

### AMENDMENT TO PERMIT

Pursuant to the *Water Resources Act*, SNL 2002 cW-4.01, specifically Section(s) 49

Date: MARCH 22, 2017

File No: 525/524  
Permit No: ALT8797-2016  
Amendment No: 1

Permit Holder: Newfoundland and Labrador Hydro  
500 Columbus Drive  
P.O. Box 12400  
St. John's, NL, A1B 4K7

Attention: Mr. Carl Newcombe

Re: Bay D'Espoir to Chapel Arm (Various Bodies of Water) - Temporary Culverts and Bridges for TL 267

The original Permit dated AUGUST 09, 2016 is amended as follows:

1. "40 metres" in Clause # 2 shall read "60 metres".
2. The attached list for fording terms and conditions forms part and parcel of this Permit in reference to the request dated March 17, 2017.

All other terms and conditions of the original Permit will apply and failure to comply with the terms and conditions of this amendment and the original Permit will render this Permit null and void, place the Permit Holder and their agent(s) in violation of the *Water Resources Act* and make the Permit Holder responsible for taking any remedial measures as may be prescribed by this Department.

MINISTER

## **Fording**

1. Except for single passenger all-terrain vehicles, crossings by other vehicles or construction equipment shall be limited to one trip in and one trip out.
2. Alteration of the natural minimum streamflow is not permitted in order to preserve aquatic life.
3. Stream banks at fording sites that contain loose or erodible material must be adequately stabilized before crossing to minimize any siltation of streams.
4. The natural course of any stream must not be altered.
5. Infilling must not cause increased water elevation upstream or increase flow velocity downstream of the site. Reduction of the natural cross sectional area of any watercourse is not permitted.
6. The fording sites must be located at shallow sections of the channels where there are low approach grades, and where the channels consists of stable non-erodible rock or cobbles.
7. Fording shall only be carried out during periods of low water levels.
8. When the fording sites are no longer required, the Permit Holder must dismantle and remove all constructed works and restore the sites to their original condition. All material placed in streams must be completely removed.
9. A complete oil spill clean-up kit must be on site at all times when gasoline or fuel powered equipment is being used or refuelled. The kit must contain the following:
  - One hand operated fuel pump
  - One recovery container such an empty 205 litre drum
  - One shovel
  - One pick ax
  - Five metres of containment boom
  - Five absorbent pads
  - Twenty-five litres of loose absorbent material
10. Within 30 days after the completion of fording activities, the Permit Holder must submit to this Department a report confirming that each fording location was left in as good or better condition than prior to Permit Holder's fording activities. This report should include detailed pictures of each site before and after fording activities.
