INTRODUCTION

The *Financial Administration Act* requires that all revenues over which the Legislature has power of appropriation shall form one Consolidated Revenue Fund. The financial statements of the Consolidated Revenue Fund of the Province of Newfoundland and Labrador are presented through the publication of the Public Accounts, Volume II.

These statements are prepared on the accrual basis of accounting in accordance with the Public Sector Accounting Standards of the Canadian Institute of Chartered Accountants, and as outlined in the significant accounting policies of the Province. They are prepared by the Comptroller General of Finance and are audited by the Auditor General, who presents an annual report to the House of Assembly on the results of his audit. Budget figures, where available, are provided on several Statements for comparison purposes.

The Public Accounts for the year ended 31 March 2005 consists of three other volumes:

Volume I - Consolidated Summary Financial Statements presents the summary financial statements which consolidate the financial statements of the Consolidated Revenue Fund with the financial statements of various Crown Corporations, Boards and Authorities, as approved by Treasury Board, which are controlled by the Government of Newfoundland and Labrador.

Volume III - Consolidated Revenue Fund Supplementary Statements and Schedules presents the unaudited summary statements, detailed departmental statements, schedules and notes of the Fund and are prepared on a basis consistent with the Estimates of the Province.

Volume IV- Financial Statements of Crown Corporations, Boards and Authorities presents a reproduction of the available financial statements of the Crown Corporations, Boards and Authorities.

The Public Accounts of the Province are tabled in the House of Assembly in accordance with Section 60 of the *Financial Administration Act*.

OFFICE OF THE AUDITOR GENERAL
St. John's, Newfoundland and Labrador

AUDITOR'S REPORT

To the House of Assembly
Province of Newfoundland and Labrador

I have audited the statement of financial position of the Consolidated Revenue Fund of the Province of Newfoundland and Labrador as at 31 March 2005 and the statements of change in net debt, operations, change in accumulated deficit, and cash flows for the year then ended. These financial statements are the responsibility of Government. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Government, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Consolidated Revenue Fund as at 31 March 2005 and the results of its operations and its cash flows for the year then ended in accordance with the accounting policies disclosed in Note 1 to the financial statements applied on a basis consistent with that of the preceding year.

The accompanying financial statements have been prepared to present the results of the Consolidated Revenue Fund in relation to its budget for the year ended 31 March 2005. Significant financial activities of Government occur outside the Consolidated Revenue Fund. Most of these activities together with those of the Consolidated Revenue Fund are included in the consolidated summary financial statements of the Province. For this reason, the consolidated summary financial statements provide a more comprehensive accounting of the financial position and results of Government operations. A separate Auditor's Report is provided on the consolidated summary financial statements for the year ended 31 March 2005.

JOHN L. NOSEWORTHY, C.A.

Notes to the Financial Statements For the year ended 31 March 2005

1. Summary of Significant Accounting Policies

(a) The Reporting Entity

The Reporting Entity includes the accounts and financial activities of the Consolidated Revenue Fund. Pursuant to the *Financial Administration Act* of the Province all public monies are accounted for through the Fund.

(b) Basis of Accounting

(i) Method

These financial statements are prepared on the accrual basis of accounting, revenues being recorded when earned and expenses being recorded when liabilities are incurred, with exceptions made in accordance with the applicable significant accounting policies.

(ii) Revenues

Revenues from the Government of Canada under the federal-provincial fiscal arrangements, Canada Health and Social Transfer and tax collection agreements are based on regular entitlements received for the current year and adjusted against future years' revenues when known.

Other revenues are recorded on an accrual basis.

(iii) Expenses

Expenses are recorded on an accrual basis.

Retirement related costs are determined as the cost of benefits and interest on the liabilities accrued, as well as amortization of experience gains and losses.

(iv) Assets

Temporary investments are recorded at cost or market value, whichever is lower.

Government of Canada - claims in process are recorded as a receivable based on claims outstanding at 31 March and relate mainly to cost-shared agreements.

Inventories of supplies are comprised of items which are held for consumption that will be used by the Province in the course of its operations.

