## Description of Indicators

District ID identifies the school district.
1 Labrador
2 Western
3 Nova Central
4 Eastern
5 Conseil scolaire francophone provincial

803 Private schools
804 First Nations schools
902 NL School for the Deaf
903 NL Youth Centre
School ID is a 3-digit unique identifier for each school.

Rural identifies schools located in rural communities (i.e., those with a population of less than 5,000 residents).

School/community is the name of the school and the community in which it is located.

Grades offered is the grades in which students are enrolled in the school.

Enrolment is the headcount enrolment in the school.

School size groups schools based on total school enrolment. Schools are grouped into one of six categories (less than 50 students, 50-99, 100-199, 200299, 300-399 or 400 or more students).
$\mathrm{K}-9$ average class size is the average size of all homeroom classes in K-6 and the Language Arts classes in Grades 7-9.

Distance education indicates whether a school offers high school courses using distance education.

French Immersion indicates if a school offers a French immersion program, either early or late immersion.

Average students per grade is the enrolment divided by the number of grades. This indicator is one measure of school size.

## Full-time equivalent (FTE) teachers

is the headcount of full-time teachers, plus part-time teachers according to the percent of allocated unit.
