

Copper Hill Resources Inc.																
					Dip of hole at: collar -85°				Hole Number PH-09-02		Page # 1 of 1					
Drilling Company Springdale Forest Resources		Collar Elevation	Bearing of Hole from True North 150° (mag declination at 20° 46')		Total Depth 159.5	50m;-84.5° / 132.4° 159.5m;-83.3° / 115.0°				Mapsheets 12H/1		Claim # 15137M				
Started Jan 20/09	Completed Jan 22/09	Date Logged	Logged By: Paul Delaney		Location of Hole 563314E 5440055N NAD 27						Location Newfoundland, Canada					
Exploration Co., owner or optionee Copper Hill Resources Inc. & Champion Minerals Ltd		Date Submitted	Other: Targeted combined magnetic and gravity anomaly								Property Name Powderhorn					
Metreage From To		Rock Type	Description			Planar Feature Angle	Core Sample Length (tags)	Sample Number	Sample metreage From To		Actual Sample Length	Assays				
												Cu (ppm)	Pb (ppm)	Zn (ppm)	Au (ppb)	Ag (g/t)
0.00	2.39	OVB	Overburden / casing													
2.39	159.50	Massive Gabbro	Grey/green, strongly magnetic, massive gabbro (pyroxene, green and dusky green/brown). Grain size varies from mostly 2-3mm to locally 3-5 up to 6mm and less commonly down to 1-2mm. Trace to 1% Po, 8-15% magnetite+/-ilmenite 9.56-10.70 minor broken core 40.80-44.00 black and white, fine-medium to fine, moderately magnetic granodiorite (pyroxene- 48.98-49.93 broken core 50% Minor local epidote alteration of plagioclase crystals, calcite-epidote veins/pods & 1cm granite