Accounts and taxes receivable are recorded for all amounts due for work performed and goods or services supplied. Valuation allowances are provided when collection is considered doubtful.

Loans, advances and mortgages receivable are recorded at cost. Valuation allowances are recorded to reflect assets at the lower of cost or net recoverable value. Loans made by the Province that are expected to be recovered from future appropriations are accounted for as expenses by providing valuation allowances. Interest revenue on loans receivable is recognized when earned and ceases when collection is not reasonably assured.

Investments are recorded at cost and are written down when there is a loss in value that is other than a temporary decline.

Tangible capital assets held by the Province are recorded at cost or estimated cost less accumulated amortization.

Unrealized foreign exchange gains or losses are deferred and amortized on a straight line basis over the remaining term of the debt.

NOTES TO THE FINANCIAL STATEMENTS (continued)

(v) *Liabilities*

Deferred revenue represents amounts received but not earned.

Other liabilities are recorded for all amounts due for work performed, goods or services received or for charges incurred in accordance with the terms of a contract.

Debenture and other debt, except treasury bills, are recorded at face value. Treasury bills are recorded at net proceeds.

The Province records foreign-denominated debt in Canadian dollars translated at the exchange rate on the transaction date which is considered to be the issue date; except for the proceeds of hedged transactions which are recorded at the rate as established by the terms of that hedge. Foreign-denominated sinking fund assets are also recorded in Canadian dollars and transactions are translated at the exchange rate used in recording the related debt. At 31 March, foreign debt and sinking funds are adjusted to reflect the exchange rate in effect on that date.

(vi) *Government Transfers*

Government transfers are recognized by the Province as revenues or expenses in the period during which both the payment is authorized and any eligibility criteria are met.

(vii) *Loan Guarantees*

The Province has guaranteed the repayment of principal and interest on certain debentures and bank loans on behalf of Crown corporations, municipalities, private sector companies and certain individuals. A provision for losses on these guarantees is established when it is determined that a loss is likely.

2. Cash and Temporary Investments

9. Retirement Benefits - Pensions**Defined Benefits**

The Government of Newfoundland and Labrador guarantees defined benefit pension plans for substantially all of its full time employees, and those of its Agencies, Boards and Commissions and for members of its Legislature. The plans are - the Public Service Pension Plan, Teachers' Pension Plan, Uniformed Services Pension Plan, the Members of the House of Assembly Pension Plan, and the Provincial Court Judges' Pension Plan. Combined, the plans have approximately 32,533 participants.

The Plans provide for pensions based on employees' length of service and highest average earnings. Employees contribute a defined percentage of their salary, and the employer generally matches this amount. As at 31 March 2005, the plans provided benefits to 19,128 pensioners. Inflation protection is not extended to pensioners of the Uniformed Services Pension Plan or the Members of the House of Assembly Pension Plan nor to pensioners of the Teachers' Pension Plan who retired prior to 01 September 1998.

In 1980, the Province of Newfoundland and Labrador Pooled Pension Fund was established by the *Pensions Funding Act*, with the Minister of Finance as Trustee. This Fund administers all financial activity of these five plans, including the collection of all contributions and the payment of pensions and the investment of funds. The Province guarantees any deficiency in the event assets of a plan are insufficient to meet benefit payments or administration costs.

Contribution and Benefit Formulae**Public Service Pension Plan**

Employee contributions are 8.6% of pensionable salary, less a formulated amount representing contributions to the Canada Pension Plan (CPP). A pension benefit is available based on the number of years of pensionable service times 2% of the employee's best five years average salary, reduced by a formulated amount representing CPP pension benefits for each year since 1967.

Teachers' Pension Plan

Employee contributions are 9.35% of pensionable salary. A pension benefit is available based on the number of years of pensionable service prior to 1 January 1991 times 1/45th of the employee's best five years average salary, plus 2% of the employee's best five years average salary times years of pensionable service after that date, reduced by a formulated amount representing CPP pension benefits for each year since 1967. The CPP reduction only applies to pensioners who retired after 31 August 1998.

