

## **10.0 SOURCES OF INFORMATION**

These guidelines present a summary of the information available on environmentally sustainable poultry production practices.

### **Provincial and Federal Agriculture**

Both federal and provincial departments of agriculture are valuable sources of information to the poultry industry. Regional agricultural engineers provide engineering advice related to poultry barn design and manure management systems. The Department of Forest Resources and Agrifoods employs specialists in a variety of disciplines such as animal science, veterinary medicine, soil science and crop production. Newfoundland and Labrador agriculture staff work cooperatively with other professionals across Canada and have a wide range of publications and standard plans available on a variety of subjects. Information can be obtained from the following offices.
