Act apply to an authority acting under subsection (1).

(3) Upon receipt of a notification of the registration of an appeal with respect to an order under section 102 of the Act, an authority shall not carry out work related to the matter being appealed.

Hearing notice and meetings

9. (1) A board shall notify the appellant, applicant, authority and other persons affected by the subject of an appeal of the date, time and place for the appeal not fewer than 7 days before the date scheduled for the hearing of the appeal.

(2) A board may meet as often as is necessary to conduct its work in an expeditious manner.

Hearing of evidence

10. (1) A board shall meet at a place within the area under its jurisdiction and the appellant and other persons notified under subsection 9(1) or their representative may appear before the board and make representations with respect to the matter being appealed.

(2) A board shall hear an appeal in accordance with section 43 of the Act and these regulations.

(3) A written report submitted under subsection 43(2) of the Act respecting a visit to and viewing of a property shall be considered to have been provided in the same manner as evidence directly provided at the hearing of the board.

(4) In the conduct of an appeal hearing, the board is not bound by the rules of evidence.

Board decision

11. A decision of the board must comply with the plan, scheme or development regulations that apply to the matter that has been appealed to that board.

Variations

12. (1) Where an approval or permit cannot be given by an authority because a proposed development does not comply with development standards set out in development regulations, an authority may, in its discretion, vary the applicable development standards to a maximum of 10% if, in the authority's opinion, compliance with the development standards would prejudice the proper development of the land, building or structure in question or would be contrary to public interest.

(2) An authority shall not allow a variance from development standards set out in development regulations if that variance, when considered together with other variances made or to be made with respect to the same land, building or structure, would have a cumulative effect that is greater than a 10% variance even though the individual variances are separately no more than 10%.

(3) An authority shall not permit a variance from development standards where the proposed development would increase the non conformity of an existing development.

Notice of variance

13. Where an authority is to consider a proposed variance, that authority shall give written notice of the proposed variance from development standards to all persons whose land is in the immediate vicinity of the land that is the subject of the variance.

Residential non conformity

14. A residential building or structure referred to in paragraph 108(3)(g) of the Act must, where being repaired or rebuilt, be repaired or rebuilt in accordance with the plan and development regulations applicable to that building or structure.

Notice and hearings on change of use

15. Where considering a non conforming building, structure or development under paragraph 108(3)(d) of the Act and before making a

decision to vary an existing use of that non-conforming building, structure or development, an authority, at the applicant's expense, shall publish a notice in a newspaper circulating in the area or by other means give public notice of an application to vary the existing use of a non-conforming building, structure or development and shall consider any representations or submissions received in response to that advertisement.

Non-conformance
with standards

16. Where a building, structure or development does not meet the development standards included in development regulations, the building, structure or development shall not be expanded if the expansion would increase the non-conformity and an expansion must comply with the development standards applicable to that building, structure or development.

Discontinuance of
non-conforming use

17. An authority may make development regulations providing for a greater period of time than is provided under subsection 108(2) of the Act with respect to the time by which a discontinued non-conforming use may resume operation.

Delegation of
powers

18. An authority shall, where designating employees to whom a power is to be delegated under subsection 109(3) of the Act, make that designation in writing.

Commencement

19. These regulations shall be considered to have come into force on January 1, 2001.

**TOWN OF PORT AU PORT EAST MUNICIPAL PLAN
(DEVELOPMENT REGULATIONS)**

APPLICATION

1. Short Title

These Regulations may be cited as the Port Au Port East Development Regulations.

2. Interpretation

- (1) Words and phrases used in these Regulations shall have the meanings ascribed to them in Schedule A.
- (2) Words and phrases not defined in Schedule A shall have the meanings which are commonly assigned to them in the context in which they are used in the Regulations.

3. Commencement

These Regulations come into effect throughout the Port Au Port East Municipal Planning Area, hereinafter referred to as the Planning Area, on the date of publication of a notice to that effect in the Newfoundland Gazette.

4. Development Regulations Under the Urban and Rural Planning Act 2000 – “Ministerial Regulations”

The Ministerial Regulations enacted under Section 36 of the Act shall apply to development within the Planning Area. Where there is conflict between these and the Port Au Port East Development Regulations, the Ministerial Regulations shall prevail. The Ministerial Regulations are included with the Port Au Port East Development Regulations.

5. Municipal Code and Regulations

The Building Code including the Plumbing Code, the Fire Code, the Electrical Code, and any other ancillary code and any Building Regulations, Waste Disposal Regulation and/or any other municipal regulations regulating or controlling the development, conservation and use of land in force in the Town of Port Au Port East, shall, under these Regulations apply to the entire Planning Area.

6. Town

In these Regulations, "Town" means the Council of the Town of Port Au Port East.

PART I – GENERAL REGULATIONS

7. Compliance With Regulations

No development shall be carried out within the Planning Area except in accordance with these Regulations.

8. Permit Required

No person shall carry out any development within the Planning Area except where otherwise provided in these Regulations unless a permit for the development has been issued by the Town.

9. Permit to be Issued

Subject to Regulations 10 and 11, a permit shall be issued for development within the Planning Area that conforms to:

- (a) the general development standards set out in Part II of these Regulations, the requirements of Part V of these Regulations, and the use classes, standards, requirements, and conditions prescribed in Schedule C of these Regulations for the use zone in which the proposed development is located;
- (b) the standards set out in the Building Code and/or other ancillary codes, and any Building Regulations, Waste Disposal Regulations, and/or any other municipal regulation in force in the Planning Area regulating or controlling development, conservation and use of land and buildings;
- (c) the standards set out in Part III of these Regulations in the case of advertisement;
- (d) the standards set out in Part IV of these Regulations in the case of subdivision;
- (e) the standards of design and appearance established by the Town.

10. Permit Not to be Issued in Certain Cases

Neither a permit nor outline planning permission shall be issued for development within the Planning Area when, in the opinion of the Town, it is premature by reason of the site lacking adequate road access, power, drain-

age, sanitary facilities, or domestic water supply, or being beyond the natural development of the area at the time of application unless the applicant contracts to pay the full cost of construction of the services deemed necessary by the Town and such cost shall attach to and upon the property in respect of which it is imposed.

11. Discretionary Powers of Town

In considering an application for a permit or for outline planning permission to carry out development, the Town shall take into account the policies expressed in the Municipal Plan and any further scheme, plan or regulations pursuant thereto, and shall assess the general appearance of the development of the area, the amenity of the surroundings, availability of utilities, public safety and convenience, and any other considerations which are, in its opinion, material, and notwithstanding the conformity of the application with the requirements of these Regulations, the Town may, in its discretion, and as a result of its consideration of the matters set out in this Regulation, conditionally approve or refuse the application.

12. Variances by Town (pursuant to Ministerial Regulations, Section 12)

- (1) Where an approval or a permit cannot be given by the Town because a proposed development does not comply with development standards set out in these Regulations, the Town may, in its discretion, vary the applicable development standards to a maximum of 10%, if, in the Town's opinion, compliance with the development standards would prejudice the proper development of the land, building or structure in question or would be contrary to the public interest.
- (2) The Town shall not allow a variance from development standards set out in these Regulations if that variance, when considered together with other variances made or to be made with respect to the same land, building or structure, would have a cumulative effect that is greater than a 10% variance even though the individual variances are separately not greater than 10%.

- (3) The Town shall permit a variance from the development standards where the proposed development would increase the non conformity of an existing development.
- (4) Public Notice - When a variance is necessary under this Regulation, the Town shall, at the expense of the applicant, give written notice to the property owners in the immediate vicinity of the proposed variance.

13. Service Levy

- (1) The Town may require a developer to pay a service levy where development is made possible or where the density of potential development is increased, or where the value of property is enhanced by the carrying out of public works either on or off the site of the development.
- (2) A service levy shall not exceed the cost, or estimated cost, including finance charges to the Town of constructing or improving the public works referred to in Regulation 13(1) that are necessary for the real property to be developed in accordance with the standards required by the Town and for uses that are permitted on that real property.
- (3) A service levy shall be assessed on the real property based on:
 - (a) the amount of real property benefitted by the public works related to all the real property so benefitted; and,
 - (b) the density of development made capable or increased by the public work.
- (4) The Town may require a service levy to be paid by the owner of the real property;
 - (a) at the time the levy is imposed;
 - (b) at the time development of the real property commences;
 - (c) at the time development of the real property is completed; or,
 - (d) at such other time as the Town may decide.