Uniformed Services Pension Plan

Employee contributions are 8.5% of pensionable salary, less a formulated amount representing contributions to the CPP. A pension benefit is available based on the number of years pensionable service times 2% of the employee's best three years average salary, reduced by a formulated amount representing CPP pension benefits since 1967. Grandfathered members have higher service accrual pensions in recognition of their higher contributions.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Members of the House of Assembly Pension Plan

Member contributions are 9% of pensionable salary, which includes salary as a Minister, if applicable. A pension benefit is available after serving as a Member in, at least, two General Assemblies and for, at least, five years. The benefit formula is based on years of service expressed as a percentage of the average pensionable salary for the best three years. The percentage varies being 5% for each of the first ten years, 4% for each of the next five years and 2.5% for each of the next two years of service as a Member. For members elected for the first time after 1 April 1998, the percentage is 5% for the first ten years and 2.5% for each of the next ten years. The accrued benefit is reduced by a formulated amount representing CPP pension benefits for each year since 1967. Ministers receive an additional pension amount calculated similarly, based on service and pensionable salary as a Minister.

Upon the passing of the legislation to amend the *Members of the House of Assembly Pensions Act* anticipated to be presented to the House of Assembly during 2005-06, the Members of the House of Assembly Pension Plan will be restructured into two components based on limits set out in the federal *Income Tax Act*. The first, or Registered component, will continue to be administered within the Province of Newfoundland and Labrador Pooled Pension Fund. The second, or the Supplementary Employee Retirement component, will be administered in the accounts of the Consolidated Revenue Fund. The restructuring of this Plan will result in assets of \$8.9 million currently related to the Members of the House of Assembly Pensions Plan as at 31 March 2005 no longer being classified as an asset of that Plan. The amount, however, will ultimately be reallocated to one or more of the other pension plans within the Province of Newfoundland and Labrador Pooled Pension Fund.

Provincial Court Judges' Pension Plan

Effective 01 April 2002 (pursuant to the *Provincial Court Judges' Pension Plan Act* enacted 08 June 2004) the Provincial Court Judges' Pension Plan was established with then-existing judges being given the one-time option of transferring from the Public Service Pension Plan. All judges appointed subsequent to 01 April 2002 are required to join this Plan. Employee contributions are 9% of pensionable salary. A pension benefit is available based on the number of years pensionable service times 3.33% of the employee's annual salary. The Registered component of the Plan provides benefits based on limits set out in the federal *Income Tax Act* with the remainder of the benefit provided by the Supplementary component.

Actuarial Valuations

The actuarial valuations which are prepared by the Province's actuaries were based on a number of assumptions about future events, such as interest rates, wage and salary increases, inflation rates and rates of employee turnover, disability and mortality. The assumptions used reflect the Province's best estimates of expected long-term rates and short-term forecasts. The expected interest and inflation rates follow:

Expected Interest Rates

The expected average interest rate for the Public Service Pension Plan is 7.5%. The expected rate for the Teachers' Pension Plan is 7.5% projected on a long term basis. The expected rate for the Uniformed Services Pension Plan is 7.5% projected on a long term basis. The expected rate for the Members of the House of Assembly Pension Plan is 7.5% for the Registered component and 5.5% for the Supplementary Employee Retirement component, projected on a long term basis. The expected rate for the Provincial Court Judges' Pension Plan is 7.0% for the Registered component (no actuarial valuation has yet been performed on the Supplementary Employee Retirement component).

Expected Inflation Rates

The expected inflation rate for the Public Service Pension Plan is 3.0%. The expected rate for the Teachers' Pension Plan is 3.0%. The expected rate for the Uniformed Services Pension Plan is 3.0% projected on a long term basis. The expected rate for the Members of the House of Assembly Pension Plan is 3.0% projected on a long term basis. The expected rate for the Provincial Court Judges' Pension Plan (Registered component) is 3.0%.

NOTES TO THE FINANCIAL STATEMENTS (continued)

The latest actuarial valuations for the Province's pension plans, according to the administrators of those plans, are dated as listed in the following table:

Pension Plan	Valuation Date
Public Service	31 December 2003
Teachers'	31 August 2003
Uniformed Services	31 December 2003
Members of the House of Assembly	31 December 2003
Provincial Court Judges'	01 April 2002

Actuarial extrapolations are provided for accounting purposes by the Province's actuaries based on the above dates, unless otherwise noted.

