DISTRICT 7 - DOMESTIC CUTTING PERMIT CONDITIONS

Under authority of the *Forestry Act*, Chapter F-23 and the *Cutting of Timber Regulations*, the following conditions apply to your permit:

- 1. PERMIT IS NOT VALID UNLESS MAP(s) AND ADDITIONAL CONDITIONS ARE ATTACHED!**
2. All species maybe cut in your **approved** cutting areas except for **PINE**.
- 3. Roadside cutting of DEAD or BLOWN DOWN timber is ONLY permitted within 100 meters of the centreline of all highways within Forest Management District 7 and Route 360 from Lillys Resource Road to Harbour Breton. Roadside cutting of standing living timber is NOT PERMITTED.**
4. This permit is for the harvesting and transportation of timber.
5. All Timber cut must be removed from Crown Land to a place under permit holder's control within 12 months.
6. No parking, stopping or piling of wood is permitted in areas that will obstruct ongoing logging operations.
7. Access may be restricted by the department from areas where new roads have been constructed and/or logging operations are ongoing. Domestic harvesting will not be permitted unless signed for cleanup.
8. Any forestry activity that directly or indirectly results in silt entering a water body must be dealt with immediately by contacting the District Office (882-2200). Failure to comply will result in cancellation of permit.
9. **No Cutting** of timber in Forest Improvement areas (**planted or thinned areas**) or natural regeneration areas (young thick stands of spruce or fir).
10. No other person may cut timber under this permit (not transferable) unless specified as a helper on the permit. Helpers have **NO claim** to any timber cut on this permit. Permit must be available for inspection when cutting or transporting wood.
11. **No cutting within 50 meters** of all scheduled salmon rivers. **No cutting within 30 meters** of any other waterbody including lakes, ponds, rivers, streams, brooks, etc. Wider buffers may be required within Protected Water Supply Areas (PWSAs). When applicable, these specific PWSA conditions will be attached to your permit.
12. **No cutting within 100 meters** of a cabin development area and **30 meters** of a cabin.
13. No forestry activity within 800 meters of a bald eagle or osprey nest during the nesting season (March 15 to July 31 and 200 meters during the remainder of the year). The location of any raptor nests should be reported to the Forest Service Office (882-2200).
14. The attached "Guide to Domestic Woodcutting" is a component of the Forest Service Environmental Management System certification – ISO 14001:2015. This brochure has been developed to provide domestic woodcutters with an overview of their responsibilities under the system and should be reviewed by all permit holders.

For any further information, contact the nearest Forestry Office at the address/phone number below.
