GLOSSARY OF TERMS

Age calculations
Unless otherwise cited, age is as of December 31 of the reporting year. For students, the age is truncated (e.g. 5.4 becomes 5). For teachers, the age is not truncated (e.g., for 1989, -- the school year 1989-90; a teacher born on June 2, 1961 would be 28.6 years old. This figure is then rounded to the nearest integer, in this case, 29. However, when computing median age and average age, no rounding is done).

Allocations
The number of teacher salary units provided to school districts in accordance with *The Schools Act, 1997*.

Assessment
The systematic process of gathering information on student learning so that a clear and valid picture emerges of what students know and are able to do in a particular curriculum area. Information is gathered at the classroom level through a variety of activities, tasks, and strategies such as observation, questioning, conferencing, learning logs, and portfolios. Provincial assessment includes: criterion-referenced testing and public examinations.

Certificate of grade
A teaching certificate issued in accordance with *The Teacher Training Act*.

Constructed response item
A test item for which a student must create his/her own response or product rather than select a response from an enumerated set. A short-answer item requires a few words, whereas extended-response items require at least a few sentences.

Criterion-referenced test
A term used to describe tests that are designed to provide information about specific knowledge or skills possessed by students in relation to specified learning outcomes such as key-stage outcomes.

Curriculum
Statements articulating what students are expected to know and be able to do in particular subject areas.

Outcomes
These outcome statements also describe what knowledge, skills and attitudes students are expected to demonstrate at the end of certain key stages in their education as a result of their cumulative learning experiences at each grade level in the entry to graduation continuum (e.g., key-stage, curriculum outcomes for English Language Arts at grades 3,6,9,12).

Evaluation
The process of analyzing, reflecting upon and summarizing assessment information, and making judgments or decisions based upon the information gathered.

French programs

**Core French Program (CF)** - program of instruction in which students study the various aspects of French language during a regularly scheduled time slot for other subject areas.

**Expanded Core French Program (ECF)** - program of instruction in which students study the Core French program, plus at least one other complete subject where content and instruction are given entirely in French.

**Intensive Core French (ICF)** - Schools modify the instructional time for other prescribed Grade 6 curriculum areas to allocate 60% of the instructional day to Intensive Core French. This is done by scheduling selected curriculum areas during the other half of the school year only, and may entail less instructional time for particular areas. Curriculum areas compacted into half of the school year are chosen carefully on the basis of common (shared) or complementary outcomes to those in Intensive Core French.
| **French programs** | **French First Language Program (FFL)** - program for children of Francophone parents in which French is the language of instruction in the classroom for all or most subject areas, and the means of communication in the school environment.  

**French Immersion Program** - French Immersion consists of programs and courses designed for English-speaking students in which French is the language of instruction and, as much as possible, the means of communication of the classroom. French immersion serves to achieve the Essential Graduation Learnings. In Newfoundland and Labrador, two options in French Immersion studies are available: **Early French Immersion (EFI)** and **Late French Immersion (LFI)**  

**Early French Immersion Program (EFI)** - extends from Kindergarten to Level III, beginning at the Kindergarten level with approximately 100 percent of instruction in French. With the introduction of English Language Arts at Grade 3 and other subjects in English in later grades, the percentage of instructional time in French decreases through the years of schooling.  

**Late French Immersion Program (LFI)** - extends from Grade 7 to Level III with approximately 75 percent of instruction in French in Grades 7 and 8. The percentage of instruction in French decreases through the years of schooling. |

| **Full-time equivalent enrolment** | The number of students enrolled. Kindergarten students who attend school 50% of a school day are counted as one half.  

**Full-time equivalent teacher** | Head count of full-time teachers, plus part-time teachers according to the percent of allocated unit. Teachers who are employed less than full-time are counted in accordance with the percentage employed, i.e., a teacher who is employed 75 per cent of a full-time contract is counted as 75 per cent of a full-time equivalent teacher.  

**Full-time teacher** | Teacher employed as 100% of an allocated unit.  

**Graduate** | A student who has satisfied high school graduation requirements.  

**Graduation rate** | The percentage of students in a particular group who successfully complete the requirements for graduation. The number of graduates for a given age group compared to the total population for that same age group. The graduation rate is calculated by taking the sum of age-specific ratios ( [number of graduates aged 15 divided by the population aged 15] + [number of graduates aged 16 divided by the population aged 16] .. + [number of graduates aged 19 to 24 divided by the population aged 19] ).  

**Individual Support Services plan** | An educational plan for students with special needs summarizing the relevant information regarding the student’s strengths, needs, and learning goals. A student receives support in addition to or sometimes instead of regular curriculum programming.  

**Licence** | A licence issued in accordance with the *Teacher Training Act* (issued for one year only).  

**Part-time teacher** | Teacher who is employed is less than 100% of an allocated unit. |
Permit

Special Education
Change in reporting - Prior to 1989-90, all students receiving special education programs and services were reported under the category "Special Education" and not under their grade levels. Since 1989-90, students who receive special education are reported in their home-based classroom. Information is also gathered on all students who receive special education services based on age and area and degree of exceptionality.

Policy - The Special Education Policy Manual directs school districts to offer a wide range of services in a variety of settings determined to be appropriate to meet student needs. The model of service delivery is one that includes the provision of specialized instruction in all appropriate settings. Students begin their formal education in grade level classroom settings with support services provided when necessary. Decisions are made on an individual student basis using the Individual Support Services Planning (ISSP) process.
