Dear Derrick Chow:

RE: St. Lawrence Spaceport Complex (the Project) Waste Management Plan

On December 19, 2025, the Project was released from environmental assessment, subject to conditions. One of the conditions required NordSpace Atlantic Corporation to submit a Waste Management Plan (the Plan) prior to commencing Project construction.

On April 7, 2026, NordSpace Atlantic Corporation submitted the Plan to the Pollution Prevention Division of this department. This Plan has now been reviewed and accepted.

You must abide by all commitments made in the Plan and in all environmental assessment submissions. I remind you that you must comply with all terms and conditions of the December 19, 2025 decision letter including the requirements to submit an approved Women's Employment Plan and demonstrate that there is no conflict with existing or planned Newfoundland Power infrastructure prior to commencing Project construction.

Any significant change to the Plan or to the Project must be submitted to this department prior to construction, to be reviewed for regulatory requirements including environmental assessment.

If you have any questions concerning these matters, please contact Joanne Sweeney, Director of the Environmental Assessment Division, at (709) 729-0673 or e-mail joannesweeney@gov.nl.ca.

Sincerely,

HON. CHRIS TIBBS, MHA
