

Prospecting for Critical Minerals

Course Outline

9:00 AM	9:40 AM	Critical Minerals In Newfoundland and Labrador: An Overview	Dr. James Conliffe , Ph.D., Project Geologist, NL Geological Survey
9:40 AM	10:00 AM	A preliminary examination of surficial sampling methods for critical minerals	Heather Campbell , P.Geo., Project Geologist, NL Geological Survey
10:00 AM	10:30 AM	Coffee Break	
10:30 AM	11:00 AM	Rare earth element mineralization associated with peralkaline complexes in Newfoundland and Labrador	Dr. Zsuzsanna Magyarosi , Ph.D., P.Geo., Project Geologist, NL Geological Survey
11:00 AM	11:30 AM	Granite-related critical minerals (Li, Mo, W, Sn, Bi) in Newfoundland	Dr. James Conliffe , Project Geologist, NL Geological Survey
11:30 AM	12:00 PM	Fluorite in Newfoundland	Dr. Zsuzsanna Magyarosi , Ph.D., P.Geo., Project Geologist, NL Geological Survey
12:00 PM	1:30 PM	Lunch Break	
1:30 PM	2:15 PM	The Kraken Pegmatite Swarm - A Lithium Discovery in Southwestern Newfoundland	Tim Froude , P.Geo., President & CEO, Sokoman Minerals Corp.
2:15 PM	3:00 PM	Peralkaline Volcanic-Hosted REE Mineralization in Labrador: The Foxtrot-like Deposits in the Fox Harbour Volcanic Belt	Dr. Randy Miller , Ph.D, P.Geo., Vice President, Exploration, Search Minerals Inc.