Pension Liability

Details of the pension liability are outlined in the table below. The estimated accrued benefit obligation and the value of the plan assets reported below have been extrapolated by the Province's actuaries to 31 March 2005. The actual results of future valuations may result in variances from these extrapolations.

Pension Plan	Estimated Accrued Benefit Obligation	Fund Assets	Unamortized Experience Losses 2005	Net Unfunded Liability 2005	Net Unfunded Liability 2004	Change

Pension Fund Assets are valued at the market value at 31 December 2004 and projected to year end.

Special Payments

Pursuant to the applicable pensions legislation, the Province has agreed to make special payments of \$60 million annually into the Public Service Pension Plan as long as the plan remains unfunded. In addition, the Province has agreed to make special payments of \$76 million annually into the Teachers' Pension Plan until the remaining balance of an initial obligation of \$815 million plus interest has been paid. Annual payments of \$20 million to the Uniformed Services Pension Plan are also being made by the Province for a five year period which commenced in 2001-2002. Also commencing in 2001-02, the Province began making annual payments of \$7.5 million to the Members of the House of Assembly Pension Plan, however, these payments will only be allowable under the federal *Income Tax Act* to the extent that they fully fund the Registered component of the Plan. This will result in \$8.9 million of the \$16.1 million assets in the Members of the House of Assembly Pension Plan as at 31 March 2005 no longer being classified as an asset of that Plan. The amount, however, will remain part of the Province of Newfoundland and Labrador Pooled Pension Fund and will ultimately be allocated to one or more of the other pension plans.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Pension Expense

In these statements, pension costs have been determined as the cost of benefits accrued during the period. Interest on the unfunded liability has been accrued for the same period.

The change in the unfunded liability for the current period for each plan is comprised of the following amounts:

Pension Plan	Province's Share of Pension Benefits Earned for the Period	Pension Interest Expense on the Unfunded Liability	Province's Current Period Pension Contributions	Current Period Amortization of Experience Changes	Other Adjustments	Unfunded Portion of Current Period Pension Change
	(\$mil)	(\$mil)	(\$mil)	(\$mil)	(\$mil)	(\$mil)
Public Service	(12.7)	141.7	(79.8)	31.0	6.5	86.7
Teachers'	16.0	163.1	(110.0)	32.0	-	101.1
Uniformed Services	1.6	14.4	(21.9)	1.1	-	(4.8)
Members of the House of Assembly	1.5	1.3	(0.4)	2.5	-	4.9
Provincial Court Judges'	0.5	0.1	(0.2)	-	(0.2)	0.2
Total	\$6.9	\$320.6	(\$212.3)	\$66.6	\$6.3	\$188.1

Pension interest expense is included with interest as debt expenses in the financial statements. Pension interest expense for 31 March 2004 amounted to \$330.9 million.

Experience Gains or Losses

Experience gains or losses are amortized over the estimated average remaining service life of active contributors. The amortization amount is included with retirement costs in the financial statements commencing in the year subsequent to the year in which the experience gain or loss arose.

Other Pension Plans

The Government Money Purchase Pension Plan was established for employees whose employment status does not qualify them for participation in another of their employer's pension plans. This plan has approximately 23,407 participants. Employees contribute 5% of their salary to the Plan and the Province generally matches this contribution. Each employee will receive an annuity at retirement, the value of which is determined by their accumulated contributions plus investment earnings. This Plan is administered by the London Life Insurance Company and at 31 March 2005 assets had a market value of \$173.9 million (31 March 2004 - \$157.3 million).

10. Current and Capital Account

The annual deficit of \$554.7 million (31 March 2004 - \$670.2 million) is comprised of a deficit on the current account of \$298.6 million (31 March 2004 - \$490.7 million) and a deficit on the capital account of \$256.1 million (31 March 2004 - \$179.5 million). The classification of revenue and expenses between current account items and capital account items follow the classifications as per the Estimates for the purposes of categorizing the annual deficit.

11. Amounts Capitalized

Funds advanced to Crown agencies may be in the form of investments in such agencies or as loans or advances. Payments and receipts related to principal portions of these loans, advances and investments are capitalized on the Statement of Financial Position. Depending upon the relevant legislation and/or particular circumstances under which a Crown agency is established, the profits generated by their operations may be: (a) turned over to the Province and recorded as revenue; (b) used to repay loans and advances made to the agency by the Province; or (c) retained by the agency.

Amounts capitalized for 31 March 2005 amounted to \$1.0 million (31 March 2004 - \$6.2 million). See Schedule J - Reconciliation of Modified Cash to Accrual.

NOTES TO THE FINANCIAL STATEMENTS (continued)

12. Contingent Liabilities**(a) Guarantees**

Guarantees made by the Province as at 31 March 2005 amounted to \$2,120.6 million (31 March 2004 - \$2,296.0 million). In addition, the Province guaranteed the interest thereon. See Schedule G - Guaranteed Debt.

(b) Legal Actions

- (i) There have been a number of statements of claim alleging negligence on the part of Government employees and agencies in not preventing abuse while these claimants were under Government care.
- (ii) A Statement of Claim has been served on the Province in its role as the regulator of mortgage brokers and investment companies.
- (iii) A number of claims have been filed against the Province for alleged breaches of contracts and/or tenders as well as for general damages and personal claims pursuant to action initiated by the Province.

(c) Other**(i) Registrar of the Supreme Court**

The Province of Newfoundland and Labrador guarantees all sums required to discharge the balances of the Registrar of the Supreme Court as administrator, guardian, trustee, etc. (*Judicature Act*).

(ii) Pensions**a) Province of Newfoundland and Labrador Pooled Pension Fund**

Pursuant to Section 9 of the *Pensions Funding Act*, the Province is liable for any deficiency in the Province of Newfoundland and Labrador Pooled Pension Fund covered by that Act. See note 9.

b) Memorial University of Newfoundland Pension Fund

Pursuant to Section 6 of the *Memorial University Pensions Act*, if there is insufficient money in the Memorial University of Newfoundland Pension Fund to provide for the payment of applicable expenditures as they fall due, the Province is liable for payment of an amount to cover the deficiency. As at 31 March 2005, the Memorial University of Newfoundland Pension Plan had a net unfunded pension liability of \$134.7 million. However, as there is currently sufficient money in the Fund for the payment of expenditures as they fall due, there is no direct liability for the Province.

(iii) Trust Accounts

Generally, the Province is contingently liable for any shortage that may occur for certain funds held in trust by the Province. Currently, all obligations held have an offsetting asset. See Schedule I - Trust Accounts.

(iv) Canadian Saltfish Corporation

On 17 July 1970, the Province entered into an agreement with the Government of Canada for the marketing of saltfish products by the Canadian Saltfish Corporation (the Corporation), pursuant to the *Saltfish Act*. The Agreement provided that the Province is required to pay to the Government of Canada its proportional share of 50 per cent of the losses to Canada. This share is based on the loss to Canada based on the total value of annual sales of cured fish products applicable to each participating province.

On 19 February 1993, the Government of Canada requested that the Province compensate it for losses incurred to 31 March 1992. The amount which the Government of Canada calculated as the Province's share of the losses is \$21.6 million.

This matter is currently under discussion between the Government of Canada and the Province. However, the Province takes the position that for a number of reasons, including the fact that the Corporation engaged in activities beyond its mandate as determined by the Auditor General of Canada and confirmed by the Department of Justice of Canada, it is not liable for the amount claimed.

NOTES TO THE FINANCIAL STATEMENTS (continued)

(v) *Newfoundland and Labrador Student Loans Program*

Under the loan guarantee component of this Program, the Province has issued guarantees totalling \$0.1 million. Under the debt reduction component of the Program, the Province is contingently liable for possible grants totalling \$21.4 million. An amount of \$20.9 million has been recorded as a provision for possible grants related to student loans due to the debt reduction program. See Schedule E - Other Liabilities.

