

Draw Bohr Energy Level Diagrams for the Ions (using circles or levels) that form as a result of the loss of electrons to give filled outer energy levels. Indicate the charge of the ion as a superscript next to the symbol for the element.

H						H	He
Li	Be 	Does Not Form an Ion	Does Not Form an Ion	N	O	F 	Ne
Na	Mg	Al	Does Not Form an Ion	P	S	Cl	Ar

Here are the Energy Level Diagrams for Ions done without circles:
