Financial Statements

Year Ended December 31, 2015

INDEPENDENT AUDITOR'S REPORT

To the Directors of Credit Union Deposit Guarantee Corporation NL

We have audited the accompanying financial statements of Credit Union Deposit Guarantee Corporation NL, which comprise the balance sheet as at December 31, 2015 and the statements of income and fund balance and cash flow for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Credit Union Deposit Guarantee Corporation NL as at December 31, 2015 and its financial performance and its cash flow for the year then ended in accordance with International Financial Reporting Standards.

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

1. REPORTING ENTITY

The Credit Union Deposit Guarantee Corporation (the "Corporation") is established as a corporation without share capital under the provisions of Section 133 of the Credit Union Act, 2009.

2. BASIS OF PREPARATION

Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The financial statements for the year ended December 31, 2015 were authorized for issue by the Corporation's Board of Directors on ???

Basis of preparation

These financial statements are presented in Canadian dollars which is the Corporation's functional currency. They are prepared under the historical cost convention except for cash and cash equivalents which are classified as available-for-sale.

Use of significant accounting judgments, estimates and assumptions

The preparation of these financial statements in conformity with IFRS requires management to make judgements, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities, and disclosures of contingent assets and contingent liabilities at the date of these financial statements, and the reported amounts of revenues and expenses during the year. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from estimates made in these financial statements.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS have a significant effect on these financial statements. Outlined below are areas involving a higher degree of judgment or complexity, or areas where assumptions are significant to the Corporation's financial statements:

a) Provisions

The amount recognized as accounts payable and accrued liabilities is the best estimate of the consideration required to settle the related liability, taking into account the risks and uncertainties surrounding the obligation.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Management believes the estimates used in preparing these financial statements are reasonable. Actual results in the future may differ materially from those reported.

Assistance to credit unions, which is included in accounts payable and accrued liabilities, is management's best estimate of the consideration required to settle the related liability, taking into account the risks and uncertainties surrounding the obligation.

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

2. BASIS OF PREPARATION *(continued)*

(b) Economic lives of property, plant and equipment

Management determines the estimated useful lives of its property, plant and equipment based on historical experience of the actual lives of property, plant and equipment of similar nature and functions, and reviews these estimates at the end of each reporting period.

New standards and interpretations not yet adopted

Certain new standards, interpretations, amendments and improvements to the existing standards have been issued by the IASB but are not yet effective for the year ended December 31, 2015, and have not been applied in preparing these financial statements:

(a) Financial instruments

In November 2009 and October 2010, the IASB issued IFRS 9 - Financial Instruments ("IFRS 9"). IFRS 9 will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39") in its entirety. IFRS 9 uses a single approach to determine whether a financial asset or liability is measured at amortized cost or fair value, replacing the multiple rules in IAS 39.

In November 2014, the IASB announced the completion of a package of three amendments to the accounting requirements for financial statements set out in IFRS 9. The amendments are as follows:

- bring into effect a substantial overhaul of hedge accounting that will allow entities to better reflect their risk management activities in the financial statements;
- allow the changes to address the so-called 'own credit' issue that were already included in IFRS 9 to be applied in isolation without the need to change any other accounting for financial instruments; and
- remove the January 1, 2015 mandatory effective date of IFRS 9, to provide sufficient time for preparers of financial statements to make the transition to the new requirements.

The Corporation is assessing the potential impact of these new amendments and standards.

(b) Clarification of Acceptable Methods of Depreciation

The amendments to IAS 16 prohibit entities from using a revenue-based depreciation method for property, plant and equipment.

The amendments apply prospectively for annual periods beginning on or after January 1, 2016. Currently, the Corporation uses the declining balance methods for depreciation of its property, plant and equipment. Management of the Corporation believe that this method is the most appropriate to reflect the consumption of economic benefits inherent in the respective assets and accordingly, management of the Corporation does not anticipate that the application of this amendment to IAS 16 will have a material impact on the Corporation's financial statements.

(c) Revenue for Contracts with Customers

In May 2014, IFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and the related interpretations when it becomes effective.

(continues)

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

2. BASIS OF PREPARATION *(continued)*

The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer.