(vi) *Environmental Responsibility*

As a result of delivering its stated programs and initiatives, there are a number of sites throughout the Province which are considered potentially contaminated sites. A liability will be accrued in the financial statements when it has been determined that the Province is liable for a site which has become contaminated and where a reasonable estimate of the remediation costs can be made. Where it is uncertain as to whether an obligation exists for the Province to remediate a contaminated site, then information on any such sites will be disclosed as contingent liabilities.

As at 31 March 2005, while the Province is aware of a number of contaminated sites, the full extent of the remediation costs for these known sites is not readily determinable. Efforts are currently ongoing to identify any other potentially contaminated sites which are owned by the Province and to collect the information necessary to assess the extent or likelihood of any environmental damage. These efforts may result in recognizing environmental liabilities or disclosing contingent liabilities due to newly identified sites and/or changes in the assessments of currently known sites.

13. Commitments

Commitments to outside organizations in respect of contracts entered into before 31 March 2005 amount to \$198.6 million of which \$13.4 million is for lease payments, \$152.2 million for capital projects, \$29.0 million for Government's service agreement with xwave Solutions Limited that will expire 31 March 2007, and \$4.0 million for other information technology services.

These commitments will become liabilities and expenses of the Consolidated Revenue Fund when the terms of the contracts are met. Payments in respect of these contracts and agreements are subject to the voting of supply by the Legislature.

14. Measurement Uncertainty

Measurement uncertainty exists when it is reasonably possible that there could be a material variance between the recognized amount and another reasonably possible amount, as there is whenever estimates are used. Estimates are based on the best information available at the time of preparation of the financial statements and are adjusted annually to reflect new information as it becomes available. Some examples of where measurement uncertainty exists are the accrual of retirement benefits, the amortization of foreign exchange gains or losses, the allowance for guaranteed debt and the accrual of self-insured workers' compensation benefits.

15. Subsequent Event - Atlantic Accord (2005)

Subsequent to 31 March 2005, the enabling legislation for the Atlantic Accord (2005) agreement was passed by the Government of Canada. The agreement provides 100% equalization clawback protection for offshore revenues for the eight year period from 2004-05 to 2011-12. Following the passing of the agreement, the Province received a \$2 billion advance payment in July 2005. While the agreement did include an allocation for the 2004-05 fiscal year, the revenue recognition criteria, as per generally accepted accounting principles, were not met until the passing of the federal legislation. As this occurred after 31 March 2005, no revenue relating to this agreement is recognized for the year ended 31 March 2005. The allocation for 2004-05 (\$133.6 million), along with the allocation for 2005-06 (\$188.7 million), will be recognized as revenue during the 2005-06 fiscal year.

NOTES TO THE FINANCIAL STATEMENTS (continued)

16. Change in Government Structure

Under sections 5 and 17 of the *Executive Council Act*, government departments were reorganized effective 23 February 2004 (Orders in Council 2004-197 to 2004-205). Pursuant to Cabinet direction, the financial structure for the departments commenced for the 2004-05 fiscal year. The comparative actual figures have been restated to reflect this new departmental structure.

17. Comparatives

Certain of the 31 March 2004 financial statement figures and related schedules have been restated to be consistent with the 31 March 2005 statement presentation. Of particular note, for 31 March 2004 a total of \$90.5 million (\$76.1 million for 31 March 2005) related to municipalities for the repayment of their debt has been reclassified from debt expense to grants and subsidies expense to reflect its true substance. As these transactions were budgeted as debt expenses and not grants and subsidies expense, the amounts presented on the Statement of Operations as Original Estimates for debt expenses and grants and subsidies expense have not been reclassified.

18. Original Estimates

Certain amounts in the 2004-05 Estimates shown for comparative purposes were prepared on the accrual basis.

The primary focus of the accrual budget information presented in the 2004-05 Estimates was to adhere to the more general format of the Consolidated Statement of Operations in Volume I. The details of the budgeted revenue and expense items that comprised the annual deficit amount of \$741.4 million (consistent with the more detailed format of the non-consolidated Statement of Operations in Volume II) were not disclosed in the 2004-05 Estimates but rather were obtained from internal documentation used to calculate the budgeted deficit disclosed in the 2004-05 Estimates.

