Attention: **Mr. Allan Green**

Re: **Water Use for Mary's Harbour Mini Hydroelectric Power Generating Plant, Mary's Harbour, Labrador**

The Minister of Municipal Affairs and Environment (the "Minister") hereby grants a non-exclusive water right to: **Mary's Harbour Hydro** (the "Licensee") to continue extraction and use of water from St. Mary's River using the intake structure, the intake channel, and the penstock to continue operating the Licensee's existing mini hydroelectric power generating plant near the Community of Mary's Harbour (the "plant"), located on the south east coast of Labrador as indicated in Schedule A, defined herein as the "authorized plant area", for the purpose of generating hydroelectric power and subsequent sale for the Community of Mary's Harbour. The non-exclusive water right is granted in reference to the original application for Water Use Authorization dated January 3, 1990, the applications for renewals dated November 29, 1996 and January 26, 2017 and further information provided on or before March 8, 2017.

This Licence is subject to the terms and conditions, reservations, exceptions, and provisions stated herein and the *Water Resources Act* and regulations thereunder. Appendices A, B and Schedule A (attached) form part and parcel of this Licence.

This Licence does not release the Licensee from the obligation to obtain appropriate approvals, permits or licences from other concerned municipal, provincial and federal agencies.

**The Licensee shall complete and return the attached Notification of Acceptance of Water Use Licence to the Water Rights and Investigations Section of the Department of Municipal Affairs and Environment within thirty (30) days of receipt of this Licence.**

Failure to comply with the terms and conditions, reservations, exceptions, and provisions set out herein will render this Licence null and void, place the Licensee and/or its agents in violation of the *Water Resources Act*, and cause the Licensee to be responsible for any and all remedial measures which may be prescribed by the Department of Municipal Affairs and Environment.

APPENDIX A  
TERMS AND CONDITIONS FOR WATER USE LICENCE

The Minister of Municipal Affairs and Environment (the "Minister") hereby grants a non-exclusive water right to: **Mary's Harbour Hydro** (the "Licensee") to continue extraction and use of water from St. Mary's River using the intake structure, the intake channel, and the penstock to continue operating the Licensee's existing mini hydroelectric power generating plant near the Community of Mary's Harbour (the "plant"), located on the south east coast of Labrador as indicated in Schedule A, defined herein as the "authorized plant area", for the purpose of generating hydroelectric power and subsequent sale for the Community of Mary's Harbour. The non-exclusive water right is granted in reference to the original application for Water Use Authorization dated January 3, 1990, the applications for renewals dated November 29, 1996 and January 26, 2017 and further information provided on or before March 8, 2017.