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

Under IFRS 15, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

IFRS 15 is applicable for annual periods beginning on or after January 1, 2018, with earlier application permitted. Management of the Corporation is assessing the potential impact of this new standard.

(d) Leases

On January 13, 2016, the IASB issued IFRS 16 Leases which provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessees and lessors. It supersedes IAS 17 Leases and its associative interpretative guidance. Significant changes were made to lessee accounting with the distinction between operating and finance leases removed and assets and liabilities recognized in respect of all leases (subject to limited exceptions for short-term leases and leases of low value assets.) In contrast, IFRS 16 does not include significant changes to the requirements for lessors. IFRS 16 is effective January 1, 2019, with earlier application permitted for companies that have also adopted IFRS 15 Revenue From Contracts with Customers. Management of the Corporation is assessing the potential impact of this new standard.

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

3. OTHER SIGNIFICANT ACCOUNTING POLICIES

Cash

Cash consists of balances with banks.

Financial instruments

Classification

A financial instrument is a contract that establishes a financial asset for one party and a financial liability or equity instrument for the other party. All financial instruments have been classified either based on the type of instrument or the Corporation's intention regarding the instrument, as described below:

Held for Trading

Financial assets classified as held for trading are typically acquired for resale prior to maturity or designated as held for trading. They are measured at fair value on the balance sheet date. Fair value fluctuations including interest earned, interest accrued, gains and losses realized on disposal and unrealized gains and losses are included in investment income. Cash and cash equivalents have been classified as held-for-trading.

Financial liabilities designated as held for trading are those non-derivative financial liabilities that the Corporation elects to designate on initial recognition as instruments that it will measure at fair value through other interest expense. These are accounted for in the same manner as held for trading assets. The Corporation has not designated any non-derivative financial liabilities as held for trading.

Held to Maturity

Held to maturity financial assets are non-derivative financial assets with fixed or determinable payments and a fixed maturity, other than loans and receivables, that an entity has the positive intention and ability to hold to maturity. These assets are measured at amortized cost using the effective interest method. The Corporation has classified its investments as held to maturity.

Available for Sale

Available for sale financial assets are those non-derivative financial assets that are designated as available for sale, or that are not classified as loans and receivables, held for trading, or held to maturity. Except as mentioned below, available for sale financial assets are carried at fair value with unrealized gains and losses included in accumulated other comprehensive income until realized when the cumulative gain or loss is transferred to other income. Available for sale financial assets that do not have quoted market prices in an active market are recorded at cost. Interest on interest bearing available for sale financial assets is calculated using the effective interest method. No financial assets have been classified as available for sale except for cash and cash equivalents.

Loans and Receivables

Loans and receivables are recorded at amortized cost using the effective interest method. Amortized cost is a reasonable estimate of the fair value of these instruments.

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

3. OTHER SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Other Liabilities

Other liabilities, such as bank indebtedness and accounts payable and accrued liabilities, are recorded at amortized cost using the effective interest method and include all financial liabilities other than derivative instruments. Amortized cost is a reasonable estimate of the fair value of these instruments

Transaction Costs

Transaction costs are expensed as incurred.

Fair Values

The fair value of a financial instrument is the amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable willing parties who are under no compulsion to act. Fair values are determined by reference to quoted bid or asking prices in an active market. In the absence of an open market, the Corporation determines fair values based on internal or external valuation models such as discounted cash flow analysis or using observable market-based inputs.

Effective Interest Method

The Corporation uses the effective interest method to recognize interest income or expense, premiums or discounts earned or incurred for financial instruments.

Capital assets

Capital assets are stated at cost or deemed cost less accumulated amortization. Capital assets are amortized over their estimated useful lives on a declining balance basis at the following rates and methods:

Computer equipment	30%	declining balance method
Furniture and fixtures	20%	declining balance method
Signage	20%	declining balance method

The Corporation regularly reviews its capital assets to eliminate obsolete items. Government grants are treated as a reduction of capital assets cost.

Capital assets acquired during the year but not placed into use are not amortized until they are placed into use.

Severance pay

Severance pay, which is included with accounts payable and accrued liabilities, is accrued for all employees for whom the right to such compensation is vested.