14. Financial Guarantees by Developer

- (1) The Town may require a developer before commencing a development to make such financial provisions and/or enter into such

agreements as may be required to guarantee the payment of service levies, ensure site reinstatement, and to enforce the carrying out of any other condition attached to a permit or licence.

- (2) The financial provisions pursuant to Regulation 14(1) may be made in the form of:
- (a) a cash deposit from the developer, to be held by the Town, or;
 - (b) a guarantee by a bank, or other institution acceptable to the Minister, for expenditures by the developer, or;
 - (c) a performance bond provided by an insurance company or a bank, or;
 - (d) an annual contribution to a sinking fund held by the Town.

15. Dedication of Land for Public Use

In addition to the requirements for dedication of land under Part IV - Subdivision of Land, the Town may require the dedication of a percentage of the land area of any subdivision or other development for public use, and such land shall be conveyed to the Town in accordance with the provisions of the Act.

16. Reinstatement of Land

Where the use of land is discontinued or the intensity of its use is decreased, the Town may order the developer, the occupier of the site, or the owner or all of them to reinstate the site, to remove all or any buildings or erections, to cover or fill all wells or excavations, and to close all or any accesses, or to do any of these things or all of them, as the case may be, and the developer, occupier or owner shall carry out the order of the Town and shall put the site in a clean and sanitary condition to the satisfaction of the Town.

17. Form of Application

- (1) An application for a development permit or for approval in principle shall be made only by the owner or by a person authorized by the owner to the Town on such form as may be prescribed by the Town, and every application shall include such plans, specifications and

drawings as the Town may require, and be accompanied by the permit fee required by the Town.

- (2) The Town shall, on request, supply to every applicant a copy of the application forms referred to in Regulation 17(1) and a description of the plans, specifications and drawings required to be provided with the application.

18. Register of Application

The Town shall keep a public register of all applications for development, and shall enter therein the Town's decision upon each application and the result of any appeal from that decision.

19. Deferment of Application

- (1) The Town may, with the written agreement of the applicant, defer consideration of an application.
- (2) Applications properly submitted in accordance with these Regulations which have not been determined by the Town and on which a decision has not been communicated to the applicant within eight weeks of the receipt thereof by the Town, and on which consideration has not been deferred in accordance with Regulation 18(1), shall be deemed to be refused.

20. Approval In Principle

- (1) The Town may grant an approval in principle for the erection, alteration or conversion of a building if, after considering an application for approval in principle made under these Regulations, it is satisfied that the proposed development is, subject to the approval of detailed plans, in compliance with these Regulations.
- (2) Where approval in principle is granted under this Regulation, it shall be subject to the subsequent approval by the Town of such details as may be listed in the approval in principle, which shall also specify that further application for approval of these details shall be received not later than two years from the grant of approval in principle.

21. Development Permit

- (1) A plan or drawing which has been approved by the Town and which bears a mark and/or signature indicating such approval together with a permit shall be deemed to be permission to develop land in accordance with these Regulations but such permission shall not relieve the applicant from full responsibility for obtaining permits or approvals under any other regulation or statute prior to commencing the development; from having the work carried out in accordance with these Regulations or any other regulations or statutes; and from compliance with all conditions imposed thereunder.
- (2) The Town may attach to a permit or to approval in principle such conditions as it deems fit in order to ensure that the proposed development will be in accordance with the purposes and intent of these Regulations.
- (3) Where the Town deems necessary, permits may be issued on a temporary basis for a period not exceeding two years, which may be extended in writing by the Town for further periods not exceeding two years.
- (4) A permit is valid for such period, not in excess of two years, as may be stated therein, and if the development has not commenced, the permit may be renewed for a further period not in excess of one year, but a permit shall not be renewed more than once, except in the case of a permit for an advertisement, which may be renewed in accordance with Part III of these Regulations.
- (5) The approval of any application and plans or drawings or the issue of a permit shall not prevent the Town from thereafter requiring the correction of errors, or from ordering the cessation, removal of, or remedial work on any development being carried out in the event that the same is in violation of this or any other regulations or statute.
- (6) The Town may revoke a permit for failure by the holder of it to comply with these Regulations or any condition attached to the permit or where the permit was issued in error or was issued on the basis of incorrect information.

- (7) No person shall erase, alter or modify any drawing or specifications upon which a permit to develop has been issued by the Town.
- (8) There shall be kept available on the premises where any work, matter or thing in being done for which a permit has been issued, a copy of the permit and any plans, drawings or specifications on which the issue of the permit was based during the whole progress of the work, or the doing of the matter or thing until completion.

22. Reasons for Refusing Permit

The Town shall, when refusing to issue a permit or attaching conditions to a permit, state the reasons for so doing.

23. Notice of Application

When a change in nonconforming use is to be considered (see also Ministerial Regulations), or when the development proposed is listed as a discretionary use in Schedule C of the Regulations the Town shall, at the expense of the applicant, give notice of an application for a permit or for approval in principle, by public advertisement in a newspaper circulating in the area or by any other means deemed necessary.

When a variance is necessary under Regulation 12 (see also Ministerial Regulations), the Town shall, at the expense of the applicant, give written notice to the property owners in the immediate vicinity of the proposed variance.

24. Right of Entry

The Town, the Director, or any inspector may enter upon any public or private land and may at all reasonable times enter any development or building upon the land for the purpose of making surveys or examinations or obtaining information relative to the carrying out of any development, construction, alteration, repair, or any other works whatsoever which the Town is empowered to regulate.

25. Record of Violations

Every inspector shall keep a record of any violation of these regulations which comes to his knowledge and report that violation to the Town.

26. Stop Work Order and Prosecution

- (1) Where a person begins a development contrary or apparently contrary to these Regulations, the Town may order that person to stop the development or work connected therewith pending final adjudication in any prosecution arising out of the development.
- (2) A person who does not comply with an order made under Regulation 26(1) is guilty of an offence under the provisions of the Act.

27. Appeals

- (1) See Ministerial Regulations- Sections 5 to 11 and Sections 40 to 48 of the Urban and Rural Planning Act 2000.
- (2) Where an appeal lodged under Section 42 of the Urban and Rural Planning Act has been successful, the fee paid by the appellant shall be reimbursed by the Town.
- (3) Where an appeal is made from a decision of the Town, the development concerned shall not proceed pending a decision on the appeal and the subsequent issue of all required permits.

PART II – GENERAL DEVELOPMENT STANDARDS

28. Accesses and Service Streets

- (1) Access shall be located to the specification of the Town so as to ensure the greatest possible convenience and safety of the street system and the Town may prescribe the construction of service streets to reduce the number of accesses to collector and arterial streets.
- (2) No vehicular access shall be closer than 10 metres to the street line of any street intersection.

29. Accessory Buildings

- (1) Accessory buildings shall be clearly incidental and complementary to the use of the main buildings in character, use and size, and shall be contained on the same lot.
- (2) No accessory building or part thereof shall project in front of any building line.
- (3) The sideyard requirements set out in the use zone tables in these Regulations shall apply to accessory buildings wherever they are located on the lot but accessory buildings on two (2) adjoining properties may be built to property boundaries provided they shall be of fire resistant construction and have a common firewall.

30. Accessory Uses

- (1) See also Ministerial Development Regulations, Section 4(1)(d).
- (2) Subject to the other requirements of these Regulations, including those of Schedule C, uses accessory to the permitted or discretionary use shall or may be permitted.
- (3) Subject to Schedule C, examples of accessory uses include, but are not limited to:
 - (a) facilities for the serving of food and alcoholic beverages in an arena or other place of assembly, marina, or hotel (commercial - residential);

- (b) a gift or souvenir shop in a museum, hotel or other establishment;
- (c) office and/or a small convenience store or catering establishment in a campground;
- (d) a marina or dock or wharf in a residential or other zone;
- (e) an accessory dwelling;
- (f) an unobtrusive business carried out in a dwelling or residential accessory building by a resident of the dwelling;
- (g) a dwelling accessory to the primary use - such as a farm operator's dwelling on the farm, woodlot owner's dwelling, or a caretaker's dwelling in non-farm or forestry business.