In arriving at the original estimate figures on the Statement of Operations, implicit costs associated with the acquisition of tangible capital assets, which were eliminated from these items, were estimated based on a reasonable allocation methodology. The Estimates format and information disclosed therein is in the process of transition with respect to the inclusion of accrual based amounts.

Amounts for beginning and ending net debt (Statement of Change in Net Debt) and accumulated deficit (Statement of Change in Accumulated Deficit) were not presented in the 2004-05 Estimates and therefore are not available for comparison purposes. However, commencing in the 2005-06 Estimates, figures for net debt and accumulated deficit have been presented for the 2005-06 fiscal year.

19. Additional Notes

In addition to the aforementioned, there are various other notes disclosed in the schedules which follow.

b) Non-callable by the Province, except upon changes in tax status and/or law, then as a whole at par.

c) Callable at par at the option of the Minister of Finance of Canada upon six months' prior written notice, subject to the requirements of the Canada Pension Plan. The Province has exercised an option to refinance its maturing Canada Pension Plan debt and to date has rolled over, for a further 20 year term, all funds made available by the Canada Pension Plan Investment Fund.

d) This is a loan from the Canada Mortgage and Housing Corporation for the acquisition and construction of the Harbour Lodge. This loan is repayable over a 50 year period in blended annual installments of principal and interest, at an interest rate of 7.875%, maturing 1 December 2021.

e) This figure represents the net proceeds from the sale of \$494 million discounted treasury bills with maturity dates ranging from 07 April 2005 to 30 June 2005 and interest rates ranging from 2.440% to 2.606%.

NOTES**1. Definitions**

The headings used in this Schedule are defined as follows:

Limit of Guarantee - This represents the maximum amount of loan advances available under the Province's guarantee plus capitalized interest thereon and past due interest, less downpayment and less any receipted Provincial subsidy.

Contingent Liability - This represents the actual amount of loan advances (drawdowns) outstanding under the various guarantees plus capitalized interest thereon and past due interest. This represents the amount that the Province would be liable for if it had to honour these guarantees at year end.

The difference between these two amounts reflects the financing still available under the Province's guarantee. As of 31 March 2005, capitalized interest and past due interest amounted to nil and nil respectively.

3. Municipal Loans

Interim financing for municipal capital projects is provided through these guaranteed bank loans, provided by banks and credit unions, which include interest capitalized during the construction. The Province enters into cost-sharing arrangements with municipalities and, upon completion of related projects, the Province will repay its agreed upon share of interim financing. Municipalities' shares of interim loans are refinanced through long-term borrowings by the municipalities. These long-term borrowings are not guaranteed by the Province.

4. Fisheries Loans

During a vessel's construction period, interim financing is provided through bank loans which are fully guaranteed by the Province. Once construction has been completed, these interim loans are converted to term debt by the banks. With regard to these term loans, the Province's contingent liability under each individual guarantee is determined as being limited to the lesser of the term loan or 20% of the aggregate of all term loans made by the Bank, less the total of all claims paid to the Bank by the Province with respect to these loans.

For the fiscal year ended 31 March 2005, the Province's contingent liability is limited to \$31.2 million.

5. Payments under Guarantee

During the 2004-05 fiscal year there were no payments under guarantee.

6. Student Loan Corporation of Newfoundland and Labrador

The Corporation is responsible for the funding and administration of loans to qualifying post-secondary students. A floating rate note dated 31 March 2004 was issued in the amount of \$213 million, primarily to finance the purchase of the outstanding student loan portfolio from the previous service provider - a Canadian chartered bank. The loan is unconditionally guaranteed as to principal and interest by the Province.

7. Valuation Allowance

The provision for guaranteed debt for 31 March 2005 is \$0.1 million (31 March 2004 - \$0.1 million).

NOTE

Newfoundland Government Fund

The Newfoundland Government Fund, which had been included in the Trust Accounts schedule above in previous fiscal years, has now been removed from the schedule as a result of reassessing the nature of the organization. The reassessment has confirmed that the Newfoundland Government Fund is in fact not a trust administered by the Province.