1. Ownership of water rights remains with the Crown and is not transferred. This Water Use Licence only provides permission for the Licensee to extract and use water for the designated purpose indicated in this Licence. Also, the Licensee acknowledges and agrees that this Licence does not grant any interest in land in and outside the authorized plant area.
2. The non-exclusive rights and privileges hereby demised by this Licence shall not be sold, assigned, transferred, leased, mortgaged, sublet or otherwise alienated by the Licensee without obtaining the prior written approval of the Minister.
3. This Licence shall not affect or be interpreted as granting any rights which might affect the quantity and quality of water required at present or in the future to the Community of Mary's Harbour and any and all water users in and outside the authorized plant area for their domestic and municipal uses. The Licensee shall be responsible for undertaking any measures which the Minister considers necessary to satisfy the quantity and quality of water required at present or in the future for the said water uses.
4. This Licence is subject to the full right of Government, its licensees, lessees, assignees, transferees, and any other person authorized by Government to enjoy all other rights not otherwise granted and demised by this Licence.
5. This Licence shall expire on December 31, 2041 or earlier if suspended or modified or cancelled by the Minister due to reasons that include, but is not limited to, non-compliance with the Water Resources Act, 2002 and terms and conditions, reservations, exceptions, and provisions, lack of utilization of approved water for the designated purpose or prompt reporting pursuant to this Licence. Also, this Licence may be renewed by the Minister for such renewal term as the Minister deems appropriate, on such terms and conditions as the Minister considers appropriate and in the public interest, provided the Licensee applies for an extension at least one (1) year before the expiry of this Licence. This Licence supercedes and cancels in whole and in part Water Use Licence No. WUL-04-094 issued on May 12, 2004 and its amendment issued on January 2, 2013 to the Licensee.
6. The designated purpose of the water use is Water Power Generation.
7. The maximum estimated annual water extraction and use from St. Mary's River shall not exceed 67,000,0000 cubic meters, subject to water availability without changing the hydraulic characteristics of or causing impact on fish and fish habitat in the said body of water or impact on any and all water users in and outside the authorized plant area. The Licensee shall not at any time extract and use amounts of water in excess of the need of water to the designated purpose of the water use indicated in this Licence, irrespective of the amount of water authorized by this Licence. In addition, the Licensee shall take all necessary measures to avoid damage of fish habitat and disturbance of the material of the said body of water.
8. The water extraction to the intake channel and penstock shall be made at the intake structure location (52°18'06"N, 55°51'42"W) approved by C.A. 86-12-746 in St. Mary's River and water shall be returned to St. Mary's River at the tailrace location (52°18'07"N, 55°51'30"W) as indicated in Schedule A.
9. The Minister shall have the right to allocate the water in excess of the authorized water for the plant, for any other beneficial purpose provided such allocation of the water does not prejudicially affect the rights of the Licensee conveyed in this Licence. The Licensee will be duly informed and consulted by the Minister on any request for authorization of the excess water.
10. The Minister may, upon providing hundred and eighty (180) days written notice to the Licensee, suspend, cancel or modify

this Licence by allocating all or part of the authorized water, for other beneficial use(s) of higher order of precedence outlined in Section 15 of the Water Resources Act, 2002 on priority right. The Licensee will be fully consulted on any such applications before any decision is taken by the Minister.

11. The Licensee shall not at any time impair, pollute or cause to be polluted the quality of water in St. Mary's River or any nearby body of water. Also, this Licence shall not be interpreted as granting any rights to cause adverse effect(s) on water and any and all water users in and outside the authorized plant area and all operations must be carried out in a manner that prevents damage to land, vegetation, and bodies of water. The Water Resources Management Division of this Department must be informed if water extraction and use activities or any ongoing activity has a potential to impair, pollute or cause to be polluted the quality of water in the said body of water or any nearby body of water. In addition, any and all waste material that may result from water extraction and use activities must be removed and disposed at a site approved by the regional Government Service Centre of the Department of Service NL. This Department and Department of Service NL may require samples to be submitted for testing and analysis.
12. Water pumped or discharged from the authorized plant area, or any runoff or effluent directed out of the authorized plant area, must have silt and turbidity removed by filtration or other suitable treatment before discharging to any nearby body of water. Effluent discharged into receiving waters must comply with the Environmental Control Water and Sewage Regulations, 2003.
13. The Licensee shall keep all systems, works, equipment and vehicles in clean and good condition and repair, free of oil leaks, or other harmful substances that could impair water quality of the said body of water or any nearby body of water and in accordance with all laws, by-laws, directions, rules and regulations of any governmental authority. The Licensee shall immediately notify the Minister if any problem arises which may threaten the structural stability of the systems and works such as the intake structure, the intake channel, the penstock and other systems and works, endanger public safety and/or the environment or adversely affect water users either in or outside the authorized plant area. The Licensee shall be responsible for all damages suffered by the Minister and Government resulting from any defect in the systems and works, operational deficiencies/inadequacies, or structural failure. Further remedial measures to mitigate environmental impacts on water resources can and will be specified, if necessary in the opinion of this Department.
14. The Licensee shall not construct any new systems and works or make alterations to the existing systems and works in or outside the authorized plant area without obtaining the prior written approval of the Minister. Also, the Licensee shall abide by terms and conditions indicated in Permits, Licences or Certificates issued or that are to be issued in connection with the plant and its systems and works required in or outside the authorized plant area. In addition, the Licensee shall not make changes in the purpose, rates and amounts of water authorized in this Licence, or divert the course or alter the physical features of the bodies of water within or outside the authorized plant area without obtaining the prior written approval of the Minister.
15. The Licensee shall operate the plant in a manner which does not cause any water related and or environmental problems, including but not limited to problems of erosion, deposition, flooding, deterioration of water quality and groundwater depletion in or outside the authorized plant area. The Licensee shall be responsible for any and all damages associated with these problems caused as a result of changes, deficiencies, and inadequacies in the Licensee's operational procedures.
16. The Licensee may be required by the Minister to install, operate and maintain streamflow, water level monitoring stations, and other necessary measures in or outside the authorized plant area and also to monitor water quality at specified locations in such a manner as the Minister considers necessary for the assessment of the quantity and quality of the water available in or outside the authorized plant area and the quantity of water used by the Licensee for the generation of hydroelectric power.
17. Licence is subject to the Water Power Rental Regulations, NI R 64/03 under the Water Resources Act, 2002 and the Licensee shall upon receipt of an invoice stating the amount owing for water power rentals, pay to the Minister the full amount within thirty (30) days of the receipt of the said invoice and if imposed by provincial legislation, fees, incentives, royalties, subsidies or water use charges for water use.
18. The Licensee shall prudently maintain in good faith records, accounts and statements of the rates and amounts of water used on a daily basis for the generation of hydroelectric power, power production and any other information that the Minister may require in whatever form, manner and time. Also, the Licensee shall ensure that rates and amounts of flows in St. Mary's River during the operation of the said plant, are sufficient for protecting fish habitat and aquatic life as required under the federal Fisheries Act and/or any other federal or provincial legislation. Copies of such records, accounts, and statements shall be submitted to the Water Rights and Investigations Section of this Department on or before the January 31st of each year during the term created by this Licence.
19. The employees of this Department, authorized by the Minister, may at all reasonable times during the term created by this Licence enter into enter into into the authorized plant area and the Licensee's designated place(s) of business to inspect all associated systems or works, records, statements, and accounts, and shall be entitled to copy such information as may be required by the Minister in relation to this Licence and may exercise all other powers of inspection as provided for in the