These accessory uses shall be clearly subsidiary to and controlled so as to be compatible with the primary use and the use of nearby properties.

31. Advertisements

Advertisements shall not be erected or displayed except in accordance with Part III of these Regulations.

32. Agriculture – Livestock Structures and Uses

- (1) No structure designed to contain more than five animal units shall be erected or used unless it complies with the following requirements:
 - (a) The structure shall be at least 600 m from a residence, (except a farm residence or a residence which is a non-conforming use in any zone in which agriculture is a permitted use class in the Use Zone Tables in Schedule C of these Regulations), and, from an area designated for residential use in an approved Plan, and, from a Provincial or Federal Park.
 - (b) The structure shall be at least 60 m from the boundary of the property on which it is to be erected.
 - (c) The structure shall be at least 90 m from the centre line of a street.

- (d) The erection of the structure shall be approved by the Department of Natural Resources and the Department of Environment and Conservation.
- (2) Except for infill development, no development for residential use shall be permitted within 600 m of an existing structure designed to contain more than five animal units unless the development is first approved by the Department of Natural Resources.

33. Buffer Strips

Where any industrial development permitted in any Use Zone abuts an existing or proposed residential area, or is separated from it by a road only, the owner of the site of the industrial development shall provide a buffer strip not less than ten (10) metres wide between any residential activity and the industrial area. The buffer shall include the provision of such natural or structural barrier as may be required by the Town and shall be maintained by the owner or occupier to the satisfaction of the Town.

34. Building Height

The Town may permit the erection of buildings of a height greater than that specified in Schedule C, but in such cases the building line setback and rearyard requirements shall be varied as follows:

- (1) The building line setback shall be increased by 2 metres for every 1 metre increase in height.
- (2) The rearyard shall not be less than the minimum building line setback calculated as described in (1) above plus 6 metres.

35. Building Line and Setback

The Town, by resolution, may establish building lines on an existing or proposed street or service street and may require any new buildings to be located on those building lines, whether or not such building lines conform to the standards set out in the tables in Schedule C of these Regulations.

36. Family and Group Care Centres

Family group care centre use is permitted in any dwelling or apartment that is adequate in size to accommodate the number of persons living in the group, inclusive of staff, provided that in the opinion of the Town, the use of the dwelling does not materially differ from, nor adversely affect, the amenities of the adjacent residences, or the neighbourhood in which it is located. The Town may require special access and safety features to be provided for the occupants before occupancy is permitted.

37. Forestry

Approvals for woodcutting or other forestry related activities must be obtained from the Department of Natural Resources – Forest Management Unit. Any non-forestry activity in an area identified as productive forest must be approved by the Forest Management Unit.

38. Height Exceptions

The height requirements prescribed in Schedule C of these Regulations may be waived in the case of communication masts and antennae, flagpoles, water towers, spires, belfries, or chimneys, but any such waiver which results in an increase of more than 20% in the permitted height of the structure shall only be authorized under the provisions of Regulation 11.

39. Highways - Development near Highways

The Province has designated “control lines” alongside each provincially maintained route. These lines extend 400 metres from the highway centrelines. The control area is reduced within Municipal Boundaries, where the lines instead fall 100 metres from the centreline.

Offsite Promotional Signs falling within the designated control lines of any highway must be referred to an approved or exempted by the Government Service Centre serving the area.

The Department of Transportation and Works should be notified of any other proposed developments within a highway control area, and must approve any new access off a provincial highway.

40. Lot Area

- (1) No lot shall be reduced in area, either by the conveyance or alienation of any portion thereof or otherwise, so that any building or structure on such lot shall have a lot coverage that exceeds, or a front yard, rear yard, side yard, frontage or lot area that is less than that permitted by these Regulations for the zone in which such lot is located.
- (2) Where any part of a lot is required by these Regulations to be reserved as a yard, it shall continue to be so used regardless of any change in the ownership of the lot or any part thereof, and shall not be deemed to form part of an adjacent lot for the purpose of computing the area thereof available for building purposes.

41. Lot Area and Size Exceptions

Where, at the time of coming into effect of these Regulations, one or more lots already exist in any residential zone, with insufficient frontage or area to permit the owner or purchaser of such a lot or lots to comply with the provisions of these Regulations, then these Regulations shall not prevent the issuing of a permit by the Town for the erection of a dwelling thereon, provided that the lot coverage and height are not greater than, and the yards and floor area are not less than the standards set out in these Regulations.

42. Lot Frontage

Except where specifically provided for in the Use Zone Tables in Schedule C of these Regulations, no residential or commercial building shall be erected unless the lot on which it is situated fronts directly onto a street or forms part of a Comprehensive Development Scheme.

43. Mobile Homes

- (1) Groups of more than five mobile homes shall be located only in approved mobile home parks and mobile home subdivisions in residential use zones so designated and shall conform to the requirements of the Provincial Mobile Home Development Regulations currently in effect.
- (2) No development permit shall be issued for a mobile home lot unless it conforms with the requirements of Regulation 23 of the Mobile Home Development Regulations.

44. Non-Conforming Uses

- (1) This Regulation is based upon Section 108 (2) of the Urban and Rural Planning Act 2000, and Sections 14, 15, and 16 of the Ministerial Development Regulations.
- (2) Notwithstanding a plan, scheme or regulations made under the Urban and (Rural Planning Act 2000, the Town shall, in accordance with regulations made under this Act, allow a development or use of land to continue in a manner that does not conform with a regulation, scheme, or plan that applies to that land provided that the non-conforming use legally existed before the registration under section 24 of the Act of the plan, scheme or regulations made with respect to that kind of development or use.
- (3) Notwithstanding subsection (1), a right to resume a discontinued non-conforming use of land shall not exceed one year. For the purpose of this Regulation, discontinuance of a non-conforming use begins when any one of the following conditions is met:
 - (a) the building or use of land is clearly vacated or the building is demolished;
 - (b) the owner or tenant has ceased paying business occupancy taxes for that use;
 - (c) the owner or tenant has stated in writing that the use has ceased.

- (4) A building, structure or development that does not conform to a scheme, plan or regulations made under this Act that is allowed to continue under subsection (2):
- (a) shall not be internally or externally varied, extended or expanded unless otherwise approved by the Town;
 - (b) shall not be structurally modified except as required for the safety of the building, structure or development;
 - (c) shall not be reconstructed or repaired for use in the same non-conforming manner where 50% or more of the value of that building, structure or development has been destroyed;
 - (d) may have the existing use for that building, structure or development varied by the Town to a use that is, in their opinion more compatible with a plan and regulations applicable to it;
 - (e) may have the existing building extended by the Town where, in its opinion that extension is not more than 50% of the existing building;
 - (f) where the non-conformance is with respect to the standards included in development regulations, the building, structure or development shall not be expanded if the expansion would increase the non-conformity – and an expansion must comply with the development standards applicable to that building, structure or development.
 - (g) where the building or structure is primarily zoned and used for residential purposes, may, in accordance with the appropriate plan and regulations, be repaired or rebuilt where 50% or more of the value of that building or structure is destroyed; and
 - (h) a residential building or structure referred to in the above paragraph must, where being repaired or rebuilt, be repaired or rebuilt in accordance with the plan and development regulations applicable to that building or structure.

- (5) Notice and hearings on change of use – Where considering a non conforming building, structure or development under clause (3) (d) of this Regulation and before making a decision to vary an existing use of that non-conforming building, structure or development, an authority, at the applicant's expense, shall publish a notice in a newspaper circulating in the area or by other means give public notice of an application to vary the existing use of a non-conforming building, structure or development and shall consider any representations or submissions received in response to that advertisement.

45. Offensive and Dangerous Uses

No building or land shall be used for any purpose which may be dangerous by causing or promoting fires or other hazards or which may emit noxious, offensive or dangerous fumes, smoke, gases, radiation, smells, ash, dust or grit, excessive noise or vibration, or create any nuisance that has an unpleasant effect on the senses unless its use is authorized by the Town and any other Town having jurisdiction.

