Area: 457 ha

**Net**

Volume: 51,791 m3  
Area: 387 ha

**Working Group**

bF: 84 %  
bS: 16 %

**Operational Considerations:**

Harvest System: Mechanical

Terrain Conditions: Moderately rough terrain in combination with hills  
, interspersed with rivers, ponds, streams and bogs.

**Other Considerations:**

This operating area is partially contained inside the Protected Water Supply for the Town of Hampden. Forestry activities will conform with the Environmental Protection Guidelines related to operations within Protected Water Supply Areas.

Reconnaissance surveys will be carried out on harvested areas. Silviculture prescriptions will be determined once assessments have been completed.

Consultation was held with all outfitters in Fmd 16. Harvest and road plans were presented to each outfitter for review. Responses from individual outfitter's were dealt with and alterations (if required) were made to the plan.

A portion of this area falls within the municipal area for the town of Hampden. CBPP will consult with the town of Hampden prior to any harvesting or road development and necessary permits will be attained.

Corner Brook Pulp and Paper Woodlands developed a Sustainable Forest Management Plan as part of our registration to the ISO 14001 and CSA Z809 standards. For further information on the SFM plan visit our website @ <http://www.cbppl.com/>.

**Operational Considerations:**

Harvest System: Mechanical

Terrain Conditions: Predominately rough terrain in combination with hills  
, interspersed with rivers, ponds, streams and bogs.

**Other Considerations:**

Consultation with the Wildlife Division regarding the effects of the proposed Five Year Plan on sensitive wildlife habitat resulted in the implementation of deferred harvest areas for this planning horizon. The deferred areas will be subject to No Harvesting for the five year period and will aid in the protection of sensitive habitat on CBPPL's timber limits. Proposed harvesting outside the deferred areas will be conducted in consultation with the Wildlife Division.

Reconnaissance surveys will be carried out on harvested areas. Silviculture prescriptions will be determined once assessments have been completed.

Consultation was held with all outfitters in Fmd 16. Harvest and road plans were presented to each outfitter for review. Responses from individual outfitter's were dealt with and alterations (if required) were made to the plan.

**Operational Considerations:**

Harvest System: Mechanical

Terrain Conditions: Predominately gentle terrain in combination with rolling hills  
, interspersed with rivers, ponds, streams and bogs.

**Other Considerations:**

Consultation with the Wildlife Division regarding the effects of the proposed Five Year Plan on sensitive wildlife habitat resulted in the implementation of deferred harvest areas for this planning horizon. The deferred areas will be subject to No Harvesting for the five year period and will aid in the protection of sensitive habitat on CBPPL's timber limits. Proposed harvesting outside the deferred areas will be conducted in consultation with the Wildlife Division.

Reconnaissance surveys will be carried out on harvested areas. Silviculture prescriptions will be determined once assessments have been completed.

Consultation was held with all outfitters in Fmd 16. Harvest and road plans were presented to each outfitter for review. Responses from individual outfitter's were dealt with and alterations (if required) were made to the plan.

Corner Brook Pulp and Paper Woodlands developed a Sustainable Forest Management Plan as part of our registration to the ISO 14001 and CSA Z809 standards. For further information on the SFM plan visit our website @ <http://www.cbpppl.com/>.
