Re: **Ramea - Northwest Pond PPWSA-Quarry Operations-Floyd's Construction**

The original Permit dated DECEMBER 01, 2017 is amended as follows:

Original Conditions #6 & #32 are to be replaced by:

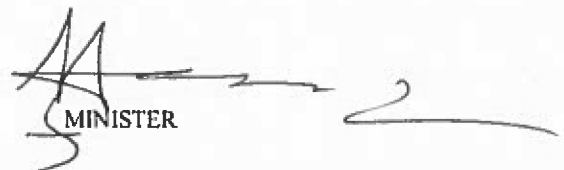

Condition #6:

An undisturbed (no cutting or ground disturbance) buffer zone of at least 75 metres shall be maintained around Northwest Pond, at least 50 metres along both sides of all streams and main tributaries running into Northwest Pond, and at least 30 metres around all ponds and along both sides of all other water bodies. Activity or development within these buffer zones is prohibited. All buffer zones must be marked with signs or flagging tape to avoid encroachment into the buffer zones.

Condition #32:

Blasting operations must not occur within 75m of Northwest Pond. To protect the drinking water quality and quantity for the Town of Ramea, quarry operations must occur as far away from Northwest Pond as possible.

All other terms and conditions of the original Permit will apply and failure to comply with the terms and conditions of this amendment and the original Permit will render this Permit null and void, place the Permit Holder and their agent(s) in violation of the *Water Resources Act* and make the Permit Holder responsible for taking any remedial measures as may be prescribed by this Department.