46. Offstreet Parking Requirements

- (1) For every building, structure or use to be erected, enlarged or established, there shall be provided and maintained a quantity of off-street parking spaces sufficient to ensure that the flow of traffic on adjacent streets is not impeded by the on-street parking of vehicles associated with that building, structure or use.
- (2) The number of parking spaces to be provided for any building, structure, use of occupancy shall conform to the standards set out in Schedule D of these Regulations.
- (3) Each parking space, except in the case of one or two-family dwellings, shall be made accessible by means of a hard surfaced right-of-way at least 3 m in width. Parking required in a residential zone shall be provided on the same lot as the dwelling or dwellings. Parking space for apartments shall be provided in the rear yard where possible. In a Non-Residential Zone, parking spaces shall be provided within the

limits of the zone in which the use is situated and not more than 200 m distant from the use concerned.

- (4) The parking facilities required by this Regulation shall, except in the case of single or attached dwellings, be arranged so that it is not necessary for any vehicle to reverse onto or from a street.
- (5) Where, in these Regulations, parking facilities for more than four vehicles are required or permitted:
 - (a) parking space shall mean an area of land, not less than 15 m² in size, capable of being used for the parking of a vehicle without the need to move other vehicles on adjacent areas;
 - (b) the parking area shall be constructed and maintained to the specifications of the Town;
 - (c) the lights used for illumination of the parking area shall be so arranged as to divert the light away from adjacent development;
 - (d) a structure, not more than 3 m in height and more than 5 m² in area may be erected in the parking area for the use of attendants in the area;
 - (e) except in zones in which a service station is a permitted use, no gasoline pump or other service station equipment shall be located or maintained on a parking area;
 - (f) no part of any off-street parking area shall be closer than 1.5 m to the front lot line in any zone;
 - (g) access to parking areas in non-residential zones shall not be by way of residential zones;
 - (h) where a parking area is in or abuts a residential zone, a natural or structural barrier at least 1 m in height shall be erected and maintained along all lot lines;
 - (i) where, in the opinion of the Town, strict application of the above parking requirements is impractical or undesirable, the Town may as a condition of a permit require the developer to pay a service levy in accordance with these Regulations in lieu of the provision of a parking area, and the full amount of the levy charged shall be used by the Town for the provision and

upkeep of alternative parking facilities within the general vicinity of the development.

47. Off-Street Loading Requirements

- (1) For every building, structure or use to be erected, enlarged or established requiring the shipping, loading or unloading of animals, goods, wares or merchandise, there shall be provided and maintained for the premises loading facilities on land that is not part of a street comprised of one or more loading spaces, 15 m long, 4 m wide, and having a vertical clearance of at least 4 m with direct access to a street or with access by a driveway of a minimum width of 6 m to a street.
- (2) The number of loading spaces to be provided shall be determined by the Town.
- (3) The loading facilities required by this Regulation shall be so arranged that vehicles can manoeuvre clear of any street and so that it is not necessary for any vehicle to reverse onto or from a street.

48. Parks and Playgrounds, and Conservation Uses

Nothing in these Regulations shall prevent the designation of conservation areas in any zone, or the establishment of parks and playgrounds in residential and mixed development zones provided that such parks and playgrounds are not located in areas which may be hazardous to their use and are not operated for commercial purposes.

49. Screening and Landscaping

The Town may, in the case of existing unsightly development, order the owner or occupier to provide adequate and suitable landscaping or screening; and for this purpose may require the submission of an application giving details of the landscaping or screening, and these Regulations shall then apply to that application. The provision of adequate and suitable landscaping or screening may be made a condition of any development permit where, in the opinion of the Town, the landscaping or screening is desirable to preserve amenity, or protect the environment.

50. Services and Public Utilities

The Town shall or may within any zone permit land to be used in conjunction with the provision of public services and public utilities if the use of that land is necessary to the proper operation of the public service or public utility concerned provided that the design and landscaping of any development of any land so used is, in the opinion of the Town, adequate to protect the character and appearance of the area.

51. Service Stations

The following requirements shall apply to all proposed service stations:

- (a) All gasoline pumps shall be located on pump islands designed for such purpose, and to which automobiles may gain access from either side.
- (b) Pump islands shall be set back at least 4 metres from the front lot line.
- (c) Accesses shall not be less than 7 metres wide and shall be clearly marked, and where a service station is located on a corner lot, the minimum distance between an access and the intersection of street lines at the junction shall be 10 metres and the lot line between entrances shall be clearly indicated.

52. Side Yards

A sideyard which shall be kept clear of obstruction shall be provided on the exposed sides of every building in order to provide access for the maintenance of that building.

53. Street Construction Standards

A new street may not be constructed except in accordance with and to the design and specifications laid down by the Town.

54. Subsidiary Apartments

Subsidiary apartments may or shall be permitted in single dwellings only, and for the purposes of calculating lot area and yard requirements, shall be considered part of the self-contained dwelling.

55. Unsubdivided Land

Development is not permitted on unsubdivided land unless sufficient area is reserved to satisfy the yard and other allowances called for in the Use Zone in which it is located and the allowances shall be retained when the adjacent land is developed.

56. Waterways and Wetlands

- (1) Except as otherwise shown on the Land Use Zoning Maps, the minimum width of a buffer along a waterway or wetland shall be 15 m from the highwater mark of the stream, river, pond or other body of water. If the embankment is steep, then the buffer shall be measured from the top of the embankment.
- (2) Unless it is infill development or the area is otherwise developed, development within 200 metres of a licenced salmon river, must be reviewed by the Department of Fisheries and Oceans Canada before approval is granted by the Town.
- (3) Subject to the approval of the Department of Environment and Conservation, the Town and other applicable agencies, the only uses that can be permitted in the buffer area of a waterway are conservation, public utilities, roads or driveways crossing the body of water and trails, and trail related accessory uses, and uses requiring direct access to a body of water.
- (4) The Town or the Provincial Government may subject development within the buffer area of a waterway to an environmental review, and may approve, approve subject to conditions, or refuse such development. The matter of adequate and usable legal public access to the waterway shall be a consideration in the review of an application for a structure within a buffer and/or waterway.

- (5) Any development within a waterway or involving the alteration of a waterway must be approved by or exempted by the following agencies:
- Department of Environment and Conservation for Crown Lands and referrals;
 - Coast Guard Canada of the Department of Fisheries and Oceans - Navigable Waters Act;
 - Fish Habitat Division of the Department of Fisheries and Oceans;
 - Water Resources Division of the Department of Environment and Conservation.
- (6) If a waterway or wetland is deemed to be minor (intermittent and/or a drainage course and/or no evidence of fish and/or not apparently significant for flood control or water management), such waterways and wetlands shall wherever possible remain undeveloped and protected by a buffer. If a site is to be developed, alternatives to covering over or eliminating such waterways and wetlands shall be explored, including relocation of the waterway or wetland and/or redesign of the development.

57. Zero Lot Line and Other Comprehensive Development

The Town may, at its discretion, approve the erection of dwellings which are designed to form part of a zero lot line development or other comprehensive layout which does not, with the exception of dwelling unit floor area, meet the requirements of the Use Zone Table in Schedule C, provided that the dwellings are designed to provide both privacy and reasonable access to natural daylight and the overall density within the layout conforms to the regulations and standards set out in the Use Zone Table apply where the layout adjoins other development.

PART III – ADVERTISEMENTS

58. Permit Required

Subject to the provisions of Regulation 63, no advertisement shall be erected or displayed in the Planning Area unless a permit for the advertisement is first obtained from the Town.

59. Form of Application

Application for a permit to erect or display an advertisement shall be made to the Town in accordance with Regulation 16.

60. Advertisements Prohibited in Street Reservation

No advertisement shall be permitted to be erected or displayed within, on or over any highway or street reservation.

61. Permit Valid for Limited Period

A permit granted under these Regulations for the erection or display of an advertisement shall be for a limited period, not exceeding two years, but may be renewed at the discretion of the Town for similar periods.

62. Removal of Advertisements

Notwithstanding the provisions of these Regulations, the Town may require the removal of any advertisement which, in its opinion, is:

- (a) hazardous to road traffic by reason of its siting, colour, illumination, or structural condition, or;
- (b) detrimental to the amenities of the surrounding area.

