

Disclaimer

This Guide is intended to provide supplementary information to assist Providers with submitting claims to the Newfoundland and Labrador Prescription Drug Program (hereinafter referred to as the “Program” or “NLPDP”). It is not intended to replace any requirements outlined under the *Pharmaceutical Services Act* and Regulations, any applicable federal legislation or any valid agreement between the Government of Newfoundland and Labrador and the Pharmacists’ Association of Newfoundland and Labrador, dated June 25, 2012 or any subsequent agreement (the “PANL Agreement”).

This update to the Guide will replace the previous version sent by registered mail on December 15, 2011.

With the exception of policies that form part of an agreement between the NLPDP and the Pharmacists’ Association of Newfoundland and Labrador or minimum standards outlined in various Acts and Regulations, the Department of Health and Community Services reserves the right to add, delete, or update policies documented in this Guide. For this reason, the Guide is formatted to accommodate information updates easily by removing the applicable section and replacing it with the revised section. Providers will be notified by bulletin when updates to this Guide have been posted to the website. A hardcopy will be provided only when requested.
