- Time, Continuity, and Change: Students will be expected to demonstrate an understanding of the past and how it affects the present and the future.

Arts Education

- Creating, Making, and Presenting: Project cultivates students' creative and technical development; that is, students' ability to use and manipulate media such as images, words, sounds and/or movement to create art forms that express and communicate their ideas and feelings.
- Understanding and Connecting Contexts of Time, Place, and Community: Project promotes student focus on evidence, knowledge, understanding, and valuing the arts in a variety of contexts.