63. Advertisements Exempt from Control

The following advertisements may be erected or displayed in the Planning Area without application to the Town:

- (a) on a dwelling or within the curtilage of a dwelling, one nameplate not exceeding 0.2 m² in area;
- (b) on an agricultural holding or farm, a notice board not exceeding 1 m² in area and relating to the operations being conducted on the land;

- (c) on land used for forestry purposes, signs or notices not exceeding 1 m² in area and relating to forestry operations or the location of logging operations conducted on the land;
- (d) on land used for mining or quarrying operations, a notice board not exceeding 1 m² in area relating to the operation conducted on the land;
- (e) on a dwelling or within the curtilage of a dwelling, one nameplate not exceeding 0.2 m² in area in connection with the practice of a professional person carried on in the premises;
- (f) on any site occupied by a church, school, library, art gallery, museum, institution or cemetery, one notice board not exceeding 1 m² in area;
- (g) on the principal facade of any commercial, industrial or public building, the name of the building or the name of the occupants of the building, in letters not exceeding one-tenth of the height of that facade or 3 m, whichever is the lesser;
- (h) on any parking lot directional signs and one sign not exceeding 1 m² in size, identifying the parking lot.

64. Approval Subject to Conditions

A permit may only be issued for the erection or display of advertisements which comply with the appropriate conditions and specifications set out in the Use Zone Tables in Schedule C of these Regulations.

65. Non-Conforming Uses

Notwithstanding the provisions of Regulation 58, a permit may be used for the erection or display of advertisements on a building or within the curtilage of a building or on a parcel of land, the use of which is a non conforming use, provided that the advertisement does not exceed the size and type of advertisement which could be permitted if the development was in a Use Zone appropriate to its use, and subject to any other conditions deemed appropriate by the Town.

PART IV – SUBDIVISION OF LAND

66. Permit Required

No land in the Planning Area shall be subdivided unless a permit for the development of the subdivision is first obtained from the Town.

67. Services to be Provided

No permit shall be issued for the development of a subdivision unless provisions satisfactory to the Town have been made in the application for a supply of drinking water, a properly designed sewage disposal system, and a properly designed storm drainage system.

68. Payment of Service Levies and Other Charges

No permit shall be issued for the development of a subdivision until agreement has been reached for the payment of all fees levied by the Town for connection to services, utilities and streets deemed necessary for the proper development of the subdivision, and all service levies and other charges imposed under Regulations 12 and 13.

69. Issue of Permit Subject to Considerations

A permit shall not be issued when, in the opinion of the Town, the development of a subdivision does not contribute to the orderly growth of the municipality and does not demonstrate sound design principles. In considering an application, the Town shall, without limiting the generality of the foregoing, consider:

- (a) the location of the land;
- (b) the availability of and the demand created for schools, services, and utilities;
- (c) the provisions of the Plan and Regulations affecting the site;
- (d) the land use, physical form and character of adjacent developments;
- (e) the transportation network and traffic densities affecting the site;
- (f) the relationship of the project to existing or potential sources of nuisance;
- (g) soil and subsoil characteristics;

- (h) the topography of the site and its drainage;
- (i) natural features such as lakes, streams, topsoil, trees and shrubs;
- (j) prevailing winds;
- (k) visual quality;
- (l) community facilities;
- (m) energy conservation;
- (n) such other matters as may affect the proposed development.

70. Building Permits Required

Notwithstanding the approval of a subdivision by the Town, a separate building permit shall be obtained for each building proposed to be erected in the area of the subdivision, and no building permit for any building in the area shall be issued until the developer has complied with all the provisions of these Regulations with respect to the development of the subdivision.

71. Form of Application

Application for a permit to develop a subdivision shall be made to the Town in accordance with Regulation 16.

72. Subdivision Subject to Zoning

The subdivision of land shall be permitted only in conformity with the Use Zones delineated on the Zoning Maps.

73. Building Lines

The Town may establish building lines for any subdivision street and require any new building to be located on such building lines.

74. Land for Public Open Space

- (1) Before a development commences, the developer shall, if required, dedicate to the Town, at no cost to the Town, an area of land equivalent to not more than 10% of the gross area of the subdivision or 25 m² for every dwelling unit permitted in the subdivision, whichever is the greater, for public open space, provided that:

- (a) where land is subdivided for any purpose other than residential use, the Town shall determine the percentage of land to be dedicated;
 - (b) if, in the opinion of the Town, no public open space is required, the land may be used for such other public use as the Town may determine;
 - (c) the location and suitability of any land dedicated under the provisions of this Regulation shall be subject to the approval of the Town but in any case, the Town shall not accept land which, in its opinion is incapable of development for any purpose;
 - (d) the Town may accept from the developer in lieu of such area or areas of land the payment of a sum of money equal to the value of the land which would otherwise be required to be dedicated;
 - (e) money received by the Town in accordance with Regulation 74(1)(d) above, shall be reserved by the Town for the purpose of the acquisition or development of land for public open space or other public purpose.
- (2) Land dedicated for public use in accordance with this Regulation shall be conveyed to the Town and may be sold or leased by the Town for the purposes of any development that conforms with the requirements of these Regulations, and the proceeds of any sale or other disposition of land shall be applied against the cost of acquisition or development of any other land for the purposes of public open space or other public purposes.
- (3) The Town may require a strip of land to be reserved and remain undeveloped along the banks of any river, brook or pond, and this land may, at the discretion of the Town, constitute the requirement of land for public use under Regulation 70(1).

75. Structure in Street Reservation

The placing within any street reservation of any structure (for example, a hydro pole, telegraph or telephone pole, fire hydrant, mail box, fire alarm, sign post) shall receive the prior approval of the Town which shall be satisfied on the question of safe construction and relationship to the adjoining buildings and other structures within the street reservation.

76. Subdivision Design Standards

No permit shall be issued for the development of a subdivision under these Regulations unless the design of the subdivision conforms to the following standards:

- (a) The finished grade of streets shall not exceed 10 percent.
- (b) Every cul de sac shall be provided with a turning circle of a diameter of not less than 30 m.
- (c) The maximum length of any cul de sac shall be:
 - (i) 200m in areas served by or planned to be served by municipal piped water and sewer services, as shown in the map and letter of agreement signed by the Municipality and the Minister of Municipal Affairs in connection with municipal five-year capital works program eligibility.
 - (ii) 300m in areas not served by or planned to be served by municipal piped water and sewer services.
- (d) Emergency vehicle access to a cul de sac shall be not less than 3 m wide and shall connect the head of the cul de sac with an adjacent street.
- (e) No cul de sac shall be located so as to appear to terminate a collector street.
- (f) New subdivisions shall have street connections with an existing street or streets.
- (g) All street intersections shall be constructed within 5° of a right angle and this alignment shall be maintained for 30 m from the intersection.
- (h) No street intersection shall be closer than 60 m to any other street intersection.
- (i) No more than four streets shall join at any street intersection.

- (j) No residential street block shall be longer than 490 m between street intersections.
- (k) Streets in residential subdivisions shall be designed in accordance with the approved standards of the Town, but in the absence of such standards, shall conform to the following minimum standards:

Type of Street	Street Reservation	Pavement Width	Sidewalk Width	Sidewalk Number
Arterial Streets	30 m	15 m	1.5 m	discretion of Council
Collector Streets	20 m	15 m	1.5 m	2
Local Residential Streets:

- (l) No lot intended for residential purposes shall have a depth exceeding four times the frontage.
- (m) Residential lots shall not be permitted which abut a local street at both front and rear lot lines.
- (n) The Town may require any existing natural, historical or architectural feature or part thereof to be retained when a subdivision is developed.
- (o) Land shall not be subdivided in such a manner as to prejudice the development of adjoining land.

77. Engineer to Design Works and Certify Construction Layout

- (1) Plans and specifications for all water mains, hydrants, sanitary sewers, storm sewers and all appurtenances thereto and all streets, paving, curbs, gutters and catch basins and all other utilities deemed

necessary by the Town to service the area proposed to be developed or subdivided shall be designed and prepared by or approved by the Engineer. Such designs and specifications shall, upon approval by the Town, be incorporated in the plan of subdivision.

- (2) Upon approval by the Town of the proposed subdivision, the Engineer shall certify all work of construction layout preliminary to the construction of the works and thereupon the developer shall proceed to the construction and installation, at his own cost and in accordance with the approved designs and specifications and the construction layout certified by the Engineer, of all such water mains, hydrants, sanitary sewers and all appurtenances and of all such streets and other works deemed necessary by the Town to service the said area.

