Dear Derrick Chow:

RE: St. Lawrence Spaceport Complex (the Project) Conditions of Release

On December 19, 2025, the Project was released from environmental assessment subject to conditions, which required NordSpace Atlantic Corporation to submit for approval the following surveys, plans and confirmation prior to Project commencement:

- A Targeted Vegetation Survey for Species at Risk in areas where a 30-metre undisturbed buffer from the high-water mark of wetlands and waterbodies cannot be maintained.
- A Women's Employment Plan.
- Confirmation of consultation with Newfoundland Power to determine that the Project will not create safety or reliability issues with connection to the grid or conflict with existing or planned electricity infrastructure.

On July 27, 2026, NordSpace Atlantic Corporation submitted the results of a Targeted Vegetation Survey to the Wildlife Division of the Department of Fisheries, Agriculture, and Lands.

On May 8, 2026, NordSpace Atlantic Corporation submitted a Women's Employment Plan to the Office of Women and Gender Equality.

On July 30, 2026, confirmation from Newfoundland Power, indicating no safety or reliability issues due to the Project was submitted to the Department of Energy and Mines.

These conditions of release for this project have been met.

Please be reminded that a Water Resources Management Plan, Environmental Protection Plan, and predictive air quality modeling must be submitted for approval by this department prior to commencing construction of the Launch Complex and the Support and Control Complex.

Any significant change to the Project must be submitted to this department prior to construction, to be reviewed for regulatory requirements including environmental assessment.

If you have any questions concerning these matters, please contact Joanne Sweeney, Director of the Environmental Assessment Division, at (709) 729-0673 or e-mail joannesweeney@gov.nl.ca.

Sincerely,

A handwritten signature in blue ink, appearing to read "Andrea Barbour", written over a horizontal line.
