

The Hydrology of Labrador

Ken Rollings, P. Eng.

*Hydrologic Modelling Section
Water Resources Management Division
Department of Environment and Labour
Government of Newfoundland and Labrador
St. John's, Newfoundland, Canada*

June 1997

TABLE OF CONTENTS

EXECUTIVE SUMMARY	1
1. INTRODUCTION	
1.1 Background	4
1.2 Objectives	5
1.3 Literature Review	6
1.4 General Approach	9
2. HYDROLOGICAL SETTING	
2.1 Physical Features	11
2.2 Surficial and Bedrock Geology	12
2.3 Vegetation	16
2.4 Climate	16
2.5 Hydrology	20
3. PHYSIOGRAPHY	
3.1 Drainage Areas in General	22
3.2 Database	23
4. CLIMATE	
4.1 Database	25
4.2 Air Temperature	29
4.2.1 Mean Annual Air Temperature	29
4.2.2 Mean Monthly Air Temperature	30
4.2.3 Melting Degree-days	31
4.3 Precipitation	33
4.3.1 Mean Annual Precipitation	33
4.3.2 Mean Monthly Precipitation	34
4.3.3 Mean Annual Rainfall and Snowfall	36
4.3.3 Mean Monthly Rainfall and Snowfall	37

4.4	Snow on Ground	40
4.5	Other Parameters	42
4.5.1	Evaporation	42
4.5.2	Wind	43
4.5.3	Permafrost	44
5.	HYDROLOGY	
5.1	Database	45
5.2	Streamflows	52
5.2.1	Examination of Hydrographs	52
5.2.2	Annual Runoff	54
5.2.3	Monthly Runoff	54
5.2.4	Seasonal Runoff	58
5.3	Timing of Streamflow Extremes	59
5.4	High Flows	61
5.4.1	Mean Peak Flows	61
5.4.2	Frequency Analysis	62
5.5	Low Flows	67
5.5.1	Winter Minimum Flows	68
5.5.2	Summer Minimum Flows	68
5.5.3	Recession Characteristics	69
6.	CORRELATION OF HYDROLOGICAL AND CLIMATIC DATA	
6.1	Selection of Watersheds	73
6.2	Data Analysis	75
6.3	Results	81
7.	CORRELATION OF HYDROLOGICAL AND PHYSIOGRAPHIC DATA	
7.1	Selection of Watersheds	83
7.2	Data Analysis	87

7.3	Results	92
8.	CONCLUSIONS, DISCUSSION AND RECOMMENDATIONS	
8.1	Conclusions	98
8.2	Discussion and Recommendations	102
9.	REFERENCES	105

APPENDICES (under a separate cover)

A	Climate Stations in Labrador
B	Select Climate Stations in Quebec
C	Mean Monthly Temperatures in Labrador
D	Mean Monthly Melting Degree-days in Labrador
E	Mean Monthly Precipitation in Labrador
F	Mean Monthly Rainfall or Snowfall in Labrador
G	Mean Month-end Snow Cover in Labrador
H	Streamflow Gauging Stations in Quebec which may be Used to Model Hydrology in Labrador
I	Map Showing Locations of Streamflow Gauging Stations
J	Annual Hydrographs of Daily Streamflows in Labrador
K	Annual Distribution of Mean Monthly Runoff in Labrador
L	Seasonal Flows in Labrador
M	Timing of Streamflow Extremes
N	Annual Maximum instantaneous Discharges
O	Single Station Frequency Analysis
P	Low Flows
Q	Recession Characteristics
R	Annual Graphs of Daily Streamflow and Climatic Data for Select Watersheds in Labrador
S	Plots of Hydrologic and Climatic Parameters

LIST OF TABLES, FIGURES AND PLATES

Tables:

3.1	Physiographic Parameters for Naturally Flowing Gauged Watersheds in Labrador	24
4.1	Select Climate Stations in Labrador and Quebec	26
5.1	Streamflow Gauging Stations in Labrador	46
5.2	Characteristics of Streamflow Gauging Stations in Labrador	47
5.3	Characteristics of Select Streamflow Gauging Stations in Quebec	48
5.4	Mean Annual Runoff of Select Stations	55
5.5	Timing of the Spring Flood	60
5.6	Mean Annual Peak Flow	62
5.7	Flood Flow Estimates for Select Return Periods	66
5.8	Mean Annual Minimum Flows	69
5.9	Recession Characteristics	71
7.1	Watersheds Selected for Correlation	86
7.2	Ratio of Return Period Flows to the Mean Peak Flow	91
7.3	Linear Regression of Untransformed Data	92
7.4	Linear Regression of Untransformed Data with Constant=0	92
7.5	Linear Regression of Log-transformed Data	92

Figures:

2.1	Major Physiographic Features in Labrador	13
2.2	Relief	14
2.3	Surficial and Bedrock Geology	15
2.4	Vegetation Classification in Labrador	18
2.5	Climatic Zones in Labrador	19
4.1	Mean Monthly Temperatures	31
4.2	Mean Monthly Melting Degree-days	32
4.3	Mean Monthly Precipitation	36
4.4	Mean Monthly Rainfall or Snowfall	40
4.5	Mean Month-end Snow Cover	41
4.6	Mean Monthly Calculated Lake Evaporation	43
5.5	Daily Runoff at Select Stations and Years	53
5.2	Monthly Runoff at Select Stations	57
5.3	Seasonal Runoff at Select Stations	59
5.4	Probability Distribution of Peak Flows on Eagle River	67

6.1a	Hydrometeorological Data for Select Stations 1979	76
6.1b	Hydrometeorological Data for Select Stations 1979	77
6.2	Average Snow on Ground versus Cumulative Discharge	81
6.3	Snow on Ground at Minimum Flow versus Cumulative Discharge	82
6.4	Snow on Ground Depletion Rate versus Peak Flow	82
7.1	Mean Peak Flow versus Drainage Area	89
7.2	Mean Peak Flow versus Drainage Area (Log Scaled)	89
7.3	Regression Lines for Lab-Que Region (Log-transformed Data)	93
7.4	Regression Lines for Lab-Que-NF Region (Log-transformed Data)	94

Plates:

4.1	Locations of Select Climate Stations	27
4.2	Mean Annual Air Temperature	28
4.3	Mean Annual Precipitation	35
4.4	Mean Annual Rainfall	38
4.5	Mean Annual Snowfall	39
5.1	Watershed Locations	51
5.2	Mean Annual Runoff	56
5.3	Mean Annual Peak Flow	63
5.4	Mean Annual Minimum Flows	70
