Dear Gillian Kearney:

RE: St. Lawrence South Ridge Fluorspar Mine Extension (the Project)

Enclosed are guidelines for the preparation of an Environmental Impact Statement (EIS) for the St. Lawrence South Ridge Fluorspar Mine Extension (the Project). The Guidelines were informed by comments received from the public and the Environmental Assessment Committee (EAC) during the 40-day review of the draft EIS Guidelines.

You may now proceed with the preparation of the EIS. The EIS shall be submitted to the Department for approval, and the Project shall not proceed until it has been released from environmental assessment.

Pursuant to Section 17 of the Environmental Assessment Regulations under the **Environmental Protection Act**, SNL 2002, cE-14.2, an acceptable EIS must be submitted within three years of the EIS decision dated June 16, 2026. The Proponent may apply to extend the term of the decision for a maximum of three periods of one year.

If you have any questions regarding the preparation of the EIS, please contact the Environmental Assessment Committee Co-Chairs, Paul Carter at pcarter@gov.nl.ca or Christa Skinner at ChristVSkinner@gov.nl.ca.

Sincerely,

HON. ANDREA BARBOUR, MHA
District of St. Barbe – L'Anse aux Meadows
Minister
