Water Resources Management Division
St. John's, NL, A1B 4J6 Canada**

**Real Time Water Quality Monthly Report
Waterford River - St. John's NL
November 2011- January 2012**

General

- Data from this station was available at infrequent time intervals via the automated data retrieval system from November 10, 2011 to February 11, 2012 due to transmission malfunction. The sparse data was insufficient to determine water quality changes and no water quality report is available for this period. Transmission equipment was replaced on February 12, 2012 and real time water quality monthly reports resumed, beginning with the February 2012 report. Water Resources Management Division apologizes for any inconvenience this may have caused.