78. Developer to Pay Engineer's Fees and Charges

The developer shall pay to the Town all the Engineer's fees and charges for the preparation of designs and specifications and for the layout and supervision of construction; such fees and charges being percentages of the total cost of materials and labour for the construction and installation of all works calculated in accordance with the Schedule of Fees recommended by the Association of Professional Engineers of Newfoundland and in effect at the time the work is carried out.

79. Street Works May Be Deferred

The construction and installation of all curbs and gutters, catch basins, sidewalks and paving specified by the Town as being necessary, may, at the Town's discretion, be deferred until a later stage of the work on the development of the subdivision but the developer shall deposit with the Town before approval of his application, an amount estimated by the Engineer as reasonably sufficient to cover the cost of construction and installation of the works. In the later stage of the work of development, the Town shall call for tenders for the work of construction and installation of the works, and the amount so deposited by the developer shall be applied towards payment of the contract cost. If the contract cost exceeds the deposit, the developer shall pay to the Town the amount of the excess. If the contract price is less

than the deposit, the Town shall refund the amount by which the deposit exceeds the contract price. Any amount so deposited with the Town by the developer shall be placed in a separate savings account in a bank and all interest earned thereon shall be credited to the developer.

80. Transfer of Streets and Utilities to Town

- (1) The developer shall, following the approval of the subdivision of land and upon request of the Town, transfer to the Town, at no cost to the Town, and clear of all liens and encumbrances:
 - (a) all lands in the area proposed to be developed or subdivided which are approved and designated by the Town for public uses as streets, or other rights-of-way, or for other public use;
 - (b) all services or public works including streets, water supply and distribution and sanitary and storm drainage systems installed in the subdivision that are normally owned and operated by the Town.
- (2) Before the Town shall accept the transfer of lands, services or public works of any subdivision, the Engineer shall, at the cost to the developer, test the streets, services and public works installed in the subdivision and certify his satisfaction with their installation.
- (3) The Town shall not provide maintenance for any street, service or public work in any subdivision until such time as such street, service or public work has been transferred to and accepted by the Town.

81. Restriction on Sale of Lots

The developer shall not develop or dispose of any lot within a subdivision for the purposes of development and no building permit shall be issued until the Town is satisfied that:

- (a) the lot can be served with satisfactory water supply and sewage disposal systems, and;
- (b) satisfactory access to a street is provided for the lots.

82. Grouping of Buildings and Landscaping

- (1) Each plan of subdivision shall make provision for the grouping of building types and for landscaping in order to enhance the visual aspects of the completed development and to make the most use of existing topography and vegetation.
- (2) Building groupings, once approved by the Town, shall not be changed without written application to and subsequent approval of the Town.

PART V – USE ZONES

83. Use Zones

- (1) For the purpose of these Regulations, the Planning Area is divided into Use Zones which are shown on the Zoning Map attached to and forming part of these Regulations.
- (2) Subject to Regulation 83(3), the permitted use classes, discretionary use classes, standards, requirements and conditions applicable to each Use Zone are set out in the Use Zone Tables in Schedule C of these Regulations.
- (3) Where standards, requirements and conditions applicable in a Use Zone are not set out in the Use Zone Tables in Schedule C, the Town may in its discretion, determine the standards, requirements and conditions which shall apply.

84. Use Classes

The specific uses to be included in each Use Class set out in the Use Zone Tables in Schedule C shall be determined by the Town in accordance with the classification and examples set out in Schedule B.

85. Permitted Uses

Subject to these Regulations, the uses that fall within the Permitted Use Classes set out in the appropriate Use Zone Table in Schedule C shall be permitted by the Town in that Use Zone.

86. Discretionary Uses

Subject to these Regulations, the uses that fall within the Discretionary Use Classes set out in the appropriate Use Zone Table in Schedule C may be permitted in that Use Zone if the Town is satisfied that the development would not be contrary to the general intent and purpose of these Regulations, the Municipal Plan, or any further scheme or plan or regulation pursuant thereto, and to the public interest, and if the Town has given notice of the application in accordance with Regulation 22 and has considered any objections or representations which may have been received on the matter.

87. Uses Not Permitted – Prohibited Uses

Uses that do not fall within the Permitted Use Classes or Discretionary Use Classes set out in the appropriate Use Zone Tables in Schedule C, shall not be permitted in that Use Zone and are deemed to be prohibited uses.

Floor Area (maximum)	None	150 m ²

CONDITIONS FOR THE RESIDENTIAL ZONE

1. Discretionary Uses – Site Standards

The discretionary uses listed in this table may be permitted at the discretion of the Town provided that they are complementary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses. Educational, place of worship and general assembly shall be primarily local in nature.

2. Educational Uses

The only educational uses that may be permitted on a discretionary basis are elementary and junior high schools.

3. Accessory Buildings

Accessory buildings shall have a lot coverage no greater than 7% and a height of no more than 3 metres. Accessory buildings shall be located in the rearyard and shall be a minimum of 3 metres from the nearest part of the main building and a minimum of 1 metre from a side and rear lot line. The maximum floor area of any one accessory building shall be 55 m².

4. Advertisements Relating to Onsite Uses

The conditions which shall apply to the erection or display of an advertisement on any lot or site occupied by a use permitted or existing as a legal non-conforming use in this use zone, shall be as follows:

- (i) The size, shape, illumination and material construction of the advertisement shall meet the requirements of the Town, having regard to the safety and convenience of users of adjacent streets and sidewalks, and the general amenities of the surrounding area.
- (ii) No advertisement shall exceed 5 square metres in area.

5. Water Supply

All new development shall connect to the municipal water supply system.

6. Mobile Homes

A mobile home shall only be permitted when located in a mobile home park or subdivision. A mobile home subdivision shall comply with the requirements of the Mobile Home Development Regulations. In addition to this, mobile homes shall have a minimum lot size of 1,400 m² and a minimum building line of 8 m.

7. Convenience Stores

Convenience stores will only be permitted as a discretionary use under the following conditions:

- (i) The store shall form part of, or be attached to the single dwelling.
- (ii) The retail use shall be subsidiary to the dwelling and in keeping with the residential character of the area, and shall not adversely affect residential amenities of adjoining properties.
- (iii) Off-street parking for at least two automobiles shall be provided for the use of customers.
- iv) The store shall occupy a maximum of 25 percent of the floor area of the dwelling and shall not infringe on the minimum floor area of the dwelling.

8. Sideways

The minimum sideyard requirement under all other use classes may be increased when in the Town's opinion it is necessary to protect the amenity of an adjacent dwelling. Similarly, the Town may require fencing and landscaping.

9. Agriculture

Agricultural uses shall be limited to those that will not cause a nuisance or affect the amenity of nearby residential dwellings or other uses.

10. Access

Each lot proposed to be developed shall have the required minimum frontage on a publically owned and maintained street.

2. Advertisements Relating to Onsite Uses

The conditions which shall apply to the erection or display of an advertisement on any lot or site occupied by a use permitted or existing as a legal non-conforming use in this use zone, shall be as follows:

- i) The size, shape, illumination and material construction of the advertisement shall meet the requirements of the Town, having regard to the safety and convenience of users of adjacent streets and sidewalks, and the general amenities of the surrounding area.
- ii) No advertisement shall exceed 5 square metres in area.

3. Advertisements Relating to Offsite Uses

The conditions to be applied to the erection or display of an advertisement on any site, relating to a use permitted in this or another zone, or not relating to a specific land use, shall be as follows:

- i) Each advertisement shall not exceed three square metres in area.
- ii) When the advertisements relate to a specific land use, they shall be located within a reasonable distance of, and only show thereon the name and nature of the distance or direction to the premises to which they relate.
- iii) The location, siting and illumination of each advertisement shall be to the satisfaction of the Town, having regard to the grade and alignment of streets, the location of street junctions, the location of nearby buildings and the preservation of the amenities of the surrounding area.

4. Accessory Buildings

Accessory buildings shall have a lot coverage no greater than 7% and a height of no more than 3 metres. Accessory buildings shall be located in the

rearyard and shall be a minimum of 3 metres from the nearest part of the main building and a minimum of 1 metre from a side and rear lot line. The maximum floor area of any one accessory building shall be 55 m².

5. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Town provided that they are complementary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses.

