MINERAL DEPOSITS

1. **J. Conliffe** Structurally controlled orogenic gold mineralization in the Glover Island and Grand Lake area, western Newfoundland (NTS map areas 12A/12 and 13). 1
2. **Z. Magyarosi and J. Conliffe** REE-Y patterns and fluid inclusion analysis of fluorites from the AGS fluorite deposit, St. Lawrence, Newfoundland. 27
3. **G.W. Sparkes M.A. Hamilton and G.R. Dunning** Age constraints on VMS mineralization, central Buchans–Roberts Arm Belt, Newfoundland. 49

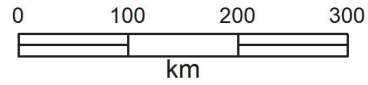

REGIONAL GEOLOGY

4. **W.D. Boyce** A Lower Cambrian Lenaldanian Series (Stage 4 – Late Dyeran) Olenellid trilobite from the Forteau Formation (Labrador Group), Man O'War I-42 Well, western Newfoundland. 65
5. **A.J. Mills and H.A.I. Sandeman** Reconnaissance lithogeochemical investigation of the Bull Arm Formation and significance of diamictite in the overlying Big Head Formation in the Long Harbour–Placentia area, western Avalon Peninsula, Newfoundland. 73

TERRAIN SCIENCES AND GEOSCIENCE DATA MANAGEMENT

6. **S. Hashmi** Preliminary interpretation of till geochemistry: Cormack (NTS 12H/06) and Silver Mountain (NTS 12H/11) map areas, western Newfoundland. 97
