

Wait Time Information - Total Hip Replacement Surgery

Q: What is a hip replacement?

A **hip replacement** (total hip replacement) is an orthopaedic surgical procedure in which the hip joint is replaced with man-made devices called prostheses. Replacing the hip joint consists of replacing both the ball (acetabulum) and the socket (femoral head).

Q: Where will I be referred to have this surgery?

Ask your doctor/specialist where you can have your hip replacement surgery, as this procedure is performed in the following hospitals:

Eastern Health

General Hospital - Health Sciences Centre – St. John’s
St. Clare’s Mercy Hospital – St. John’s

Central Health

James Paton Memorial Hospital – Gander

Western Health

Western Memorial Regional Hospital – Corner Brook

Labrador-Grenfell Health

Charles S. Curtis Memorial Hospital – St. Anthony

Q: How are wait times measured?

For this operation, the wait time is measured from when you and your orthopaedic surgeon decide to proceed with surgery to when the procedure is completed.

Q: What is the benchmark wait time for hip replacement surgery?

The national benchmark for hip replacement is 182 days. This means that orthopaedic surgeons and the health regions are working together to perform the majority of hip replacements within the 182-day target. The most recent wait times for hip replacement surgery in the RHAs are:

Table 1: Hip Replacement Surgery by Region for Q4 (January 1 to March 31, 2010-2011)

Region	Eastern Health	Central Health	Western Health	Labrador-Grenfell Health
Wait Time Information				
Number of hip replacement procedures completed	51	20	11	DS
5 out of 10 patients had surgery within this number of days	204 days	69 days	53 days	DS
9 out of 10 patients had surgery within this number of days	665 days	114 days	104 days	DS
Percentage of patients who had surgery within 182 days	44%	100%	100%	DS