6. Mobile Homes

A mobile home shall only be permitted when located in a mobile home park or subdivision. A mobile home subdivision shall comply with the requirements of the Mobile Home Development Regulations. In addition to this, mobile homes shall have a minimum lot size of 1,400 m² and a minimum building line of 8 m.

7. Sideyard

The minimum sideyard requirement under all other use classes may be increased when in the Town's opinion it is necessary to protect the amenity of an adjacent dwelling. Similarly, the Town may require fencing and landscaping.

8. Agriculture

Agricultural uses shall be limited to those that will not cause a nuisance or affect the amenity of nearby residential dwellings or other uses.

9. Water Supply

All new development shall connect to the municipal water supply system.

10. Access

Each lot proposed to be developed shall have the required minimum frontage on a publically owned and maintained street.

USE ZONE TABLE – RURAL

ZONE TITLE	RURAL (RU)	(Port Au Port East)
PERMITTED USE CLASSES - (see Regulation 85)		
Agriculture, Conservation, Forestry, Mineral Exploration and Recreational Open Space.		
DISCRETIONARY USE CLASSES - (see Regulations 23 and 86)		
Antenna, Cemetery, Mineral Working, Seasonal Residential and Single Dwelling.		

CONDITIONS FOR THE RURAL ZONE

1. Advertisements Relating to Onsite Uses

The conditions which shall apply to the erection or display of an advertisement on any lot or site occupied by a use permitted or existing as a legal non-conforming use in this use zone, shall be as follows:

- i) The size, shape, illumination and material construction of the advertisement shall meet the requirements of the Town, having regard to the safety and convenience of users of adjacent streets and sidewalks, and the general amenities of the surrounding area.
- ii) No advertisement shall exceed 5 square metres in area.

2. Advertisements Relating to Offsite Uses

The conditions to be applied to the erection or display of an advertisement on any site, relating to a use permitted in this or another zone, or not relating to a specific land use, shall be as follows:

- i) Each advertisement shall not exceed three square metres in area.
- ii) When the advertisements relate to a specific land use, they shall be located within a reasonable distance of, and only show thereon the name and nature of the distance or direction to the premises to which they relate.
- iii) The location, siting and illumination of each advertisement shall be to the satisfaction of the Town, having regard to the grade and alignment of streets, the location of street junctions, the location of nearby buildings and the preservation of the amenities of the surrounding area.

3. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Town provided that they are complementary to uses within the permitted use classes or that their development will not inhibit or prejudice the existence or the development of such uses.

4. Access

Uses open to or used by the public shall front on a public road which is built to a standard set by the Town to provide access by the public and emergency vehicles.

5. Single Dwelling

Single dwellings may be permitted in association with an agricultural use when it can be shown that full time habitation is necessary to the successful operation of the agriculture use.

Single dwellings in this zone shall have:

- a) a minimum floor area of 90 m²;
- b) a minimum building line of 10 m;
- c) a minimum lot size of 1,860 m².

6. Agriculture, Forestry and Mineral Workings

Agriculture, forestry and mineral working uses shall be separated from the Mixed Development and Residential Water Serviced Zones sufficiently to ensure that these uses are not a nuisance or will not detrimentally affect the uses in the adjacent zones.

7. Seasonal Residential

A seasonal residential use shall meet the requirements of the Department of Government Services for water supply and sewage disposal.

8. Watershed Protection

No development shall be permitted in the water supply area.

9. Mineral Workings

Unless the Town is satisfied that the working will not create a nuisance and will not adversely affect the amenity of a specific development or natural feature, no mineral workings shall be located closer than the minimum distance set out below to the specified development or natural feature:

	Minimum Distance of Pit or Quarry Working
Existing or proposed Residential Development	300 metres

Any other developed area or area likely to be developed during the life of the pit or quarry working	150 metres
Public Highway or Street	50 metres
Protected Road	90 metres
Waterbody or watercourse	50 metres

b) Screening

A mineral working shall be screened in the following manner where it is visible from a public street or highway, developed area, or area likely to be developed during the life of the use:

- i) Where tree screens exist between the mineral working and adjacent public highways and streets or other land uses (excepting forestry and agriculture), the tree screens shall be retained in a 30-metre wide strip of vegetation so that visibility of any part of the use from the surrounding uses or streets will be prevented. The tree screens must be maintained by the owner or occupier of the use to retain 30 metres in a forested appearance. Where vegetation dies or is removed from the 30-metre strip, the Town may require new trees of a minimum height of 1 metre be planted to fill in the areas affected to the satisfaction of the Town or, at the discretion of the Town, condition b (ii) must be undertaken.
- ii) Where no tree screens exist of sufficient width and density to constitute a visual screen, earthen berms shall be constructed to a height sufficient to prevent visibility of any part of the mineral working from adjacent uses (excepting forestry and agriculture), or adjacent public highways and streets. The berms shall be landscaped to the Town's satisfaction.

- iii) Where natural topography creates a visual screen between mineral workings and adjacent public highways and streets or other land uses (excepting forestry and agriculture), additional screening may not be required.
- iv) Where effective screening for any mineral working or associated processing or manufacturing use cannot be installed or located as required in i) - iii) above, the Town may refuse to permit the use or associated activity.

c) Fencing

The Town may require the mineral working site or excavated areas of a pit or quarry working to be enclosed by a fence designed and constructed to its specifications and no less than 1.8 metres in height.

d) Water Pollution

No mineral working or associated storm or sanitary drainage shall unacceptably reduce the quality of water in any body of water or watercourse. Any access road to a pit or quarry working which crosses a brook or stream shall be bridged or culverted at the crossing in accordance with the Regulations of the Department of Environment and Conservation.

e) Water Ponding

No mineral working or associated storm or sanitary drainage shall unacceptably reduce the quality of water in any body of water or watercourse. Any access road to a pit or quarry working which crosses a brook or stream shall be bridged or culverted at the crossing in accordance with the Regulations of the Department of Environment and Conservation.

f) Erosion Control

No mineral working shall be carried out in a manner so as to cause erosion of adjacent land.

g) Site Maintenance

The mineral working shall be kept clean of refuse, abandoned vehicles, and abandoned equipment and any derelict buildings.

h) Access Roads

During extended periods of shutdown, access roads to a mineral working shall be ditched or barred to the satisfaction of the Town.

i) Stockpiling Cover Material

All stumps, organic material and topsoil, including the rusty coloured and iron stained layer, shall be stripped and stockpiled at least 5 metres from active quarry or stockpile areas. The owner or operator shall ensure that the quality of the topsoil is not affected by dilution with other materials.

j) Operating Plant and Associated Processing and Manufacturing

i) The Town may permit processing and manufacturing use associated with mineral workings provided that, in the opinion of the Town, the use does not create a nuisance nor is liable to become a nuisance or offensive by the creation of noise or vibration, or by reason of the emission of fumes, dust, dirt, objectionable odour, or by reason of unsightly storage of materials.

ii) All permanent or temporary buildings, plants and structures associated with processing and manufacturing will be located

so as not to interfere with the present or future extraction of aggregate resources.

- iii) The Town may specify a minimum separation distance between operating plant or associated processing and manufacturing structure or equipment and adjacent developed areas likely to be developed during the life of the mineral working.

k) Termination and Site Rehabilitation

Upon completion of the mineral working, the following work shall be carried out by the operation:

- i) All buildings, machinery and equipment shall be removed.
- ii) All pit and quarry slopes shall be graded to slopes less than 20° or to the slope conforming to that existing prior to the mineral working.
- iii) Topsoil and any organic materials shall be re-spread over the entire quarried area.
- iv) The access road to the working shall be ditched or barred to the satisfaction of the Town.
- v) If the mineral working contains reserves of material sufficient to support further extraction operations, the Town may require the work described above to be carried out only in areas of the site where extraction has depleted aggregate reserves.

USE ZONE TABLE - ENVIRONMENTAL PROTECTION

ZONE TITLE	ENVIRONMENTAL PROTECTION (EP) (Port Au Port East)
PERMITTED USE CLASSES - (see Regulation 85)	
Conservation.	
DISCRETIONARY USE CLASSES - (see Regulations 23 and 86)	
Antenna and Transportation	

CONDITIONS FOR THE ENVIRONMENTAL PROTECTION ZONE

1. Discretionary Use Classes

The discretionary use classes listed in this table may be permitted at the discretion of the Town.