Revenue recognition

The Corporation recognizes assessment revenue based on a percentage of insured deposits of individual credit unions operating within the Province of Newfoundland & Labrador. Interest revenue is recognized based on the investment interest collected and accrued during the year, and bonding revenue is recognized based on a percentage of individual credit unions' assets plus a \$60,000 fee that is allocated to the Newfoundland and Labrador credit unions based on a pre-determined formula.

(continues)

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

3. OTHER SIGNIFICANT ACCOUNTING POLICIES (continued)

Assistance to credit unions

Assistance to credit unions is recorded only when it can be reasonably determined by the Corporation that such a payment will be required and when the Board of Directors has assessed the reasonableness of such a charge and authorized the assistance as a commitment of the Fund. The determination of the assistance requires the exercise of judgement because the precise amount, method and timing of such assistance is dependent on future events. The amount of actual assistance paid and possible future assistance is disclosed in the financial statements.

Pension costs

Employees of the Corporation other than the Chief Executive Officer are included in the Public Service Pension Plan of the Government of Newfoundland and Labrador. Contributions to the plans are required from both the employees and the Corporation. The annual contributions for pension are recognized in the accounts on a current basis. Contributions to this plan totalled \$20,039 (2014- \$25,579).

The Corporation also contributed to a private registered retirement savings plan for the Chief Executive Officer based on a percentage of his annual salary. Contributions to this plan totalled \$8,247 (2014 - \$8,461)

Future income taxes

Income taxes are reported using the future income taxes method, as follows: current income tax expense is the estimated income taxes payable for the current year after any refunds or the use of losses incurred in previous years, and future income taxes reflect:

- the temporary differences between the carrying amounts of assets and liabilities for accounting purposes and the amounts used for tax purposes;
- the benefit of unutilized tax losses that will more likely than not be realized and carried forward to future years to reduce income taxes.

Future income taxes are estimated using the rates enacted by tax law and those substantively enacted for the years in which future income taxes assets are likely to be realized, or future income tax liabilities settled. The effect of a change in tax rates on future income tax assets and liabilities is included in earnings in the period when the change is substantively enacted.

CREDIT UNION DEPOSIT GUARANTEE CORPORATION NL

Notes to Financial Statements

Year Ended December 31, 2015

6. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Corporation's financial instruments are comprised of cash, investments, receivables and accounts payable.

Cash is reported at fair value on the balance sheet. Receivables and accounts payable are reported at amortized cost which approximates fair value due to their short term nature. Investments are reported at amortized cost using the effective interest method which approximates their fair value.

7. NATURE AND EXTENT OF RISK ARISING FROM FINANCIAL INSTRUMENTS

The Corporation is exposed to the following risks as a result of holding financial instruments: credit risk, market risk and liquidity risk. The following is a description of those risks and how the Corporation manages the exposure to them.

Credit Risk

Credit risk is the risk that a financial loss will occur due to the failure of a counterparty to discharge its contractual commitment or obligation to the Corporation. Credit risk may arise principally through its investments included in the Corporation's asset portfolio.

The Corporation manages this risk by making investments in accordance with the investment policy established by the Board of Directors which permits the Corporation to invest in high quality, liquid short-term investments. Equity investments are not permitted.

Market Risk

Market risk arises from changes in interest rates on investments in its portfolio that affect the Corporation's net interest income. The Corporation's goal is to maximize its return on these portfolios, without taking unreasonable risk and retaining a high degree of liquidity.

The Corporation manages this risk by investing in securities that are not susceptible to significant changes in rates of return to the Corporation caused by changes in market values of the investments.

Liquidity Risk

Liquidity risk is the risk of having insufficient financial resources to meet the Corporation's funding requirements.

The Corporation's liquidity policies and practices include the measurement and forecast of cash flows and maintenance of a pool of high quality liquid assets.

8. COMMITMENTS

The Corporation has entered into a lease agreement for office space which expires December 31, 2016. The amount of the annual rent payable is \$44,460 plus HST.

9. INCOME TAXES

Credit union assessments and assistance are excluded from the calculation of taxable income.

The undepreciated capital cost for income tax purposes of the Corporation's depreciable assets exceeds the net book value by \$145,070.