Water Resources Act, 2002.

20. If the Licensee or its agent(s), subcontractor(s), or consultant(s) fails to perform, fulfil, or observe any of the terms and conditions, or provisions of this Licence and or Ministerial orders and guidelines, as determined by this Department, the Minister may, after providing ten (10) day notice to the Licensee, amend, modify, suspend or cancel this Licence in accordance with the Water Resources Act, 2002.
21. The Licensee and its agent(s), subcontractor(s), and consultant(s) indemnify and hold the Government and the Minister harmless against any and all liabilities, losses, claims, demands, damages or expenses including legal expenses of any nature whatsoever whether arising in tort, contract, statute, trust or otherwise resulting directly or indirectly from the non-exclusive rights granted under this Licence, systems, works and equipment in or outside the authorized plant area, or any act or omission of the Licensee or its agent(s), subcontractor(s), or consultant(s) in or outside the authorized plant area and all associated systems, works and equipment, or arising out of a breach or non-performance of any of the terms and conditions, and provisions of this Licence by the Licensee or its agent(s), subcontractor(s), or consultant(s).
22. Should any provision of this Licence be unenforceable, it shall be considered separate and severable from the remaining provisions of this Licence which shall remain in force and be binding as though the provision had not been included.
23. This Licence is subject to all provisions of the Water Resources Act, 2002 and any regulations in effect either at the date of this Licence or hereafter made pursuant thereto or any other relevant legislation enacted by the Province of Newfoundland and Labrador in the future.
24. This Licence shall be construed and interpreted in accordance with the laws of the Province of Newfoundland and Labrador.

All notices to be given pursuant to the terms and conditions of this Licence shall be given in writing and delivered by facsimile with auto confirmation or registered mail. If a notice is delivered by facsimile, it is deemed to have been received on the day it was sent if that day is a normal business day, if not, it is deemed to have been received on the next normal business day.