A transportation use shall be restricted to wharfs, docks, stages, slipways or marinas.

2. Access Road to Table Mountain

Development that may destroy or detrimentally affect the growth and survival of the rare plant species along the road to the top of the mountain shall be prohibited.

USE ZONE TABLE
PROTECTED PUBLIC WATER SUPPLY (PPWS) ZONE

<p>ZONE TITLE: PROTECTED PUBLIC WATER SUPPLY (PPWS) ZONE (Port au Port East)</p>
<p>PERMITTED USE CLASSES - (see Regulation 85) Antenna, Conservation and Public Services and Public Utilities</p>

CONDITIONS FOR THE PROTECTED PUBLIC WATER SUPPLY ZONE

1. General Conditions and Referrals

In addition to any other approvals or requirements by the Town, all development in this zone shall be subject to the approval of the Minister of Environment and Conservation.

Conditions 1, 2, 3, 4 and 5 are based upon Department of Environment and Conservation Policy Directive W.R. 95-01 - Water Resources Management Division as modified.

- (1) Existing activities will be allowed to continue unless it is established that these are impairing water quality or have the potential to impair water quality.
- (2) The Minister of Environment and Conservation may require proponents of existing activities, which have the potential to impair water quality, to obtain his/her approval.
- (3) No development shall be carried out in the protected water supply area/zone except in accordance with this policy.

- (4) No person shall carry out any development in the protected water supply area/zone without obtaining prior approval in writing from the Minister.

2. Activities Not Permitted in the Zone

The following activities shall not be permitted in the Protected Water Supply Zone:

- a) placing, depositing or discharging or permitting the placing, depositing or discharging into a body of water any sewage, refuse, chemicals, municipal and industrial wastes or any other material which impairs or has potential to impair water quality;
- b) using an intake, pond, lake, river or specified buffer zones for any activity detrimental to water quality, and not permitted in the Water Resources Act;
- c) using ice covered water body for transporting logs or wood, riding skidoos/motor vehicles/all terrain vehicles, leading animals, or any other activity, including littering, which impairs or has potential to impair water quality;
- d) using or operating existing facilities in such a manner that impairs or has potential to impair water quality;
- e) vehicle maintenance facilities, warehouses and chemicals and salt storage depots;
- f) storage and disposal of pesticides and manure, application of manure and chemicals in specified buffer zones, extensive land clearing, and peat land drainage without adequate treatment;
- g) clear-cutting of forest in sensitive areas, establishment of camps and camp facilities, storage of chemicals, application of pesticides,

drainage of peat land for afforestation, and application of toxic fire retardants;

- h) activities, operations or facilities associated with aggregate extraction and mineral exploration such as work camps, vehicle parking and maintenance facilities, washing of aggregates, asphalt plants, discharge or deposit of waste material into a body of water, and significant disturbance to land for mineral exploration purposes;
- i) application of herbicides in the right-of-way, and use of chemically treated utility poles and other related structures;
- j) aquaculture development and associated activities having potential to impair water quality;
- k) processing and manufacturing plants having potential to impair water quality; and,
- l) waste disposal facilities, and any other storage or disposal facilities that the Minister of Environment and Conservation considers environmentally unacceptable.

3. Activities Regulated in the Zone

Subject to the other provisions of these Regulations, in this zone no person shall, including the permitted and discretionary use classes, undertake any of the following activities without obtaining prior written approval from the Minister of Environment and Conservation and a permit from the Town:

- a) expansion and upgrading of the existing activities, operations or facilities;
- b) land clearing or drainage, construction of access roads, servicing of lands for subsequent use, or extension and upgrading of existing buildings or facilities;

- c) installation of storm or sanitary sewer pipelines, pipelines for transmission of water for hydroelectric generation, agriculture uses, or any other purposes;
- d) construction of roads, bridges, culverts, and other stream crossings, and installation of power and telecommunication transmission lines;
- e) modification to intake structures, pump house, reservoir; and
- f) any other development or activity which, in the opinion of the Minister of Environment and Conservation, has caused impairment or has potential to impair water quality.

4. Approval Process

- (1) The proponent shall submit a detailed development plan along with maps, drawings and specifications and other information as required by the Town and the Minister of Environment and Conservation for approval.
- (2) The Minister of Environment and Conservation may, on the recommendation of his/her officials, issue a certificate of approval for the proposed development on such terms and conditions as the Minister considers necessary to protect water quality.
- (3) The proponent shall obtain separate approvals under Section 48 of the Water Resources Act from the Minister of Environment and Conservation for all permanent or temporary stream crossings or for alteration to bodies of water that may be necessary to carry out the approved development.
- (4) The proponent shall also obtain licences, permits or approvals under other Acts and Regulations, including the Development Regulations as required prior to commencing the approved work.

- (5) The proponent of the approved development shall notify the Town by providing a copy of the approval issued under this policy before commencing the work.
- (6) The proponent shall maintain adequate liaison and consultation with the person or authority responsible for the operation and maintenance of the waterworks during the implementation and operation of the approved work.
- (7) The Minister of Environment and Conservation may require the inspection of the approved development from time to time by his/her officials to ensure that the development is carried out in an environmentally acceptable manner and the proponent is complying with the terms and conditions of the approval.
- (8) The Minister of Environment and Conservation may require a proponent to monitor water quality according to a monitoring program approved by the Minister in order to evaluate the impact of the approved development on public water supply.

5. Buffer Zones

The proponents shall provide the following widths of buffer zones along and around water bodies from the high water mark in a designated area:

Water Body	Width of Buffer Zones
Intake pond or lake	a minimum of 150 metres
River intake	a minimum of 150 metres for a distance of one kilometre upstream and 100 metres downstream
Main river channel	a minimum of 75 metres
Major tributaries, lakes or ponds	a minimum of 50 metres
Other water bodies	a minimum of 30 metres

No development activity shall be permitted in buffer zones except those that are intended to promote vegetation.

USE ZONE TABLE
WELLHEAD PROTECTED WATER SUPPLY AREA

<p>WELLHEAD PROTECTED WATER SUPPLY AREA (Port Au Port East)</p>
<p>PERMITTED USE CLASSES - (see Regulation 84) See Conditions</p>
<p>DISCRETIONARY USE CLASSES - (see Regulations 22 and 85) See Conditions</p>

CONDITIONS FOR THE WELLHEAD PROTECTED WATER SUPPLY AREA

- (1) Notwithstanding the use zone, within a Wellhead Protected Water Supply Area any development except renovations to an existing structure, fences and minor landscaping shall be referred to the Department of Environment and Conservation for approval before a permit is issued by the Town.
- (2) Notwithstanding the use zone, within the Wellhead Protected Water Supply Area, the following chemicals/activities are prohibited unless it has been proven to the satisfaction of the Minister of Environment and Conservation that such uses will not cause deterioration of the quality of the water supply over the long term and that measures satisfactory to the Minister have been undertaken to prevent leaks or contamination from tanks and other storage facilities into the aquifer of the well:
 - a) petroleum fuels in excess of 25 L;
 - b) petroleum solvents in excess of 10 L;
 - c) chlorinated solvents in excess of 10 L;
 - d) pesticides and preservatives in excess of 10 L;
 - e) new sewerage systems
 - f) manure storage;
 - g) manure application;
 - h) mining and aggregate removal;
 - i) inorganic fertilizers (no bulk storage);

- j) forestry (salvage cutting permitted);
 - k) sawmill operations;
 - l) groundwater extraction(non private wells);
 - m) groundwater heat pumps;
 - n) road salt (no bulk storage);
 - o) waste disposal.
- (3) Tanks and other material containment facilities shall be inspected at least once a year to ensure their soundness in accordance with the standards established by the Minister of Environment and Conservation.

SCHEDULE D
OFF-STREET PARKING REQUIREMENTS

1. The offstreet parking requirements for uses in the various use classes set out in Schedule B shall be as set out in the following table.
2. In the case of developments including uses in more than one use class, these standards shall be regarded as cumulative.
3. Adequate offstreet provision for drop-off and pick-up of persons shall be provided in developments where required, such as uses within the educations, passenger assembly, child care, medical treatment and special care, commercial residential and take-out food service use classes.
