Via E-mail: assistant@farrells.ca

Dear Kyle Tibbo:

RE: Barachois Brook Sand Quarry (the Project) Water Resources Management

On September 8, 2025, the Project was released from environmental assessment, subject to conditions, one of which required the submission of a Water Resources Management Plan (the Plan) prior to Project commencement.

The Plan, submitted on October 13, 2026, was reviewed by the Water Resources Management Division of this department. This condition of release for the Project has now been met.

You must abide by all commitments made in the Plan and in all environmental assessment submissions. Any significant change to the Plan or to the Project must be submitted to this department prior to construction, to be reviewed for regulatory requirements including environmental assessment.

I remind you that you must also comply with all terms and conditions of the September 8, 2025, decision letter including the requirement to submit an Agricultural Site Rehabilitation Plan to the Lands Management Division of the Department of Forestry, Agriculture and Lands and the Mineral Lands Division of the Department of Energy and Mines prior to commencing Project construction.

If you have any questions concerning these matters, please contact Joanne Sweeney,

Director of the Environmental Assessment Division, at (709) 729-0673 or e-mail joannesweeney@gov.nl.ca.

Sincerely,

A handwritten signature in blue ink that reads "Andrea Barbour".
