

## Geophysical and Structural Study of the Howley Sub-Basin, Western Newfoundland (MT & Seismic)

### Statement of Deliverables

- 1) Processed MT and Seismic data and associated location maps as required under the Exploration License issued by the Government of Newfoundland and Labrador
- 2) Interpretations of the individual data sets including MT inversions and interpreted seismic sections
- 3) A report integrating the geophysical data and interpretations (including the gravity data with Dr. Alison Leitch)
- 4) Publication in peer reviewed journals as appropriate
